## Five pillars of OECD work on triangular co-operation

Pillar	Activities
Analysis	We assess the successes and challenges in triangular co-operation. We also maintain a an <u>online project repository</u> and, among others, published a paper on " <u>Green triangular co-operation</u> ".
Data and evidence	We collect data, project documents, evaluation reports and other publications on how triangular co-operation works.
Dialogue	We facilitate the discussion of triangular co-operation actors in international meetings.
Policy support	We produce tools and guidelines and we support countries and stakeholders reinforcing their systems to enable effective triangular co-operation.
Advocacy	The OECD is committed to promoting triangular co-operation globally and we are a core group member of the Global Partnership Initiative (GPI) on Effective Triangular Co-operation.
