Dear UNFCCC Team,

I trust that you are well. I studied some documents and the time frames of the workplan.

My solution-oriented comments on the following topics:

1. **A6.4SB00 3AAA 0 2 / page 4 of 9:** The integration of small and micro-enterprises is dealt with quite late and should be implemented more quickly. *(We developed a webplatform)*
2. **A6.4SB00 3AAA 0 2 / Table:** Areas and products are visible, but technology, financial investments, budgets or milestone planning are not not integrated or considered.
3. **A6.4-SB003-AA Member Issues / item 2.1:** Attending Bonn would be easy for me. However, it is not clear how and whether conflicting interests are in the elimination process. I have already made many positive contributions. Transparency is missing here.
4. **A6.4-SB003-AA-A02 / page 8 of 9 / Operational and Capacity Building:** As a stakeholder or member I would advise that the following should be taken into account more quickly:
 - Interrupted economic reconstruction plans
 - Residential settlement programs
 - Predominant consideration of non-EU countries

Resume:

I hope that my contribute explains supporting pillars. Climate protection could be realized in a very sustainable way.

It is not clear whether the UNFCCC needs my technical background knowledge.

Kind regards
Mit freundlichen Grüßen

Support Team
