M	4.5	16-18	G	The formulation on the Global Stakeholder Consultation is clear well balanced.		
M	4.5	18	E	The reference in paragraph 18 should probably to par. 17 (and not 16)		
M	6.1	86	G	It is great to have a continuous engagement mechanism included in the ACP. We have a concern regarding the requirement to submit comments in English via the UNFCCC webpage as this might impede local stakeholders from submitting comments (due to language barrier or because they are unaware of the UNFCCC platforms' comment mechanism). Therefore, in addition to this mechanism in section 6.1, we would suggest that the activity participants instal a locally adapted continuous engagement mechanism appropriate to the local context. However, this is rather a requirement for the design of project (Activity Standard) and not the Activity Cycle Procedure. We will include a corresponding comment in that document.	Proposed text added in submission on the Activity Standard (AS-P).	
М	12	226	G	It is important and good to have the reference to the Appeals & Grievance Mechanism placed in the ACP.
