**Draft conclusions proposed by the Chairs**

1. The Subsidiary Body for Scientific and Technological Advice (SBSTA) and the Subsidiary Body for Implementation (SBI) considered matters relating to the work programme for urgently scaling up mitigation ambition and implementation in this critical decade in a manner that complements the global stocktake referred to in paragraph 27 of decision 1/CMA.3 with a view to recommending a draft decision on this matter for consideration and adoption by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement (CMA) at its fourth session (November 2022).
2. The SBSTA and the SBI welcomed the submissions from Parties<sup>1</sup> and the discussions held at the mandated pre-session workshop on the work programme,<sup>2</sup> which helped to enhance understanding of the proposals Parties put forward in their submissions and advance consideration of matters relating to the work programme.
3. The SBSTA and the SBI agreed to recommend to the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement at its fourth session the draft decision text on this matter<sup>3</sup> for consideration, recognizing that this text does not represent a consensus among Parties and that further work by the CMA is necessary to finalize the decision at this session.
