

Invitation to Partner

With United Nations Climate Change

United Nations
Climate Change

Climate Change is a clear and present danger and the greatest threat facing humanity.

We still have an opportunity to turn things around. It will take not only nations, but also organizations like yours.

We must remain united to stabilize global average temperature rise of 1.5 °C, in a true spirit of inclusive multilateralism – ensuring closer contacts with businesses, civil society and other stakeholders.

“

Let us build a global coalition to achieve net zero emissions and strengthen climate resilience in every nation, every region, every city and every industry, and let us leave a legacy for future generations that we can be proud of.

”

Patricia Espinosa
Executive Secretary, UN Climate Change

About UN Climate Change

Who we are

UN Climate Change (UNFCCC secretariat) is the United Nations entity tasked with supporting the global response to the threat of climate change. UNFCCC stands for United Nations Framework Convention on Climate Change.

The Convention has near universal membership (197 Parties) and is the parent treaty of the 2015 Paris Agreement and 1997 Kyoto Protocol.

Where we are

UN Climate Change is located in Bonn, Germany.

Regional Collaboration Centres

We operate six Regional Collaboration Centres to support national climate action in Thailand, UAE, Uganda, Togo, Grenada and Panama.

**UN Climate Change
Headquarters**
Platz der Vereinten
Nationen 1
53113 Bonn
Germany

What we do

Cross-cutting

Communication and Engagement

Communicating relevant and timely information to Party and non-Party stakeholders.

Raising awareness with the public regarding the secretariat's process and action on climate change.

Intergovernmental Support and Collective Progress

Supporting the work of the governing and subsidiary bodies of the secretariat. Also, enabling and facilitating cross-cutting processes to further advance climate action.

Regional Collaboration Centres

RCCs are collaboration centres between UN Climate Change and regional host partners, local and regional agencies and multilateral development banks, focused on supporting national climate action on the ground.

Programmes

Adaptation

Assisting Parties in their efforts to adapt to climate change, including national adaptation plans and addressing vulnerability.

Means of Implementation

Assisting Parties with enhanced access, mobilization and scaling up support for climate finance architecture, technology development, transfer and capacity-building.

Mitigation

Assisting Parties in developing, communicating and effectively implementing NDCs using mechanisms, framework engagements and economic instruments.

Transparency

Assisting Parties in monitoring and tracking progress, including the implementation of nationally determined contributions (NDCs).

Intergovernmental Process

Negotiations

Facilitating the intergovernmental climate change negotiations by organizing multiple negotiating sessions each year, the largest and most significant being the Conference of the Parties (COP).

Capacity-building and Reporting

Assisting Parties on building technical expertise and capacity. Supporting Parties in developing NDCs, designing strategies and improving climate change reporting.

Mobilization

Convening and mobilizing thousands of stakeholders and coalitions. Providing a forum for Party and non-Party stakeholders to develop policies and programmes to implement the Paris Agreement.

Some of our flagship initiatives

Race To Zero is a global campaign to rally leadership and support from businesses, cities, regions, investors for a healthy, resilient, zero carbon recovery.

Resilience Frontiers incorporates strong interdisciplinary and multistakeholder partnerships utilizing emerging technologies and innovation to address long-term global resilience beyond 2030.

The **Enhanced Transparency Framework (ETF)** strengthens the progress of current measurement, reporting and verification (MRV) in reducing emissions under the Paris Agreement.

Needs-based Finance (NBF) Project facilitates access and mobilization of climate finance for the implementation of priority mitigation and adaptation projects to address the needs identified by developing countries.

How we partner

We are proud to have worked with some of the world's leading organizations engaged in addressing the climate emergency.

We seek dynamic partnerships that incorporate the transfer of knowledge, and technical expertise to secure the implementation of the Paris Agreement for a clean, green climate-resilient future.

We draw on our partners' industry-leading knowledge and expertise to provide solution-based approaches to combat climate change, to highlight transformational climate action and to improve public understanding of the issue.

