Re: Your letter to the Supervisory Body dated 12 June 2026

Dear Mr. Agnew,

I would like to thank you for your communication dated 12 April 2026, which has been made available to the Article 6.4 Supervisory Body in accordance with the relevant provisions of the Procedure: Direct Communication with Stakeholders.

The Supervisory Body notes with appreciation the information provided by Sistema.bio on the mitigation potential and sustainable development benefits of household biodigester activities, including methane mitigation, animal manure management, renewable thermal energy applications and sustainable development.

The Supervisory Body wishes to inform you that the development of a dedicated Article 6.4 methodology for household biodigester activities may be taken into consideration, as appropriate, in the preparation of future workplans. In the meantime, stakeholders may submit proposals for mechanism methodologies or methodological tools for consideration under the Article 6.4 mechanism by following the official submission process set out in the [Procedure for the development, revision and clarification of methodologies and methodological tools](#). Further information on submitting bottom-up methodologies is available through the relevant Article 6.4 mechanism [webpage](#).

Thank you for contacting the Supervisory Body with your request.

Yours sincerely,

James Grabert
Secretary to the Article 6.4 Supervisory Body
