

Inputs by the Technology Executive Committee on draft guidance for the operating entities of the Financial Mechanism

Annotated inputs for the draft guidance to the Green Climate Fund (GCF)

Elements	Sub-elements	Proposed inputs	To be considered:		Source of information / reference
			(1) Commonly by the COP and the CMA or;	Rationale for the inputs	
Programme priorities	Support for technology through the GCF Readiness and Preparatory Support Programme	Welcomes the enhanced support for technology through the GCF Readiness and Preparatory Support Programme, in particular in providing support for technical assistance through the CTCN.	(1)	By decision B.18/03, para. (d), the Board requested the Secretariat to continue collaborating with the Technology Mechanism in implementing support for technology.	GCF report to COP26, para 131 to 133 (FCCC/CP/2020/5)
	Strengthening linkages with the Technology Mechanism	Encourages the GCF, in collaboration with the CTCN, to facilitate communication among NDEs, NDAs and Accredited Entities at the national and regional level including with respect to technology-related aspects of NDC implementation and increasing ambition.	(1)	By UNFCCC decision 14/CP.22, para. 9, the COP invited the operating entities of the Financial Mechanism to provide information on their actions in strengthening the linkages between the Technology Mechanism and the Financial Mechanism in their annual reports to the COP. By decision B.14/02, para. (d), the Board requested the Secretariat to provide recommendations on further steps to enhance cooperation and coherence for consideration by the Board, and in the context of the GCF operational framework on complementarity and coherence and the annual event with the thematic bodies of the UNFCCC. By UNFCCC decision 14/CP.24, para. 7, the COP invited the CTCN to consult with GCF and the GEF to identify ways to enhance information sharing among NDEs, NDAs and GEF focal points. Underlining the importance of coordination between NDEs and NDAs to guarantee continuation from readiness support through to funding proposal development. Such coordination is fundamentally important for the necessary inclusion of technology priorities in the GCF country programmes (programming priorities of developing countries submitted to the GCF), UNFCCC Nationally Determined Contributions (NDCs) and GCF entity work programmes (programming priorities of AEs submitted to GCF).	GCF report to COP26, para 139 to 142 (FCCC/CP/2020/5)

Elements	Sub-elements	Proposed inputs	To be considered: (1) Commonly by the COP and the CMA or; (2) Specifically by the CMA.		Rationale for the inputs	Source of information / reference
	Strengthening linkages with the Technology Mechanism	Encourages further collaboration and engagement between the GCF, TEC, and CTCN, through continued joint work, as well as collaboration in events, and to taking into consideration elements related to gender mainstreaming and observer constituencies engagement.	(1)	By UNFCCC decision 14/CP.22, para 9, the COP invited the operating entities of the Financial Mechanism to provide information on their actions in strengthening the linkages between the Technology Mechanism and the Financial Mechanism in their annual reports to the COP. By UNFCCC decision 14/CP.24, para 7, the COP invited the CTCN to consult with GCF and the GEF to identify ways to enhance information sharing among NDEs, NDAs and GEF focal points. GCF’s 2020 report to COP26 further highlighted the importance of mainstreaming gender into policies, national frameworks, targeted trainings on gender mainstreaming to government institutions, financial institutions, local communities, and groups, to foster and enhance the enabling environment to address gender inequality and empowerment issues. Focus is also given to developing, documenting, and sharing knowledge on gender related issues as projects progress with the implementation of their respective gender action plans. The implementation of the gender action plans is supported through dedicated gender experts as well as budget.	GCF report to COP26, paras 139 to 142 and 176 to 179 (FCCC/CP/2020/5)	

Annotated inputs for the draft guidance to the Global Environment Facility (GEF)

Elements	Sub-elements	Proposed inputs	To be considered:		Rationale for the inputs	Source of information / reference
			(1) Commonly by the COP and the CMA or;	(1) Specifically by the CMA.		
Programme priorities	Regional climate technology activities	Welcomes the support provided by the GEF for the CTCN under the GEF Challenge Program for Adaptation Innovation. Further welcomes GEF’s efforts to consult with the CTCN to enhance collaboration between the CTCN and the regional technology and finance centers and encourages the GEF to continue and enhance such efforts.	(1)		Strengthened collaboration between GEF country focal points and the national designated entities for technology development and transfer would enhance coherence between the support provided by the GEF and that provided by the CTCN for technology transfer activities.	GEF 2020 report to COP 26, paras. 184 to 199 (FCCC/CP/2020/1) GEF 2021 report to COP26 paras. 201 to 214

