

| UN Climate Change Global Innovation Hub (UGIH)<br>COP27 Programme<br>(Draft Subject to Changes, version 21 Oct 2022) |   |   |   |   |   |   |
|--|---|---|---|---|---|---|
| Week 1   | Monday 7th Nov<br>Opening day   | Tuesday, 8th Nov<br>Cities  | Wednesday 9th Nov<br>Finance day  | Thursday 10th Nov<br>Green and digital transition Day   | Friday 11th Nov<br>Transformative climate action  | Saturday 12th Nov<br>Regenerative systems   |
| 10:00 - 11:00  | Session 1: Opening session  | Session 1: Cities transformation: funding and investment needs  | Session 1: Global financial solutions summit - Innovative green bonds and national sustainability development budgets | Session 1: European Green Digital Coalition   | Session 1: High-level session on human well-being, Climate Change, biodiversity, land regeneration and resource preservation      | Session 1: Official launch of beans is how  |
| 11:00 - 12:00  | Session 2: High-level session on systems change and climate and sustainability innovations (Part 1)   | Session 2: Cities transformation: enabling systemic change  |   | Session 2: Collectively building the open climate network: integrating Non-State Actor climate actions from UGIH (eg. cities and corporations) into NDC progress via Nested Climate Accounting        | Session 2: Advancing Paris Agreement implementation and climate action through innovation and technology (Co-organized with CTCN) | Session 2: Regenerative innovation to help solve the Climate Crisis   |
| 12:00 - 13:00  | Session 3: High-level session on systems change and climate and sustainability innovations (Part 2)   | Session 3: Women entrepreneurs in Africa: Bringing together voices on the challenges in access to both acceleration services and capital for women entrepreneurs in Africa  | Session 2: The role of stock exchanges in promoting innovative climate solutions: financing, standards and education  | Session 3: ICT4Green roundtable   | Session 3: The Council of Engineers for the Energy Transition (CEET) statement release  | Session 3: Regenerative foods of the future: Support the healing of human health and the environment  |
| 13:00 - 14:00  | Session 4: Showcasing an expanded climate innovation platform: Focus on human needs and stakeholders as solution providers  | Session 4: Launch of the Every Action Counts (EAC) Green Digital Customer Journeys Guidebook including the Ant Group Ocean-Biodiversity Initiative and 10x1000 Tech for Inclusion Program, presented by the Green Digital Finance Alliance (GDFA) | Session 3: Financing SDG stimulus and the Paris Agreement   |   | Session 4: High level ministerial event on green hydrogen   | Session 4: Launch of Challenge - Resilient infrastructure in the face of climate change, the global challenges of climate change 2022   |
| 14:00 - 15:00  | Session 5: Innovation in the UNFCCC process: National systems of innovation and digitalization (Co-organized with TEC and CTCN)                                     | Session 5: African innovation ecosystems: Accelerating climate solutions for a net zero continent   | Session 4: Digital environment assets programmable money and the future of climate finance                            | Session 4: Mind the gap: accelerating sustainable transformation with enabling technologies and innovative policymaking   | Session 5: Changing systems - resource solutions for planetary stability  | Session 5: Innovation to satisfy the core human needs of 10 billion people by 2050: Case of nutrition and health  |
| 15:00 - 16:00  |   | Session 6: Launching the UGIH Virtual Hub version 0   | Session 5: Innovative financial instruments for climate and sustainability solutions aligned with the 1.5 degree goal | Session 5: Enhancing multi-stakeholder engagement to advance development and deployment of emerging technologies for climate action. Launch of the new 5-year strategy of the Climate Chain Coalition | Session 6: Mobilizing anticipatory science for disruptive climate action  | Session 6: Achieving NDC targets through clean Cooking action   |
| 16:00 - 17:00  | Session 6: Global south- global north cooperation on the digital and green twin transition  | Session 7: Incubators and Accelerators: Where many of the new globally sustainable solutions are born   | Session 6: Net zero urban programme   | Session 6: Digital technology and society   | Session 7: Innovation to serve enhanced circularity   | Session 7: Using Web3 to build the global carbon ledger   |
| 17:00 - 18:00  | Session 7: UGIH city-focused innovation and implementation sessions - focusing on Goyang city demonstration pilot and extension of methodology toward global cities | Session 8: Cities in the MENA region as opportunity hubs for innovation   | Session 7: The Role of exchanges in creating a net zero world   | Session 7: Bringing the Balance Sheet of the Planet to the Public Ledger  | Session 8: Open data for climate - Breakthrough to accelerate and scale resilient climate aligned finance and investment          | Session 8: Assessing Avoided emissions and 1.5C global sustainability compatibility from nutrition/health solutions: Best and next practice for solutions that can provide flourishing lives for 11 |
| 18:00 - 20:00  |   |   | Reception: UNGSII Foundation Awards   | Session 8: Advanced Market Commitments for Climate: Innovation Partnerships to operationalize Climate Innovations   |   |   |

| Week 2        | Monday 14th Nov<br>Shelter/Youth  | Tuesday 15th Nov<br>Green Hydrogen  | Wednesday 16th Nov<br>Culture and Creative Industry/<br>Fashion Day   | Thursday 17th Nov<br>Solutions Day   | Friday 18th Nov<br>Solutions Day/Closing  |
|---------------|---|---|---|--|---|
| 10:00 - 11:00 | Session 1: Shelter Solutions  | Session 1: Opening ceremony: The global demand and supply for Green Hydrogen  | Session 1: Fashion!   | Session 1: Accelerating Solution Oriented Innovation – Our 2050 World  | Session 1: Reformed green bonds in LA (Forestry-based mitigation projects)  |
| 11:00 - 12:00 | Session 2: The potential of bamboo as a material for sustainable construction and circular economic development   | Session 2: A realistic assessment on the current state of green hydrogen  | Session 2: Cities & regions & new European Bauhaus  | Session 2: Accelerating climate change adaptation through innovation (Co-organized with CTCN)  | Session 2: Appropriate framework for multi-stakeholder engagement to support youth and women innovators and entrepreneurs in implementing climate solutions in Africa |
| 12:00 - 13:00 |   | Session 3: The heavy industry perspective   | Session 3: Game design, storytelling and sustainable web  | Session 3: Assessing avoided emissions and 1.5C Global Sustainability compatibility from transformative system solutions: Launch of the webplatform for assessment of solution providers | Session 3: The role of youth and digital innovation in promoting transformative climate action  |
| 13:00 - 14:00 | Session 3: Assessing Avoided emissions and 1.5C Global Sustainability compatibility from shelter solutions: Best and Next Practice for solutions that can provide flourishing lives for 11 billion people | Session 4: Assessing Avoided emissions and 1.5C global sustainability compatibility from energy solutions integrating energy efficiency | Session 4: Assessing avoided emissions and 1.5C global sustainability compatibility for the culture and creative industry               | Session 4: Hackathon Festivals - Showcase of GIZ/Ekipa challenge   | Session 4: Progress report from the working group on Cities   |
| 14:00 - 15:00 | Session 4: Sheltering and empowering informal communities: a conversation among leaders in local government, informal settlements, and shelter solution providers   | Session 5: The innovators' Laboratory   | Session 5: Sustainable tourism and cultural heritage  | Session 5: Digital MRV for inclusive climate action  | HL Closing Session  |
| 15:00 - 16:00 | Session 5: Delivering on the urban transition to net-zero: multi-level partnerships and innovation to achieve systemic change   | Session 6: Promoting a GH2 systemic innovation framework  | Session 6: Bridging city-level innovation: Agendas and approaches to accelerate city climate action                                     | Session 6: Digital MRV for enhanced fairness in climate action   | Preparation   |
| 16:00 - 17:00 | Session 6: Youth4Climate Roundtable: Empowering youth globally to leverage digital innovations for climate actions  | Session 7: Lessons learned: Benchmark approaches by regional and national Governments   | Session 7: Accelerating urban climate innovation  | Session 7: Genesis 2.0 demo: PoC of a smart contract-based integrated green bond and carbon market   | Focus reporting   |
| 17:00 - 18:00 | Session 7: Strengthening action on resilience to extreme heat and advancing climate friendly cooling  | Session 8: Pushing the GH2 innovation agenda - Deliverables and next steps by the movement  | Session 8: Nature based digital currencies: incorporating living capital and climate actions as pillars for an advanced monetary system | Session 8: The Ethereum Climate Platform – Amplifying climate action   | Programme evaluation and planning   |
