Session starts: 09-08-2026

Facilitative, Multilateral Consideration of Progress

A compilation of questions to – and answers by – **Solomon Islands**
Exported on 1-10-2026 by the UNFCCC secretariat

Title: Inventory improvements

Question From Party: New Zealand

Question raised on: 09.09.2026 CEST

Question Category: National inventory report

Question: The first BTR from Solomon Islands outlines a number of inventory improvement actions, including plans to strengthen activity data collection and develop country-specific emission factors. Could Solomon Islands share which inventory improvements it considers the highest priority before submission of its next Biennial Transparency Report?

Answer:

Title: Peer review of QA/QC

Question From Party: Australia

Question raised on: 09.09.2026 CEST

Question Category: National inventory report

Question: The Solomon Islands is committed to strengthening its QA/QC framework for its national inventory, including by establishing an external peer review mechanism to improve transparency and accuracy over time. Could the Solomon Islands provide more information on this proposed peer review mechanism, including who the Solomon Island expects would participate as peer reviewers?

Answer:

Title: National Climate Finance Steering Committee

Question From Party: Australia

Question raised on: 09.09.2026 CEST

Question Category: Financial, technological development and transfer, and capacity-building support

Question: Could the Solomon Islands please share how its National Climate Finance Steering Committee helps to ensure that climate finance flows to activities which support NDC targets?

Answer:

Title: Capacity building needs

Question From Party: European Union

Question raised on: 09.09.2026 CEST

Question Category: Reporting related capacity-building needs

Question: The European Union commends Solomon Islands for its first BTR. The European Union notes that institutional weaknesses and gaps in capacity limit the full implementation of the Solomon Islands' NDC. Some of the Solomon Islands capacity needs are laid out on Page 200 of the BTR, including: - Mainstreaming climate change across stakeholder organizations, provincial governments and communities, - Technology transfer and capacity building needs-best practices, - Information and improvement of human skills, especially those possessed by specialized professionals and engineers, - Education and public awareness on climate change. Could Solomon Islands elaborate on the priorities for capacity building and technical assistance?

Answer:
