

Proposal for streamlining activities

Proposal for streamlining activities	
1	<p>Preparation of KCI annual reports</p> <p style="color: red;">Preparation of KCI annual reports (7/CMA.1) Consideration of the KCI annual report by the forum (7/CMA.1)</p> <p style="color: blue;">Co-Chairs' proposal: Consideration of the KCI annual report by the forum (Paragraph 4(j) of the Annex to decision 7/CMA.1)</p>
2	<p>Mid-term review of the workplan fifty-sixth sessions of the subsidiary bodies (June 2022)</p> <p style="color: red;">Mid-term review of the workplan fifty-sixth sessions of the subsidiary bodies (June 2022) (decision 7/CMA.1)</p> <p style="color: blue;">Co-Chairs' proposal: Mid-term review of the workplan fifty-sixth sessions of the subsidiary bodies (June 2022) (Decision 7/CMA.1, paragraph 10)</p>
3	<p>Review functions, work programme and modalities of the forum at fifty-ninth session of SB (November 2023)</p> <p style="color: blue;">Co-Chairs' proposal: Review functions, work programme and modalities of the forum at fifty-ninth session of SBs (November 2023) (Decision 7/CMA.1, paragraph 6)</p>
4	<p>Prepare for the technical assessment, synthesis report on the information for global stocktake (scheduled for 2023)</p> <p style="color: blue;">Co-Chairs' proposal: Prepare information for the technical assessment component of global stocktake related to the impacts of the implementation of response measures (Decision 19/CMA.1, paragraphs 8 and 24) (June 2022)</p>
5	<p>Development of strategy for communication and outreach</p> <p style="color: blue;">Co-Chairs' proposal: delete this activity</p>
6	<p>Sector-specific case studies on the impacts of implementation of response measures on economic diversification and transformation and just transition, including experiences and challenges on assessments and analysis with a view to promoting economic diversification and transformation, improve resilience and increase private sector investment flow. (Sectors identified by Parties tourism, agriculture, energy, waste, forestry, transport, maritime, health)</p> <p style="color: red;">Develop sector specific case studies on the impacts of implementation of response measures including experiences and challenges on assessment and analysis with a view to promoting ED&T and increasing investment flows</p> <p style="color: red;">Develop a sector-specific case study on the relationship between the impacts of implementation of response measures and economic diversification and transformation</p>

Proposal for streamlining activities	
	<p>Sector specific approaches, including on tourism, agriculture and energy, to maximize the positive and minimize the negative impacts of the implementation of response measures on economic diversification and transformation and just transition</p> <p>Co-chairs' proposal: Sector specific approaches, experiences, challenges on assessment and analysis of the implementation of response measures on economic diversification and transformation</p>
7	<p>Exchange of experience, best practices and lessons learnt on assessing the impacts of the implementation of response measures in supporting economic diversification and transformation including on capacity building from relevant international organizations, academia, civil society, governments, private sector</p> <p>Exchange of experience, best practices and lessons learnt from relevant international organizations, academia, civil society, governments, private sector on assessing the relationship between impacts of the implementation of response measures and economic diversification and transformation</p> <p>Develop cooperation with relevant stakeholders and enhance information sharing, best practices, lessons learnt and case studies on economic diversification and transformation in relation to assessing the impacts of implementation of response measures, including capacity building</p> <p>Assessing the impacts of the implementation of response measures in supporting EDT and JT</p> <p>Co-Chairs' proposal: Collaborate with relevant stakeholders on the assessment of the impacts of implementation of response measures on economic diversification and transformation and just transition, including capacity building.</p>
8	<p>[Understanding economic diversification and transformation as it relates to: (a) financing and technical needs; (b) the role of technology and innovation; (c) increasing private sector investment flows; (d) trends and mitigation of stranded assets; and (e) divestment policies.]</p> <p>Understanding economic diversification and transformation as it relates to the role of technology, international trade and investment in pursuing policies for ED&T</p> <p>Co-Chairs' proposal: To delete this activity. Aspects (a) and (b) are addressed elsewhere, whereas (c) to (e) are outside the scope of mandates, and there are activities involving general policy issues of concern to Parties.</p>
9	<p>[Understanding how governments and subnational players can assess the economic impacts of potential new industries and businesses resulting from the implementation of Paris Agreement.]</p> <p>Understanding how stakeholders can assess the economic impacts of potential new industries and businesses resulting from the implementation of Paris Agreement</p> <p>Co-Chairs' proposal: Understanding how stakeholders can assess the economic impacts of potential new industries and businesses on just transition resulting from the implementation of the Paris Agreement.</p>

