Subsidiary Body for Implementation

Fiftieth session Bonn, 17-27 June 2019

Informal Note

16 June 2019

Projects to be funded in 2020–2021 under the **Trust Fund for Supplementary Activities**

- This informal note contains extracts of the relevant information from the official budget documentation on the activities to be funded from the Trust Fund for Supplementary Activities (TFSA). This information is drawn from Annex V of the main budget document and section 3 of the work programme.
- The note contains two tables. The first presents the outputs funded from the TFSA in the proposed budget by objective and division. The second table contains the additional activities which would require supplementary funding under a zero nominal growth (ZNG) scenario without the application of programme support costs (PSC). Annex V of the budget document contains the data with PSC for the ZNG scenario. Total resource requirements for the proposed budget and the ZNG are reflected in the work programme.

Table 1 Supplementary resource requirements in the proposed budget

Objective, division, activity and outputs	EUR
1a. Intergovernmental engagement	
Transparency	
Additional support to the development of the enhanced transparency framework	1 594 385
• 5 expected/recurring agenda items under the MPGs for the ETF, supported through the preparation of documents, reports and governing body decisions/conclusions Arrangements are made for organizing the negotiation sessions under the subsidiary bodies and technical working sessions such as workshops	
Intergovernmental Support and Collective Progress	
Enhanced coordination and operational support to Presidency teams	662 948
 Draft agendas, overviews, presentations, briefing notes, summaries and other materials to support coordination, outreach activities and a coherent approach by the presiding officers of the governing and subsidiary bodies 	
Legal Affairs	
Enhanced legal support to presiding officers	309 032
• Enhanced research and analysis of issues, preparation of advice in response to inquiries from parties and Presiding Officers	
1b. Established processes	
Adaptation	
Enhanced support to established work programmes on research and systematic observation, the	

1 249 007

- 6 regional NAP Expos with a total of 30 funded participants

technical examination process on adaptation, the NWP and NAPs

• 5 LAKI meetings with a total of 75 funded participants

• 1 NAP technical meeting with 25 funded participants

- 2 research dialogues
- 2 Earth Information Days
- 1 TEM and 1 technical paper

Objective, division, activity and outputs	EUR
• 4 technical reports	
Mitigation	
Support to the technical examination process on mitigation	441 423
• 2 TEMs (including technical inputs) and 1 technical paper	
Means of Implementation	
Enhanced support, engagement and outreach in support of the development of the biennial assessment and overview of financial flows including in relation to Article 2, paragraph 1(c), of the Paris Agreement, and determination of needs of developing countries	1 264 072
a) Comprehensive technical support for the preparation and delivery of the fourth BA:	
 2 BA technical meetings Mapping of information relevant to Article 2, paragraph 1(c), of the Paris Agreement Web-based aggregate-level data on climate finance flows and related outreach products 	
b) Comprehensive technical support for the preparation and delivery of the first report on determination of needs of developing countries:	
2 technical meetingsMethodological issues	
c) Web-based information and related outreach products	
Transparency	
Full support to all potential reviews of national reporting, including reporting related to REDD-plus	2 917 854
• 30 reports of BUR technical analyses and 30 FSV records	
 13 reports on the technical assessment of REDD-plus reference levels and technical analysis of REDD-plus results 	
 44 of each of the status, assessment and review reports of GHG inventory reviews Sets of guidelines, reference materials and tools are prepared in order to support: GHG 	
inventories review process NC/BR reviews; BUR technical analyses; REDD-plus technical assessment/analysis	
• 1 intersessional workshop under the KJWA	
 New experts are trained to meet the increasing demand of the existing MRV process and prepare for the transition to ETF (50 experts for GHG reviews, 50 experts for NC/BR reviews and 75 experts for BUR technical analyses) 	
 Existing training modules for MRV are updated; new training programmes for ETF are developed and implemented 	
 The technical needs for developing country Parties participating in the MRV process are identified 	
 Technical and implementation guidance for the transition of Parties from MRV to ETF is developed 	
Intergovernmental Support and Collective Progress	
Enhanced support for the review of the long-term goal and preparations for the global stocktake • 2 methodological workshops on the GST	514 286
 2 methodological workshops on the GST Draft plan for chairs of the subsidiary bodies on the conduct of the GST 2 technical workshops with regard to the periodic review 	
Communications and Engagement	
Enhanced support to ACE and the summary for policymakers on the technical examination	
processes on mitigation and adaptation	504 025
• 6 workshops/webinars on ACE guidelines	
 Co-organization of fifth and sixth Global Youth Video Competition on Climate Change Guidelines for promotion of public awareness of climate change, climate impacts and 	
climate action	
1 summary for policymakers2 yearbooks of climate action	
2. Constituted bodies	
Adaptation	
Support for the full extent of activities envisaged in the workplans of the AC, LEG, LCIPP	2 002 542
FWG and WIM Executive Committee	3 893 542

- 5 regional NAP training workshops with 145 national experts trained
- 17 technical meetings and workshops:
 - AC (4)
 - LEG (1)
 - LCIPP (4)
 - WIM ExCom (4) and its task force on displacement (4)
 with a total of 305 funded experts and country representatives attending
- 10 Open NAP case studies
- Reports/documents by constituted bodies

Mitigation

Support for the full extent of activities envisaged in the workplans of the KCI and contingency for any institutional arrangements related to Article 6 of the Paris Agreement

4 075 164

- Estimated 8 meetings of the supervisory body for Article 6, paragraph 4, and the forum/task force for Article 6, paragraph 8, of the Paris Agreement; meeting agenda and outcomes made available for each
- Estimated 2 annual reports of the supervisory body for Article 6, paragraph 4
- Reports/documents/technical papers as per work programmes of Article 6 bodies

