

Webinar on the Support Ecosystem for the Next Round of NDCs for the Pacific Region – March 26, 2024

Amit Singh

What is the support available and on offer for NDCs?

- SPC assumes PMU of NDC Hub in August 2024
- Support available to the countries include;
 - **Normal support provided through NDC Hub including** - NDC Update and enhancement, NDC MRV, NDC investment planning and project pipelines, review of NDC enabling policy and planning at national level, sectoral support, finance and investment, capacity building, and communications support.
 - **Additional Support through SPC includes** – the NDC Hub under SPC management will provide the NDC Hub members access to the existing strength and capabilities of the technical divisions at SPC to further their implementation of NDCs.
 - **Climate Finance** - imbedding itself in regional architecture connecting to climate finance.

How can countries reach out to the partners?

There are several ways countries can reach out to SPC/ NDC Hub for support;

- through NDC Hub - a call for country request will be launched and communicated to the country focal points on submission of country priority project to NDC Hub for support. The details around this will be shared to focal points.
- Through SPC – countries can reach for support through their existing projects and contacts at SPC or through the SPC regional offices.
- NDC Hub will also support French territories through funding from France on NDC related issues.

Imbedding NDC Hub in SPC & Regional Architecture connecting to climate finance

- ▶ Front end Readiness and programming service
- ▶ Conduit to broader institutional and partnership capabilities
- ▶ Leveraging connection to climate finance for implementation