Proposal for streamlining activities	
10	<p>[Improving Parties' knowledge and developing a process for understanding relevant policy issues of concern to Parties in facilitating economic diversification and transformation.]</p> <p>Improving Parties' knowledge and developing a process for understanding relevant policy issues of concern to Parties.</p> <p>Co-Chairs' proposal: Improving Parties' knowledge and developing a process for understanding relevant policy issues of concern to Parties.</p>
11	<p>[Identifying and analysing response measures targeting production and consumption and quantifying their impacts, especially on Parties' prospects of achieving economic transformation, inclusive growth and poverty reduction.]</p> <p>Identifying and analysing response measures targeting production and consumption and quantifying their potential impacts, especially on Parties' prospects of achieving sustainable development, inclusive growth and poverty reduction.</p> <p>Co-Chairs' proposal: Delete</p>
12	<p>Preparing guidelines for economic diversification and transformation, including means to mobilize support (<i>inter alia</i>, finance, technology and capacity building), to address relevant policy issues of concern to Parties and barriers to economic diversification and transformation.</p> <p>Exchange of case studies and concrete examples of how parties have addressed barriers to ED&T</p> <p>Build capacity and improve knowledge on the role of trade, technology and investment in achieving ED with a view to address sustainable development needs and challenges of developing countries in facilitating ED.</p> <p>Co-Chairs' proposal: Build capacity and improve knowledge for economic diversification and transformation, including barriers, and relevant policy issues of concern to Parties.</p>
13	<p>Exchange of experiences, best practices and strategies on just transition focusing on challenges and opportunities to facilitate the creation of decent work and quality jobs from the implementation of low greenhouse gas emission policies and strategies in the context of sustainable development, from relevant international organizations, academia, civil society, governments and the private sector.</p> <p>Identify, best practices and strategies on just transition focusing on challenges and opportunities to facilitate the creation of decent work and quality jobs in the context of sustainable development, from relevant international organizations, academia, civil society, governments and the private sector.</p> <p>Identify, best practices and strategies on just transition focusing on challenges and opportunities to facilitate the creation of decent work and quality jobs in the context of sustainable development, from relevant international organizations, academia, civil society, governments.</p> <p>Co-chairs' proposal:</p>

Proposal for streamlining activities	
	<p>Identify best practices and strategies on just transition focusing on challenges and opportunities to facilitate the creation of decent work and quality jobs from the implementation of low greenhouse gas emission policies and strategies in the context of sustainable development, from governments and relevant international organizations and stakeholders.</p>
14	<p>Exploring ways and means on how just transition and economic diversification and transformation can inform the preparation and implementation of nationally determined contributions.</p> <p>Explore approaches to the development and implementation of NDCs and long-term low greenhouse gas emission strategies that maximize the positive impacts and minimize the negative impacts of response measures.</p> <p>Identifying and assessing the impacts of mitigation policies from NDCs on the socio-economic development of countries with economies most affected by response measures with a view to address and minimize the negative impacts and maximize the positive impacts</p> <p>Co-Chairs' proposal: Explore approaches to the development and implementation of NDCs and long-term low greenhouse gas emission strategies that maximize the positive impacts and minimize the negative impacts of response measures.</p>
15	<p>Prepare guidelines to assist Parties in developing a framework on just transition of workforce and the creation of decent work and quality jobs in specific sectors, including the mobilization of finance to support the transition, foster policy coherence, training and retraining systems for workers affected by the impact of the implementation of response measures.</p> <p>Build awareness of policy framework and existing guidelines on just transition of workforce and the creation of decent work and quality jobs</p> <p>Prepare information notes to assist Parties with developing national frameworks on just transition of workforce and the creation of decent work and quality jobs in specific sectors, including the mobilization of finance to support the transition, foster policy coherence, promote training and retraining systems for workers affected by the impact of the implementation of response measures.</p> <p>Co-Chairs' proposal: Prepare guidelines to assist Parties in developing a framework on just transition of workforce and the creation of decent work and quality jobs in specific sectors, including the mobilization of finance to support the transition, foster policy coherence, training and retraining systems for workers affected by the impact of the implementation of response measures.</p>
16	<p>Sharing and understanding of successes and challenges of establishing mutually beneficial partnerships on creation of decent work and quality jobs in domestic development and use of renewable energy technologies towards creating inclusive growth of green value chains across countries.</p> <p>Sharing successes and challenges of creating decent work and quality jobs in low emission technology industries.</p> <p>Co-Chairs' proposal:</p>

