P1.5.1	The ERT notes from the SIAR that the national registry does not fully comply with the functions set out in the annex to decision 13/CMP.1 and the annex to decision 5/CMP.1. The SIAR points out that relevant information from the administrator of the national registry is lacking. Such information includes, in the disaster recovery plan, the following: (1) disaster recovery roles and responsibilities for primary and alternative national registry personnel; (2) a contingency plan communication procedure; (3) documentation on the operation of the national registry in a crisis situation; and (4) a periodic testing strategy, based on mechanisms agreed with the host of the national registry. During the review, Liechtenstein explained that its national registry is operated by the European Union hence the Party assigned the functions relating to the disaster recovery plan to the Central Administrator of the European Union The ERT, noting the explanation by Liechtenstein, recommends that this information is included in its next submission.
