Capacity Building Partnerships for the Energy Transition

PCCB Network[ing] to Build Partnerships for Impact
SB64 · Bonn · 15 June 2026

Call for Partnerships

GEIDCO

Why Capacity Building Matters

The energy transition is moving from vision to implementation.

Capacity building is a fundamental pillar for a just, inclusive and sustainable energy transition.

From capacity gaps to implementation

Global Action Initiative

A joint call to build a coordinated, efficient and impactful system.

01

Cooperation
mechanisms

02

GEI
Academy

03

Knowledge
sharing

04

Resource
mobilization

05

Inclusive
participation

06

Monitoring &
evaluation

Launched in Vienna in April 2026 with international partners, including UNFCCC Secretariat, PCCB, UNIDO, UNU, SDSN and REN21.

Call for Partnerships

Turning the Initiative into practical collaboration.

- **Co-design** Training programmes
- **Co-develop** Knowledge products
- **Share** Experts and case studies
- **Support** Pilot activities
- **Identify** Regional capacity needs

Through the PCCB Network and Energy Cluster, we can connect needs, resources and follow-up action.

Partnerships → Programmes → Impact

GEI Academy: An Open Platform

A global capacity-building platform for the energy transition.

Mission

High-quality public goods for energy transition capacity building, with priority for developing countries and the Global South.

30+

Training
programmes

10,000+

Participants

100+

Countries

200+

Experts &
trainers

Training Centre

Knowledge Centre

Partnership Centre

Future Cooperation Directions

Practical entry points for PCCB Network members.

1

Training

Joint courses
Workshops
Masterclasses

2

Knowledge

Gap studies
Case studies
Toolkits

3

Action

Regional programmes
Peer-to-peer
exchanges

A shared pathway: identify needs, mobilize resources, deliver programmes, and assess impact.

Working Through the Energy Cluster

A bridge between capacity needs and implementation resources.

The Energy Cluster can help move beyond one-off events toward continuous collaboration pathways.

Thank You

Let us turn partnerships into
programmes,
and programmes into impact.