Proposal for streamlining activities	
	<p>Sharing and understanding of successes and challenges of establishing mutually beneficial collaborative initiatives on creation of decent work and quality jobs in the use of renewable energy technologies towards creating inclusive growth of green value chains across countries.</p>
17	<p>Regional and/or country case studies on just transition of work force and creation of decent work and quality jobs focusing on gender- responsiveness, approaches to embed just transition and job creation in low carbon, climate-resilient development planning with a view to minimize the negative impacts and maximize the positive impacts.</p> <p>Regional and/or country case studies on the linkages between mitigation action and employment in particular focus on assessments on employment and labor market, divestment policies and stranded assets: gender- responsiveness with a view to minimize negative impacts and maximize the positive impacts if the implementation of response measures.</p> <p>The exchange and sharing of regional and/or country case studies on just transition of work force and creation of decent work and quality jobs focusing on gender- responsiveness, approaches to embed just transition and job creation in low emission, climate-resilient development planning with a view to minimize the negative impacts and maximize the positive impacts.</p> <p>Regional and/or country case studies on the linkages between mitigation action and employment.</p> <p>Co-Chairs' proposal: The exchange and sharing of regional and/or country case studies on just transition of work force and creation of decent work and quality jobs focusing on gender- responsiveness, divestment policies and stranded assets, approaches to embed just transition and job creation in low-emission, climate-resilient development planning with a view to minimize the negative impacts and maximize the positive impacts.</p>
18	<p>Understanding and measuring the impacts of transitioning strategies, including support needs, on employment and the creation of decent work and quality jobs.</p> <p>Assessing and analyzing the domestic and cross-border impacts of transitioning strategies, with a view to enhancing and identifying support to promote employment and the creation of decent work and quality jobs.</p> <p>Sharing of information, experiences, case studies, best practice and views the relationship between just transition strategies on employment and the creation of decent work and quality jobs.</p> <p>Co-Chairs' proposal: Assessing and analyzing the impact of transitioning strategies and their implementation on employment and the creation of decent work and quality jobs.</p>
19	<p>[[Experiences and best practices on the role of financial and fiscal instruments in managing energy system transformation from fossil fuel to green energy.]]</p> <p>Exchanging experiences and best practices on the impacts of the decarbonization of the energy system on just transition and the creation of decent work and quality jobs with a focus on measures implemented to minimize the negative impacts and maximize the socio-economic positive impacts of response measures.</p>

Proposal for streamlining activities	
	<p>Exchanging experiences and best practices on the impacts on the energy sector on just transition and the creation of decent work and quality jobs with a focus on measures implemented to minimize the negative impacts and maximize the socio-economic positive impacts of response measures.</p> <p>Co-Chairs' proposal: Exchanging experiences and best practices on the impacts of the decarbonization of the energy systems on just transition of the workforce and the creation of decent work and quality jobs with a focus on measures implemented to minimize the negative and maximize the socio-economic positive impacts.</p>
20	<p>Exchanging lessons learnt, best practices on analysis and assessment of positive and negative impacts of the implementation of response measures by businesses, countries and regions.</p> <p>Exchanging lessons learnt, best practices on analysis and assessment of positive and negative impacts of the implementation of response measures by Parties.</p> <p>AGREED TEXT: Exchanging lessons learnt, best practices on analysis and assessment of positive and negative impacts of the implementation of response measures by Parties.</p>
21	<p>Identify and assess the impacts of the implementation of response measures on gender, local communities and indigenous people, co-benefits, economic transformation initiatives, and youth and vulnerable groups.</p> <p>Identifying and assessing the social impacts of the implementation of response measures with a particular focus on gender, local communities and indigenous people, youth and vulnerable groups.</p> <p>Identify and assess the impacts of the implementation of response measures</p> <p>Identify and assess the impacts of the implementation of response measures on policy issues of concern including international trade, gender, local communities and indigenous people, co-benefits, sustainable development, youth and vulnerable groups.</p> <p>Co-Chairs' proposal: Identifying and assessing the social impacts of the implementation of response measures with a particular focus on gender, local communities and indigenous people, youth and vulnerable groups.</p>
22	<p>[Assessing and analyzing the strengths and weaknesses of the existing reporting structures and cooperation among Parties on the impacts of the implementation of response measures, including exchanging experiences and best practices.]</p> <p>Identify for developing country Parties capacity building initiatives for transparency on response measures to promote notification of measures and develop guidelines for notification of measures and actions to minimize impacts of the implementation of response measures.</p> <p>Co-Chairs' proposal: Sharing experiences and best practices of country reporting on efforts to assess and analyze the impacts of the implementation of response measures in BURs and BRs with a view to informing the BTRs preparation by Parties.</p>