Why partner with UN Climate Change

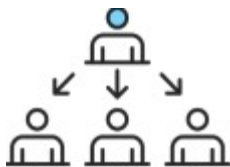

UN Climate Change is at the heart of international climate change discussions

We successfully supported the delivery of the Paris Agreement

We are internationally recognized for our leading technical expertise and climate innovation

We organize the largest conferences in the UN System with 30,000+ participants, 350 events and 1,200+ registered media

We have strong digital convening power, our website attracts over 11 million visitors and 2 million social media followers*

We encourage climate action at all levels, including national, local, businesses, academia and civil society

** Latest data from Jan 2021*

UN Climate Change Partnership Opportunities

Support UN
Climate Change
Programmes

Promote social
engagement
through
eLearning

Participate in
UN Climate
Change events

Showcase
thought
leadership and
climate action

Collaborate on
strategic joint
initiatives with UN
Climate Change

1. Support UN Climate Change Programmes

We invite you to sponsor and support our UN Climate Change activities and Global Climate Action

Communication and Engagement

Climate Ambition Alliance

The Climate Ambition Alliance commits nations to be more ambitious in their NDCs as established in the Paris Agreement.

Adaptation

RESILIENCE
FRONTIERS

Resilience Frontiers

Central hub to maximize Resilience to climate change beyond 2030.

Mitigation

Marrakech
Partnership

Marrakech Partnership

Initiative to strengthen collaboration between government, cities, regions, businesses and Investors to lower emissions and increase resilience against climate impacts.

Means of Implementation

Needs-Based Finance Project for Developing Countries

Assistance to developing countries in assessing their technological and capacity-building needs and priorities, and translating climate finance needs into action.

Transparency

Enhanced Transparency Framework (ETF)

Facilitating reporting on GHG inventories, progress tracking of NDCs and support of developing countries.

All other programs are available upon request

2. **Social Engagement through eLearning**

Access climate change learning resources and expertise offered by UN Climate Change

One UN Climate Change Learning

One UN Climate Change Learning Partnership (UN CC:e-Learn) is a joint initiative of more than 30 multilateral organizations led by the United Nations Institute for Training and Research (UNITAR).

Climate e-Learning

Gain access to UNITAR's e-learning platform for online courses that provide clear, concise and up-to-date information. A certificate will be awarded on completion.

UN Climate Change Expertise

Experts from UN Climate Change will supplement online courses from UN CC:e-Learn with unique insights and provide an opportunity for your organization to develop a deeper understanding of climate change issues.

3. **Participate in UN Climate Change Events**

Be part of COPs, participate in our Regional Climate Weeks, Climate Dialogues, virtual Climate Conferences and other climate events throughout the year

COP26

COP refers to the decision-making body of the UNFCCC.

In November 2021, the UK will be hosting the 26th annual session of COP in Glasgow.

At the summit, delegates including heads of state, climate experts and negotiators will come together to agree on coordinated action to tackle climate change.

4. Showcasing of Thought Leadership and Climate Action

Join UN Climate Change in outreach to the global community on climate neutrality

Knowledge Leadership

Support increased climate ambition and practices in the private sector through knowledge sharing, including collaboration to showcase pathways for organizations to become climate neutral.

Engagement Channels

Outreach and communication showcasing your climate action when relevant through articles, social media, learning material and panel discussions at UN Climate Conferences and regional climate weeks.

Case Studies

Share and publish case studies of your journey to reach climate neutrality on the UN Climate Change website. Explain how you contribute to addressing the climate emergency by presenting your activities and projects. 400+ case studies have already been published on our website.

5. Collaborate on strategic joint initiatives with UN Climate Change

Create transformative projects by leveraging the global leadership of UNFCCC in climate change

Strategic Partnership

Successful and transformative climate action requires **dynamic and inclusive** strategic partnerships.

Strategic partnerships with the secretariat involve mutual and active collaboration to create **shared opportunities**.

Leverage on partner's added value and UNFCCC global leadership, to support the mandate and work of the secretariat.

Unique opportunity to engage with UN Climate Change on the **latest developments** in climate change and **ambitious climate action**.

Opportunity to develop **win-win collaborative engagements** with UN Climate Change supported by mutual know-how and international expertise.

3 Easy Steps

to formalize a partnership with
UN Climate Change

1 Submit your partnership
proposal to UN
Climate Change at
rmp@unfccc.int
See [here](#) for further
information

2 UN Climate Change
conducts a due
diligence assessment
and an internal review
by our Partnership
Committee

3 Formalize the
partnership by signing a
partnership agreement
with UN Climate Change

UN Climate Change is grateful for the support of the following organizations:
