

**NON-MARKET APPROACH, A WAY TO  
ENHANCE ACTION AND ENABLE WIDER  
SOCIAL INVOLVEMENT**

**DCJ**

Demand Climate Justice

# THE EMERGENCY IS NOW!

With only 1 C warming:

- Half of ice volume lost in the Tropical Andes
- Wide spread Wild Fires in the amazon- and other regions
  - Danger of tipping points
- Greater Loss and Damage every year

# NEED TO ENHANCE CLIMATE ACTION AND AMBITION

What is climate ambition?

Must encompass more than carbon Gt:

- Ecological integrity
- Indigenous rights and land management and practices
- Structural change in food production systems
- Promote change of consumption patterns

**The Mitigation Potential of Non-Market Approaches**

**almost 10 Gt of CO<sub>2</sub> per year –  
and a total of 448 Gt by 2100.**

# IMPLEMENTATION OF NMAS

## Conditions:

- Gender based
- Community led ecosystem approach
- Must respect and guarantee ecosystemic limits
- Raise climate ambition

## NMA can additionally advance and deliver

- Secure indigenous Rights, land titling and other dimensions
- Food security
- Changes on Unsustainable Consumption and production patterns
- foster mutual benefits/incentives for host and donors
