

# Citizen Voice and Action for Climate Action

CVA works by first informing citizens about their rights and then equipping them with a set of tools designed to empower them to engage in local advocacy to protect and enforce those rights.

## Phase 1: Enabling Citizen Engagement

Essential Elements

## Phase 2: Engagement via Community Gathering

## Phase 3: Improving Services and Influencing

### Youth Led Green Social Accountability

SAUTI-Youth (Sustainable Accountability Uniting Tanzanian and Irish Youth project) a four year project funded by the European Commission and implemented by World Vision in the Tanga Region, Tanzania and Youth Work Ireland Galway (YWIG) in Galway City and Galway County of Ireland. The project was youth led with an overall goal of meaningfully engaging young people in the governance process in particular in relation to climate adaptation and mitigation policies through empowering them to be strong voices in and for their communities and to monitor government commitments on climate action.
