Committee**

Agenda item 15a

Navigating the landscape of support for NAPs

*Concept note for a technical session at the 2025
NAP Expo*

06-09 May, Bonn, Germany

Presenter: AC member

I. Introduction and background

- The 10th NAP Expo is to take place from **12 to 15 August 2025 in Lusaka, Zambia** under the overall theme **“Innovations in the NAP process”**
- The AC has been allocated a 1.5 hrs technical session
- The AC's NAP task force has proposed to dedicate this session to training participants in **“Navigating the landscape of support for the process to formulate and implement national adaptation plans”**, based on the AC's previous publications and online resource on this topic and their planned 2025 updates
- When considering this item, the AC may wish to take into account the concept note for the planned 2025 update of the online resource, introduced under AC 27 agenda item 7a

II. Objectives of the session

- **Provide technical guidance and training** to experts and trainers on navigating the landscape of support for NAPs, based on the AC's publication and online tool and their planned updates, particularly in the context of the UAE Framework for Global Climate Resilience and the updated technical guidelines for the process to formulate and implement NAPs;
- **Present good practice examples** on the provision of selected forms of support, serving as a way to recognize adaptation efforts of developing country Parties and to facilitate peer learning among Party representatives;
- **Seek feedback** from participants on the publication and online tool and their planned updates as well as on potential needs for additional forms of guidance and training.

III. Format, presenters and contributors

- **Format:** in-person session for 30-50 participants in class-room style or roundtable setting
- **Presenters** (subject to physical presence at the Expo): AC members and representatives of the NAP task force to present the publication and online tool and their planned updates
- **Contributors:** Representatives of Parties, adaptation focal points and providers of support to present specific good practice examples on selected forms of support

IV. Next steps

The AC may wish to take note of the following next step and provide further guidance, as needed:

- Secretariat to start planning the technical session based on this concept note, and in collaboration with the NAP task force, taking into account the AC's further guidance on the planned 2025 update of the online tool on navigating the landscape of support for the process to formulate and implement NAPs, as received at AC 27.
