University of Exeter

Global Implementation Accelerator

INTENDED PARTNER DETERMINED CONTRIBUTION

The University of Exeter ("the Partner"),

Recalling decision 1/CMA.7, *Global Mutirão: Uniting humanity in a global mobilization against climate change*, by which the Global Implementation Accelerator ("the Accelerator") was launched,

Supporting the mandate of the Accelerator to accelerate climate implementation, enhance international cooperation across all actors, and support countries in delivering on their nationally determined contributions and national adaptation plans, with a view to keeping 1.5 °C within reach,

Noting that the Accelerator is cooperative, facilitative and voluntary,

Considering the call by the COP30 and COP31 Presidencies for partners to join the Partner Network of the Accelerator, each contributing what it can through its time, expertise and resources, with the highest possible ambition, in the spirit of the Global Mutirão,

And whereas the University of Exeter is a major centre of academic research and education regarding climate change and biodiversity loss and in its Strategy 2030 is committed to driving meaningful action on climate change,

States the following:

1. Intent to join the Partner Network. The Partner expresses its intent to join the Partner Network of the Accelerator and to contribute, in accordance with its capacities, to the acceleration of the solutions selected by the Accelerator from Plans to Accelerate Solutions (PAS) under the Global Climate Action Agenda.

2. Contribution. The Partner makes the following offers to the Accelerator:

2.1 to host within the annual Exeter Climate Forum ("the Forum") a 'hackathon' for candidate solutions, whereby they have the opportunity to develop their

concepts drawing on the advice and expertise of such experts and advisors as may be available through the Forum to assist them;

2.2 to publicise the 'hackathon' before, during and following the Forum, with the intent to raise awareness both of the Global Impact Accelerator and of individual candidate solutions;

2.3 to feature case studies of the successful solutions within the Parliamentarians' Global Guide to Climate Solutions ("the Guide"), produced jointly by the University of Exeter, Arizona State University and the Inter Parliamentary Union, at any time when the Guide shall be produced;

The Partner may add to its offers at any time by communicating an updated Intended Partner Determined Contribution to the Coordination Hub of the Accelerator.

3. Baseline engagement. As a member of the Partner Network, the Partner will endeavor, in accordance with its capacities, to:

3.1 Contribute in good faith and in the spirit of the *Global Mutirão*;

3.2 Designate a focal point for the Accelerator;

3.3 Work with the Coordination Hub and the PAS hosts to deliver on its offers;

3.4 Provide, on request, brief information on contributions delivered to inform the mid-cycle and completion reports for each acceleration cycle;

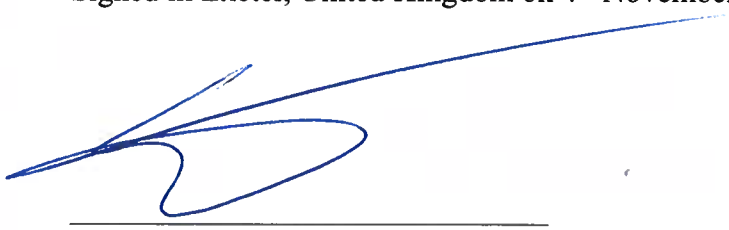

3.5 Inform the Coordination Hub in good time of any material change to a contribution.

4. Recognition and visibility. The Partner consents to the publication of this Intended Partner Determined Contribution and to be publicly identified as a member of the Partner Network.

5. General provisions. This Intended Partner Determined Contribution is a voluntary expression of intent. It does not create legal or financial obligations and represents only a political and institutional commitment to cooperate in advancing the Accelerator's objectives. Offers requiring a legal or financial instrument may be formalised through separate arrangements with the host institution of the Coordination Hub and remain subject to the Partner's internal approvals and applicable rules.

6. Acceptance and acknowledgement. The Accelerator will confirm receipt of this Intended Partner Determined Contribution and communicate its acknowledgement to the Partner, which thereby becomes a member of the Partner Network.

Signed in Exeter, United Kingdom on 4th November 2026

Stuart Brocklehurst
Deputy Vice Chancellor for Business Engagement and Innovation, University of Exeter
