M	4.2	Para. 15	G	In the provided passage, it states, "The host Party may indicate through the dedicated interface on the UNFCCC website that it has no objection for the proposed A6.4 project to proceed with requesting registration under the Article 6.4 mechanism." However, when the host Party's NDC and the project's goal of issuing carbon credits for voluntary carbon markets clash, the host Party can express an objection to the proposed A6.4 project.	To make it clear that the host Party must state that it does not have any conflict of interest, we suggest the following alteration: "The host Party shall explicitly declare through the dedicated interface on the UNFCCC website that it has no conflict of interest and supports the proposed A6.4 project in proceeding with the registration request under the Article 6.4 mechanism."