Elements	Sub-elements	Proposed inputs	To be considered: (1) Commonly by the COP and the CMA or; (1) Specifically by the CMA.		Rationale for the inputs	Source of information / reference
	Regional climate technology activities	Encourages the GEF to support CTCN efforts to strengthen cooperation between GEF country focal points and the national designated entities.	(1)		Strengthened collaboration between GEF country focal points and the national designated entities for technology development and transfer would enhance coherence between the support provided by the GEF and that provided by the CTCN for technology transfer activities.	GEF 2020 report to COP 26, paras. 184 to 199 (FCCC/CP/2020/1) GEF 2021 report to COP26 paras. 201 to 214
	Regional and national climate technology activities	Encourages the GEF to share all the terminal evaluation reports of the regional technology and finance centers and of the national climate technology activities, supported under the Poznan strategic programme, with the TEC and the CTCN with a view to share experiences and lessons learned from the support provided by the GEF for technology	(1)		Enhanced sharing of the evaluation reports of the remaining would enhance generating lessons learned to help inform the Technology Mechanism, in particular the CTCN, and facilitate coordination and cooperation on climate technology development and transfer.	GEF 2020 report to COP 26, paras. 184 to 199 (FCCC/CP/2020/1) GEF 2021 report to COP26 paras. 201 to 214
	Technology Needs Assessment	Encourages the GEF to consider the outcomes of Technology Needs Assessments and enhance the implementation of the Technology Action Plans resulting from the TNA process through GEF funding proposals, and to facilitate active communication among NDEs and GEF focal points at the national level.	(1)		To determine their climate technology priorities, countries undertake TNAs, which support national sustainable development, build national capacity and facilitate the implementation of prioritized climate technologies to support climate mitigation and adaptation actions.	GEF 2020 report to COP 25, paras. 200 to 209 (FCCC/CP/2020/1) GEF 2021 report to COP26 paras. 215 to 220
	Technology collaboration	Encourages the GEF to support further South-South and triangular collaboration projects of the CTCN and TEC, especially ones that engage with stakeholders at a local level, and to enhance its funding on projects related to technology training.	(1)		The Summaries of Climate Change Mitigation Stand-alone Projects and Programs Approved in FY21 of GEF's 2020 report to COP26 highlights the critical importance of local-level engagement, and stated that small grants will be targeted primarily towards local communities and CSOs, the poor and the vulnerable, to access appropriate level of funding as they develop their capacity, take measured risks in testing new methods and technologies, and innovate at the local level.	GEF 2020 report to COP 26, paras. 58 to 59 (FCCC/CP/2020/1)

Elements	Sub-elements	Proposed inputs	To be considered:		Source of information / reference
			(1) Commonly by the COP and the CMA or;	(1) Specifically by the CMA.	
Other	Private sector engagement	Welcomes the GEF’s efforts on mobilising private capital and encourages further engagement with the private sector.	(1)	The technology framework under Article 10, paragraph 4, of the Paris Agreement provides overarching guidance for the work of the Technology Mechanism through its key themes, and the actions and activities highlighted under its key themes of support include the importance of enhancing collaboration of the Technology Mechanism with the Financial Mechanism for enhanced support for technology development and transfer.	GEF 2020 report to COP 26, paras. 197 to 200 (FCCC/CP/2020/1)
				As stated in paras 29 to 39 and 197 to 200 of the GEF’s 2020 report to COP26, GEF acknowledges that to change the path of GHG emissions from these sectors, emerging cleantech solutions should be applied and deployed at scale; and as such, addresses key barriers that need to be addressed to deploy cleantech solutions in these other sectors, including the need for targeted deployment of the concessional capital (blended finance) to mobilize the private capital seeking commercial risk adjusted returns.	

Guidelines in providing the inputs:

- “Sub-elements”: Describe the specific area of the proposed input (e.g. Policies relating to access, gender, environment & social safeguards, etc.);
- “Proposed inputs”: Propose the inputs in draft decision text format;
- “To be considered by”: Choose whether the proposed inputs need to be considered: (1) Commonly by the COP and the CMA or; (2) specifically by the CMA;
- “Rationale for the inputs”: Annotate the reason for proposing the inputs, so that the rationale can be clearly understood;
- “Source of information / reference”: Provide reference to the annual reports of the operating entities or decision(s) of the GEF Council / GCF Board.
