### Draft text

First iteration

### [CMA Decision]

#### Option 1:

The *Conference of the Parties serving as the Meeting of the Parties to the Paris Agreement*

*Based on the mandate contained in Decision 1/CP.21, paragraph 57,*

*Recalling* Articles 4 and 11 of the Convention;

*Further recalling* Articles 2, 3, 4, 7, 8, 9, 10, 11, 13 of the Paris Agreement

1. *[Takes note of decision XX/CMA on the information to be provided by Parties in their biennial communication of indicative support in accordance with Article 9, paragraph 5 of the Paris Agreement;]*
2. *[Confirms that the accounting reports by developed country Parties on financial resources provided through public interventions via the transparency framework will reflect the information provided in the biennial indicative communication of support;]*
3. *Endorses the modalities for the accounting of financial resources provided and mobilized through public interventions in accordance with article 9, paragraph 7, [applicable to the information to be reported under article 13 of the Paris Agreement,] as included in Annex I to this decision.*
4. *[Reaffirms that the modalities build on existing reporting guidelines for developed country Parties, including those specified in decision 2/CP.17 and decision 9/CP.21;]*
5. *Decides that these modalities shall be applicable as of the first report of developed country Parties under the transparency framework.*
6. *[Confirms that the information provided by developed country parties in their respective reports as per Article 9.7 should reflect the progression in the provision of finance under the Paris Agreement;]*
7. *[Encourages other Parties that provide support to implement these modalities when voluntarily reporting such support, if applicable and to the extent possible.]*

#### Option 2:

*The below annex would be adopted by the CMA in the decision adopting the transparency MPGs, and not as a standalone CMA decision. This would ensure that the guidance is coherent with the rest of the MPGs. Under the current APA5 tool, it would be included as part of Section E of the MPGs.*

## Annex

1. a. [These modalities shall be applicable as of the first report of developed country Parties under the transparency framework.]

b. [Other Parties that provide support [should] [may] implement these modalities when voluntarily reporting such support, if applicable and to the extent possible.]

1.bis [Parties that provide support] [Developed country Parties] [Reporting Parties] [will][shall] provide information on financial support provided and mobilized to developing country Parties under Article 9, [developing country Parties report the information on voluntary basis], consistent with paragraph 9 of Article 13 and paragraph 7 of Article 9

1.ter [Each Party] [Developed country Parties] [Reporting Parties] that provides information on financial support provided and mobilized through public interventions, in accordance with paragraph 9 of Article 13 and paragraph 7 of Article 9 of the Paris Agreement, shall implement these modalities, taking into account Parties' different capacities.]

2. [The reports by developed country Parties on financial resources provided and mobilized through public interventions shall reflect the information provided in their biennial communication of indicative support]

### **B. [Cross-cutting] underlying assumptions, definitions, and methodologies**

4. In order to enhance transparency on reporting, each [reporting Party][developed country Party][developed country Party shall and developing country Party should] [Parties] [that provides information] [should][shall] describe its underlying assumptions, methodologies and definitions, as applicable and available, used to identify and/or report:

(a) The chosen reporting year (calendar year, fiscal year);

(b) The conversion between domestic currency and USD;

(c) The status (committed, disbursed); [, including official documentation;]

(d) The channel (bilateral, regional, multilateral);

(e) The funding source (ODA, OOF, or other);

(f) The financial instrument (e.g. grant, concessional loan, non-concessional loan, equity, guarantee, insurance, other (specify));

(g) [Both face value and grant-equivalent value, if relevant;]

(h) [The net finance provided, in case where loan repayments by recipient countries the period of reporting is done][,as well as loan repayments and return on investments;]

(i) The type of support (e.g. adaptation, mitigation, or cross-cutting, [loss and damage];)

(j) The sector;

- (k) [The sub-sector;]
- (l) The information whether it supported capacity-building and/or technology-transfer objectives [, including the share of support that contributes to this objective;]
- (m) The support as being “climate-specific”;

Option 1:

*Beginning of option 1*

- (n) The avoidance of double counting [among multiple Parties involved in the provision and mobilization of support];
- (o) [How the resources used through emission trading schemes with developing countries were not counted as support provided or mobilized;]

*Ending of option 1*

Option 2:

*Beginning of option 2*

- (p) [Underlying methodologies, assumptions and definitions used to assess how the double counting among multiple Parties involved in the provision and mobilization of support was avoided, including methodologies use to attribute the resources to the reporting Party, and how the double counting between the resources reported as provided and mobilized and the resources used to buy or create ITMOs was avoided;]

*Ending of option 2*

- (q) The resources as provided;
- (r) The support as going to the recipient;
- (s) [How information submitted was mutually agreed/cross-checked with recipients before submitting;]
- (t) [The amount of funding disbursed per each beneficiary country, in cases where a project involves more than one country;]
- (u) [The definition of public and private finance, in particular in cases where entities or funds are mixed]
- (v) [The attribution of mobilised private finance, where multiple public actors are involved;]

Option 1:

*Beginning of option 1*

- (w) The finance as being mobilized (those related to assumptions establish causality between a public intervention and mobilized finance, [including evidence,] boundaries, time-period, [leveraging factor per type of public intervention reported];)
- (x) [The assessment of causality between public interventions and flows of private finance;]

*Ending of option 1*

Option 2:

*Beginning of option 2*

- (x) [Information on boundaries, taking into considerations characteristics of different instruments and mobilisation over time;]
- (y) [How there is a causal link between the public intervention and the private finance (e.g. how the private financiers would not have invested or participated without an official finance provider arranging or participating in it);]

*Ending of option 2*

Option 1:

*Beginning of option 1*

(z) [How resources are considered to implement Paris Agreement efforts in developing countries;]

(aa) [How [support has][resources have] been targeted at NDCs/NAPs/country needs, [including for loss and damage,] and how [it has][they have] facilitated the implementation of the Paris Agreement;]

*Ending of option 1*

Option 2:

*Beginning of option 2*

(bb) [Information on how support provided and mobilized has targets the need and priorities of recipient countries [including for loss and damage,] and has supported the recipient countries in the implementation of the Paris Agreement;]

*Ending of option 2*

Option 3:

*Beginning of option 3*

(cc) [Underlying methodologies, assumptions and definitions used to assess how support provided and mobilized has targeted the [needs and] priorities of recipient countries and has supported the recipient countries in the implementation of the Paris Agreement;]

*Ending of option 3*

(dd) [How support is considered new and additional;]

(dd) alt. [An indication of what new and additional financial resources they have provided, and how they have determined that such resources are new and additional;]

(ee) [How it represents a progression from previous levels;]

(ff) [How resources are consistent with Article 2.1(c) and contribute to the fulfillment of finance goals;]

(gg) [The outflows through multilateral channels to developing country Parties, including methodologies, and information from financial institutions by financial instrument and recipient;]

(hh) [The imputed multilateral contributions, a percentage of their core contribution, based on the totals reported by the MDB on overall climate-specific financing by MDBs. Obviously reporting needs to avoid double-counting;]

(ii) [The criteria used by Parties and international financial institutions to identify contributions, support and outflows as being climate specific;]

(jj) [The calculation of the amount of resources provided to mobilize support;]

(kk) Information on experience and good practices on public policy and regulatory frameworks to incentivize further private climate financing and investments;

(ll) [How developed country Parties have been enhancing comparability and ensuring harmonization of their information with those of other developed country parties reported information;]

4.bis [In order to improve comparability of reporting, Parties shall use international standards, to the extent possible, in the provision of information of financial support provided and mobilized through public interventions;]

## C. Information on financial support provided [and mobilized under Article 9]