Means of Implementation

Support for the full extent of activities envisaged in the workplans of the SCF, the TEC and the PCCB

767 390

- 2 TEC policy briefs/technical papers/knowledge products
- 1 TEC workshop and 2 thematic dialogues

Transparency

Support for the full extent of short-term activities of the CGE, in particular in support of developing countries reporting

10 591 305

- Technical guidance materials/tools on the application of MPGs for the ETF
- A database on the technical needs of developing country Parties to participate in the existing MRV and the ETF
- 3 regional workshops on the preparation of NCs/BURs
- 4 regional workshops on the MPGs for the ETF
- Updated online CGE e-learning programme and e-network
- 6 regional trainings and 12 webinars on the existing MRV and the new ETF
- 6 workshops on building sustainable national GHG inventory management systems, and the use of the 2006 IPCC Guidelines for National Greenhouse Gas Inventories
- 40 quality assurance activities of the GHG inventory management systems of developing country Parties
- 3 sets of updated training materials on GHG inventories and an online training programme on themes covered by NCs, BURs and biennial transparency reports, as well as on institutional arrangements necessary to support MRV and ETF

Legal Affairs

Support for the full extent of short-term activities of the compliance committees under the Kyoto Protocol and the Paris Agreement

276 353

• Provide comprehensive substantive, legal and procedural support to the bodyies under the Kyoto Protocol and the Paris Agreement related to promoting compliance

3. Data and information management

Adaptation

Development and enhancement of adaptation-related data portals, including adaptation registry, NAPs. NWP

634 843

5 data portals enhanced:

- Adaptation Registry
- NAP Central
- · LCIPP web portal
- Adaptation knowledge portal
- Fiji Clearing House for Risk Transfer

Development and enhancement of mitigation-related data portals and data management systems, including an NDC registry, an information portal on long-term low-emission development strategies and a contingency system for corresponding adjustment under Article 6, paragraph 2, of the Paris Agreement 26 18 18 18 18 18 18 18 18 18 18 18 18 18	Objective, division, activity and outputs	EUR

EUR

- 10 workshops per biennium in the context of climate weeks and Marrakech Partnership to support countries in designing policy instruments to enhance incentives for deploying private capital to mitigation activities.
- Green investment incubators established and work monitored

Means of Implementation

Enhanced engagement with Parties and other stakeholders to strengthen the capacities of developing countries with respect to the implementation of NDCs and NAPs

2 737 631

- Fellows from developing countries are supporting the activities of the secretariat
- Facilitated actions through collaboration with relevant stakeholders to support developing countries in their efforts to develop climate finance strategies, including through high-level partner dialogues
- Effective collaboration between the UNFCCC secretariat and the NDC partnership to facilitate the implementation of national level climate action
- Enhanced outreach materials, including social media use, on matters related to finance, technology and capacity-building

Transparency

Enhanced engagement with national reporting experts to enhance capacity for participation in the transparency arrangements under the Convention and the Paris Agreement

569 283

- Collaboration and partnership activities with United Nations and other intergovernmental organizations working on MRV, ETF and data matters; training
- 4 meetings of the MRV/ Transparency Group of Friends
- 5 regional MRV/ transparency networks for South–South cooperation

Communications and Engagement

Enhanced engagement of all stakeholders in the UNFCCC process and action towards the objective of the Convention, including provision of multilingual communications materials and regional engagement

6 526 518

- 1,000 news items for the UNFCCC Newsroom (in Arabic, Chinese, French, Russian and Spanish)
- 10,0000 social media postings (in Arabic, Chinese, French, Russian and Spanish)
- 20 digital campaigns to promote an increase in major activities
- UNFCCC-sponsored media workshops for journalists from developing countries
- Promotional material, such as videos, web briefings, direct reporting, joint outreach products and social media campaigns developed to highlight climate action initiatives
- Decisions on side events (1,500), exhibits (500) and interviews (350)
- Web calendars of side events, exhibits and climate action studio interviews
- Servicing of side events (approximately 600), exhibits (approximately 500) and climate action studio interviews (200) by Parties and observer organizations, including their live broadcasting (500) and web posting (700)
- Momentum for Change submission reviews (500), award events (4), continual promotion and engagement
- Relationships maintained with all constituencies
- Workshops and enhanced engagements on reporting on gender work programme

AS/HR/IT

Enhancement of the information and communication technology infrastructure required to support virtual participation and engagement in UNFCCC events and activities

805 690

• Virtual meeting/participation system maintained and supported

Legal Affairs

Enhanced engagement with and support of legislators and policymakers through information exchange and knowledge management with respect to climate change legislation

811 403

- Provision of assistance to Parties, upon request, to develop legal capacity-building and legal training/education products and tools
- Research and analysis of issues, and preparation of advice in response to inquiries from stakeholders

Ohiostino	Jini ai an			
Objective,	aivision,	activity	unu	outputs

EUR

- Upon Parties' request:
 - Provision of advice and other services to Parties to assist them in better understanding the new components of the climate change regime and advance their climate change related legislation
 - Development of training materials and modules to foster legal knowledge and understanding of the Paris Agreement, related decisions and MPGs, and participation in climate change negotiations

Executive

Enhanced engagement by the Executive Secretary and Deputy Executive Secretary in United Nations wide management and coordination activities

230 520

• 70 engagements in high-level events, meetings and media activities to promote the achievement of the objectives and goals of the Convention, the Kyoto Protocol and the Paris Agreement

5. Oversight and administration

AS/HR/ICT

Upgrading of the secretariat's information and communication technology infrastructure

614 234

• Enhanced enterprise mobility capabilities provided

• Compilations and synthesis of inputs for the periodic review

Total 56 047 241

3. Table 2 shows the resource requirements additional to the ones in table 1, which would be needed in case the ZNG scenario were adopted.