Proposal for streamlining activities	
23	<p>Develop guidance for assessing the environmental, social and economic impacts of mitigation policies and actions, including the use of existing tools and methodologies</p> <p style="color: red;">Exchange and sharing of experiences and best practices on assessing the environmental, social and economic co-benefits of mitigation policies and actions, including the use of existing tools and methodologies.</p> <p style="color: blue;">Co-Chairs' proposal: Exchange and sharing of experiences and best practices on assessing the environmental, social and economic co-benefits of mitigation policies and actions, including the use of existing tools and methodologies.</p>
24	<p style="color: red;">[Modelling and assessing the impacts of the implementation of response measures focusing on (a) methods, assessment and examples of modelling tools and (b) data requirement and challenges.]</p> <p style="color: red;">Facilitate the development of tools for modelling and assessing the impacts of the implementation of response measures focusing on (a) methods, assessment and examples of modelling tools and (b) data requirement and challenges.</p> <p style="color: red;">Developing and updating comprehensive modelling tools and methodologies for assessing the impacts of implementation of cross-border response measures and facilitating the development of methods to address data requirement and challenges.</p> <p style="color: red;">Discussion of existing methods and assessment tools applicable to measuring the impacts of the implementation of response measures focusing on (a) available methods and modelling tools and (b) data requirement and challenges.</p> <p style="color: blue;">Co-Chairs' proposal: Facilitate the development of tools for modelling and assessing the impacts of the implementation of response measures focusing on (a) methods, assessment and examples of modelling tools and (b) data requirement and challenges.</p>
25	<p>Developing new partnerships and enhancing existing cooperation, with academia, intergovernmental organizations, private sector, civil society in the development and use of modelling tools.</p> <p style="color: red;">Cooperating with academia, intergovernmental organizations, private sector and civil society to facilitate assessment and analysis of the impact of the implementation of response measures.</p> <p style="color: red;">Cooperating with academia, intergovernmental organizations, private sector and civil society to facilitate the development of tools and methodologies for the assessment and analysis of the impact of the implementation of response measures. (7/CMA.1 language)</p> <p style="color: red;">Cooperating with academia, intergovernmental organizations and civil society to facilitate the development of tools and methodologies for the assessment and analysis of the impact of the implementation of response measures. (7/CMA.1 language)</p> <p style="color: blue;">Co-Chairs' proposal:</p>

Proposal for streamlining activities	
	Cooperating with academia, intergovernmental organizations and civil society to facilitate the development of tools and methodologies to assess the impact of the implementation of response measures.
26	<p>Facilitate (a) the exchange of information and guidelines developed by relevant organizations and (b) capacity building workshops and regional training programmes by relevant partners, on tools and methodologies for assessing the impacts of the implementation of response measures.</p> <p>Exchange and sharing of experience and best practices on the national application of tools and methodologies for assessing the impacts of implementation of response measures.</p> <p>Co-Chairs' proposal: Exchange and sharing of experience and best practices on the national application of tools and methodologies for assessing the impacts of implementation of response measures.</p>
27	<p>[Developing a methodology for BUR /BTR reporting related to response measures]</p> <p>Co-Chairs' proposal: To delete this activity (see proposal for activity 22)</p>
28	<p>[Develop initiatives with other bodies to promote cooperation with respect to Art.3.5 of the Convention.]</p> <p>Co-Chairs' proposal: To delete this activity.</p>
