*Further recalling* Article 4, paragraph 5, of the Paris Agreement, which provides that support shall be provided to developing country Parties for the implementation of Article 4 of the Paris Agreement, in accordance with Articles 9–11 of the Agreement, recognizing that enhanced support for developing country Parties will allow for higher ambition in their actions,

*Recalling* decision 4/CMA.4, particularly paragraphs 1–4, and decision 4/CMA.5,

*Recognizing* that Parties have different starting points, capacities and national circumstances and *highlighting* the importance of capacity-building support for developing countries,

*Reaffirming* the nationally determined nature of nationally determined contributions,

1. *Expresses appreciation* to the co-chairs of the Sharm el-Sheikh mitigation ambition and implementation work programme for 2023–2024, Amr Osama Abdel-Aziz and Lola Vallejo, and the secretariat for their work under the programme, including organizing the four global dialogues and investment-focused events thereunder in 2023–2024; and to the experts, facilitators and advisory panel members for their contributions to the dialogues and events;

2. *Also expresses appreciation* to the Government of Egypt for hosting in 2024 the fourth global dialogue and investment-focused event under the work programme;
3. *Welcomes* the progress of implementation of the work programme in 2023–2024, including through:
  - (a) Provision of a platform for deepening understanding of opportunities, best practices, actionable solutions, challenges and barriers related to the topics discussed at the global dialogues and investment-focused events;
  - (b) Provision of opportunities for matchmaking between project proponents and potential financiers through pitch hubs held at the investment-focused events;
  - (c) Publication of the annual reports on the work programme;<sup>1</sup>
4. *Notes* the focused exchange of views, information and ideas during the global dialogues and investment-focused events in 2024, on the topic “Cities: buildings and urban systems”, noting that the topics to be discussed are decided by the co-chairs of the work programme;<sup>2</sup>
5. *Welcomes* the organization of and *notes* the discussions at the third high-level ministerial round table on pre-2030 ambition, held on 18 November 2024;
6. *Also notes* the key findings, opportunities, barriers and actionable solutions summarized in the annual report on the work programme for 2024 on the topic “Cities: buildings and urban systems”,<sup>3</sup> recognizing that they do not represent an exhaustive summary of all views expressed in this regard and taking into account different national circumstances, including:
  - (a) In relation to reducing operational emissions (from heating, cooling and appliances), designing building envelopes for energy efficiency (for retrofitting and new construction), reducing embodied emissions (from building materials), spatial planning and low-carbon infrastructure, electrification and switching to clean and low-emission technologies, and enhancing carbon storage through green and blue infrastructure;
  - (b) The importance of international collaboration and means of implementation, including finance, technology transfer, capacity-building, knowledge-sharing and awareness-raising, for urgently scaling up implementation of mitigation actions, particularly in developing countries;
  - (c) The need to tailor solutions to sociocultural and economic contexts, noting that there is no ‘one size fits all’ approach owing to the diversity of national and local circumstances;
  - (d) The importance of enhancing collaboration between cities, subnational authorities, local communities and national Governments on developing and implementing mitigation actions;
  - (e) The importance of integrating climate action into work on buildings and urban system planning to reduce emissions through long-term planning in the context of sustainable development and efforts to eradicate poverty and inequality;
7. *Further notes* that addressing the key findings, leveraging the opportunities, overcoming the barriers and considering the actionable solutions referred to in paragraph 6 above is voluntary and can be enabled by country-specific action in the light of different national circumstances, international cooperation and the mobilization of financial, technology and capacity-building support to developing countries;
8. *Recalls* paragraph 13 of decision 4/CMA.4 and paragraph 8 of decision 4/CMA.5, in which it was decided that the co-chairs of the work programme, considering the submissions referred to in paragraph 9 below, will decide on and communicate by 1 March 2025 the topics
