

UN Climate Change Global Innovation Hub Pavillon @COP26

Concept and Programme

11.11.2021

Project Objectives

- To promote integrated innovations that can enable the satisfaction of needs through low emission economy, including by introducing new products/services, markets and supply chains;
- To facilitate, through a cluster of climate actors using a collaborative platform, the development, transfer and deployment of SDG and climate goals aligned solutions.

Format

The format will consist of:

- 60-100 back to back sessions each running for 50 minutes with a 10-minute break in between each session.
- Each session will focus on a specific climate innovation theme including Cities, Digital finance, Digital for climate, Potential partners for tomorrow (incubators and accelerators), Innovation for Climate and SDGs at the UN, Youth, Gender, and Core-needs/solutions.
- The event will feature a wide array of formats such as plenary sessions, knowledge sharing panels, in conversation, lightning talks, creative content, workshops, roundtables and ceremonies.

There will be both person participation and virtual interventions.

Duration

The event will take place over 11 days from 1st November 2021 to 12 November 2021 and will run from Glasgow time 10:00 am to 18:00 pm each day. The Programme is available below:

Visual assets and logistical matters will be regularly posted here, stay tuned:
