

URUGUAY

Success stories in accessing funds from the
GEF in a timely manner

PILOT CGE INFORMAL FORUM

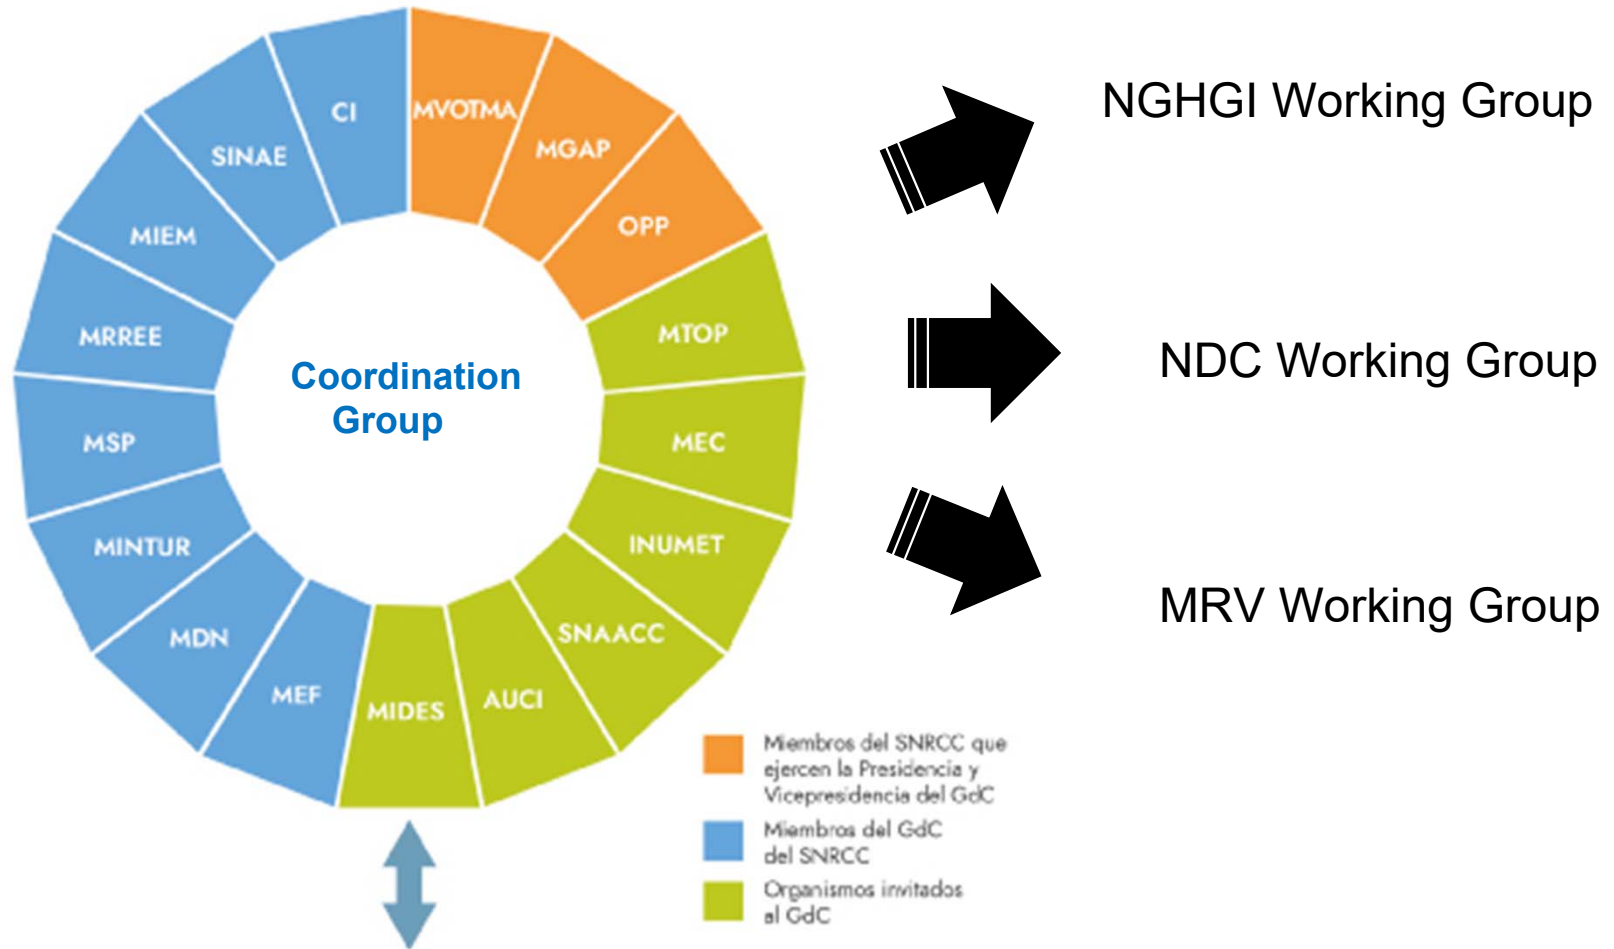

SB 50, 22 June 2019

Uruguay NC and BUR

Institutional Arrangements

National Climate Change Response System

Advisory Committee

La Comisión Asesora está compuesta por técnicos representantes de instituciones públicas, entidades académicas, técnicas y de investigación, entre las cuales se encuentran ANEP, UdelaR, ANII, INIA, IAU y CND, así como organizaciones no gubernamentales ambientalistas y representantes del sector productivo.

Key elements

- Continuous process since 1994 for the elaboration and submission of NCs and BURs
 - Permanent technical team within the Ministry of Environment supported by GEF enabling activities
 - National Climate Change Response System (SNRCC, 2009)
 - Strong articulation among institutions involved in NGHGI, NC and BUR, supported by sound established institutional arrangements
 - Establishment of specific working group within the SNRCC for the elaboration of the NGHGI
 - First NDC built on information and institutional arrangements related to NGHGI, NC and BUR
 - Reports contribute to raise awareness and policy making
- 
- 

Key challenges

- Sustainability and strengthening of NGHGI GW, NC and BUR technical teams
- Improvement of NGHGI

All CGE materials (guidelines, handbooks) as well as webinars and workshops held are considered useful, timely and helpful for the elaboration and update of the documents and reports to be submitted to the Convention.

Next Steps

- Uruguay plans to continue undertaking the elaboration of NC and BUR in a timely manner, in the framework of the support received and to maintain sound working teams and institutional arrangements for the better development of the reports.
- NC and BUR are inputs for the development of national and sectorial policies, such as National Climate Change Response Plan (2010) and National Climate Change Policy (2016) which give feedback to subsequent NC and BUR

THANK YOU!

Climate Change Division, MVOTMA / National Climate Change Response System