Matchmaking - Bringing the Virtual Escape Room into Reality

Matchmaking – Bringing the Virtual Escape Room into Reality

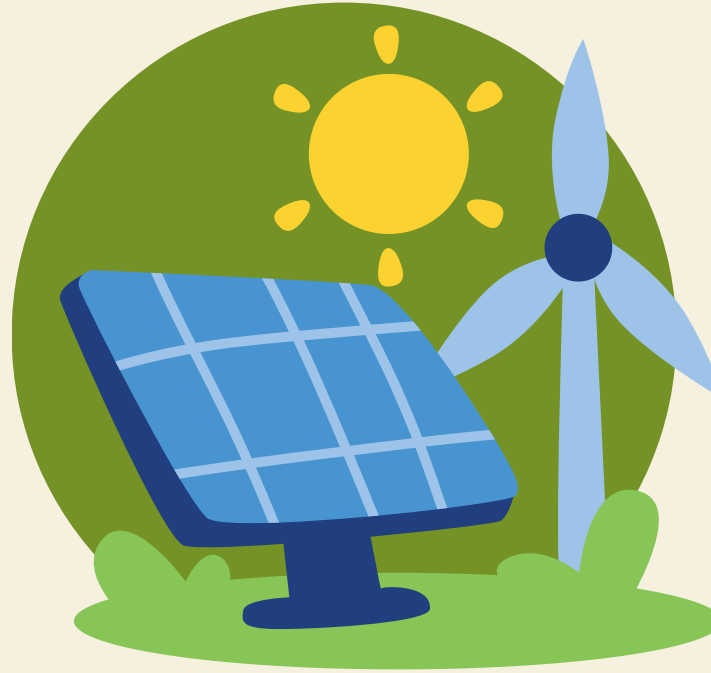

Introduction

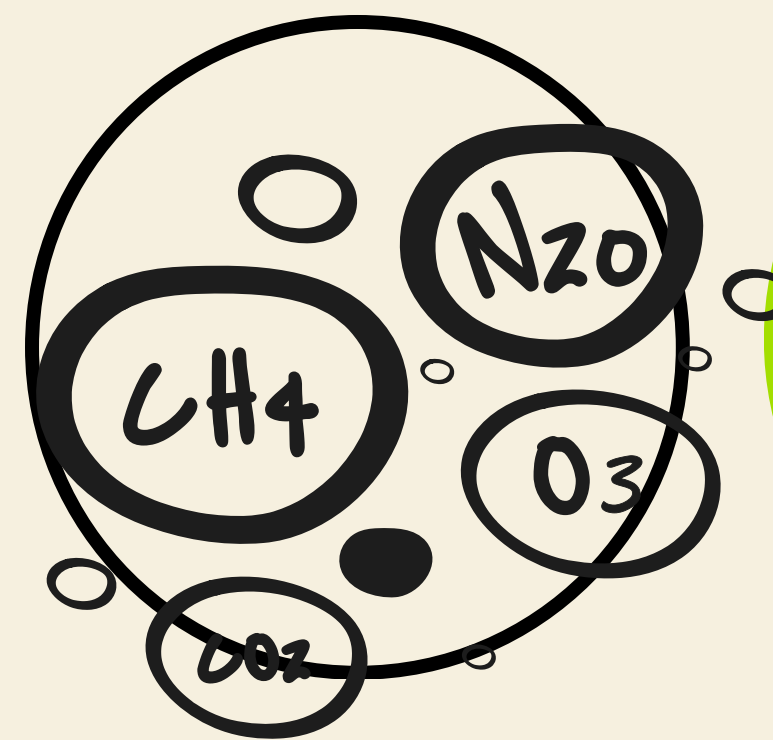

ADAPTATION

TECHNOLOGY

ENERGY

MITIGATION

FINANCE

Goal: to identify 1 practical collaboration that could continue after this event and contribute to stronger capacity-building impact through the Network.

Matchmaking – Bringing the Virtual Escape Room into Reality

Introduction

STEP 1

ADAPTATION GROUP

Matchmaking Mission: First Challenge

To unlock the first part of this mission, your group must first pass a simple test. You need to guess which is the word that matches the description (activation word). Without guessing the missing word, you won't be able to continue and you will be stuck in this room.

There is only one possible solution.

Are you ready?

"I help people, institutions, and systems gain the skills, knowledge, and tools to respond to climate change. I am at the heart of the PCCB's work.

What am I?"

ACTIVATION WORD:

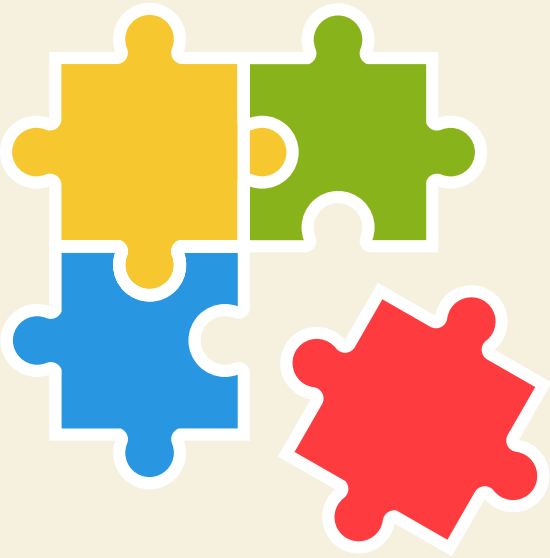

STEP 2

Decode the room:
Who is here?

STEP 3

Find the match

STEP 4

Seal the collaboration

Matchmaking – Bringing the Virtual Escape Room into Reality

Introduction

Keep your discussions practical and focused.

By the end, each group should be ready to report back with one concrete collaboration opportunity that could realistically move forward in the next months and support climate capacity-building action.

You have 40 minutes to 1 hour to complete the mission.
