

Enhancing GHG Knowledge-base

Organized and Sponsored by

Ministry of Environment
Greenhouse Gas Inventory and Research Center

In Collaboration with

United Nations
Climate Change Secretariat

UNFCCC-GIR-CASTT Programme on Greenhouse Gases

UNFCCC-GIR-CASTT* Programme on Greenhouse Gases

*Climate Action and Support Transparency Training

Offered in collaboration by the UN Framework Convention on Climate Changes (UNFCCC) Secretariat and the Greenhouse Gas Inventory & Research Center of Korea (GIR), UNFCCC-GIR-CASTT is a professional training on greenhouse gas (GHG) inventories to national experts from developing countries.

GHG inventories are a key source of information necessary to understand -and where each country, and the global community at large, stand in terms of GHG emissions. Through a tailored and focused approach, the programme aims to significantly boost the technical capacity of developing countries.

About the GIR

As a government institute, the GIR serves as a think-tank on GHG inventory and mitigation. The GIR compiles national GHG inventory, supports establishing national and sectoral GHG reduction targets, and conducts research on the Emission Trading Scheme.

For global cooperation, the GIR organizes the Cooperative Green Growth Modeling Forum (C2GMF) and the International Modeling Conference (IMC) as well as its unique GHG training programme since 2011.

About the UNFCCC and GIR Collaboration

The organizational collaboration will serve as a model for delivering a targeted professional training programme, and for future South-South cooperation that responds to the training needs of developing countries in the area of MRV and the transparency framework.

For more information or inquiries, please contact the secretariat of the Programme at

Girtraining@thewelcome.co.kr or +82-(0)2-6203-2532

Eligibility Requirements

- Current government officials, consultant and researchers
- Relevant experience in GHGs or climate change response-related field
- Junior level is preferred
- Bachelor's degree or higher
- Capability to understand lectures and give presentations in English (Candidates may be administered an English test via phone)
- Individuals with an intermediate IT proficiency

Deadline

Applicant form to be sent by **7 May, 2018** via email to girtraining@thewelcome.co.kr

To download application form, please visit www.gir.go.kr/eng

Key Programme Contents

- Reporting and Review under the UNFCCC and Paris Agreement
- GHG Inventory Compilation
- Sectoral GHG Estimation Methodology
- GHG Modeling Analysis
- Hands on Exercise

Key Dates

12 April ~ 7 May	Application
7 May	Application Deadline
14 May	Announcement of selected applicants
24 June	Arrival in Korea
25 June	Programme opening ceremony
19 July	Closing ceremony
20 July	Departure from Korea
