

# UN4NAPs

UN4NAPs is a UN-wide rapid technical backstopping initiative for National Adaptation Plans (NAPs), launched in 2021 by the UNFCCC secretariat, in response to mandates for engaging international organizations in support of climate change adaptation. It enables a network of more than 50 UN and intergovernmental organizations to respond to technical requests identified by any country that is in the process of formulating or implementing its NAP.

Categories of support offered through the partnership:

- Direct technical queries which can be answered by relevant agencies via email;
- Delivery of specific data/knowledge products (such as datasets, analytical tools, guidance material);
- Longer-term technical capacity development/engagement with the requesting country;
- Review of draft NAPs upon request by a country.

Find more information on the initiative on the UN4NAPs website:

<http://unfccc.int/UN4NAPs>.

For further information, and to request technical assistance, please write to:
