

ROLE OF THE NATIONAL GENDER AND CLIMATE CHANGE FOCAL POINTS

VIRTUAL WORKSHOP

Role of the NGCCFPs – Effective engagement and building relationships

United Nations
Climate Change Secretariat

Slide Simultaneous Interpretation ENG/FR/SPA

How Do I Activate The Live Interpretation?

#01

DONWLOAD THE APP

Download the **Interprefy** app via the App Store, Google Play or Wechat.

- Search for Interprefy
- Click on 'Download'

Or **scan this QR code** and download it immediately from your app store.

#02

ENTER THE TOKEN

Follow the **instructions** and **enter the token** you have received from Presence.

! Don't forget to connect your headset (if you have not done so)

Token:
unfcc201020

#03

CHOOSE YOUR LANGUAGE

Select the language you want to hear

Press **"Connect"**

Remember!

On the main floor

- **No spoken interaction for participants**
- **Interaction via zoom poll**
- **Translation**

Keep yourself muted

Turn your camera off

Use the chat to introduce yourself

In break-out rooms

- **Interaction**
- **No translation**

Use the Raise Hand function below the Participants list to request the floor and lower hand afterwards

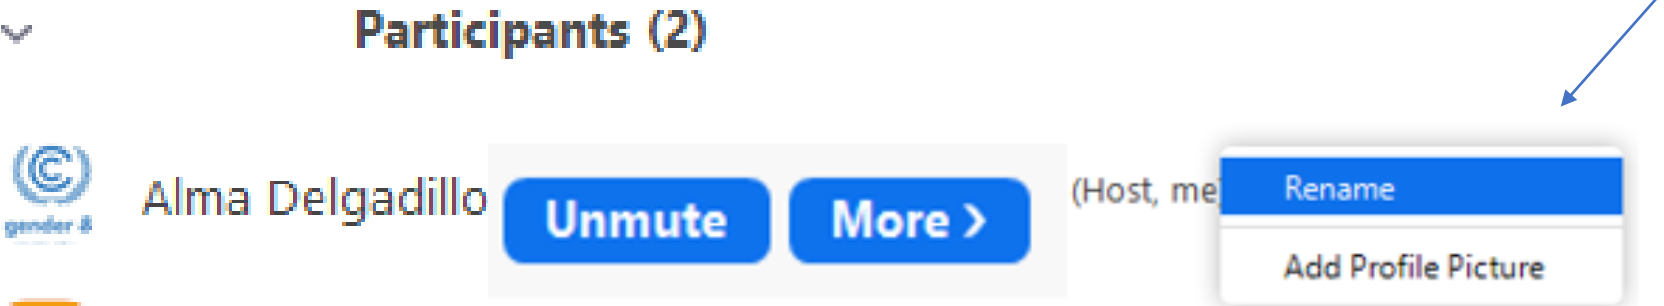

Enable your camera for a better workshop experience

In break-out rooms

No interpretation. Break-out groups are assigned based on language preference

Please share your language preference by adding **ENG**, **FR** or **SPA** in front of your name

National Gender and Climate Change Focal Points (NGCCFPs)

Lima work programme on gender

- Encourages Parties to appoint and provide support for a national gender and climate change focal point for **climate negotiations, implementation and monitoring** (para 11)
- Requests the secretariat to continue to facilitate support for **building and strengthening the skills and capacities** of national gender and climate change focal points (para 15(e))

GAP Activities

- A.1, **A.2**, D.1, D.6

Deliverables:

- In-session workshop
- Recommendations on the role of NGCCFPs
- Provision of capacity-building opportunities, tools and resources

Previously, the Gender Team has provided **capacity building** to NGCCFPs:

- Through [webinars](#)
- In-session [workshops](#)
- Pre-sessional technical meetings
- Workshop jointly organized with [WEDO](#)
- SB Gender [Breakfast](#) with Heads of Delegation
- [Since 8 June 2020: virtual workshops](#)

National Gender and Climate Change Focal Points (NGCCFP)

In February 2020, the UNFCCC gender team sent a survey to all NGCCFPs via email. 29 country responses from 5 regions indicated priorities, needs and challenges related to their role.

Key **enablers** for carrying out the NGCCFP role

Key **challenges** in carrying out the NGCCFP role

Breakout session

Participants are split into three working groups, facilitated by

Winifred Masiko
Uganda's NGCCFP

English

Deyina Cheiguer
Mauritania's NGCCFP

French

Vera Estefanía
Spain's NGCCFP

Spanish

“Based on your experience, how have you built networks with different actors in order to advance your work (in relation to gender and climate change)?”

“What are the lessons learned or good practices to share?”

Back in 20 minutes

Each group has a notetaker and a technical support staff

EmPower: Women for Climate-Resilient Societies

Asia & the Pacific

Bangladesh, Viet Nam and Cambodia

EmPower: Women for Climate-Resilient Societies is a unique collaboration between UN Women and UN Environment Programme that aims to put gender equality at the heart of climate action and disaster risk reduction in the Asia-Pacific region. EmPower influences change by building gender equality into national, subnational and regional climate policymaking, cultivating leadership of civil society organizations, harnessing renewable energy to build livelihoods for rural women, generating and collecting sex-age-diversity disaggregated data on gender and climate and fostering regional commitment and supporting intergovernmental processes linking climate and gender.

With the support of the Swedish Development Cooperation Agency, EmPower is working in three countries (Bangladesh, Viet Nam and Cambodia) and at a regional level in Asia-Pacific.
