

Decision -/CMA.3

Glasgow–Sharm el-Sheikh work programme on the global goal on adaptation

The Conference of the Parties serving as the meeting of Parties to the Paris Agreement,

Recalling the Paris Agreement and the global goal on adaptation referred to in its Article 7, paragraph 1,

Also recalling Articles 2 and 7 of the Paris Agreement,

Recognizing the importance of the global goal on adaptation for effective implementation of the Paris Agreement,

Also recognizing that additional work is needed in relation to the global goal on adaptation,

Taking note of the methodological, empirical, conceptual and political challenges identified in the technical paper of the Adaptation Committee on approaches to reviewing the overall progress made in achieving the global goal on adaptation,¹

Recognizing that combining various approaches to reviewing overall progress made in achieving the global goal on adaptation, including qualitative and quantitative approaches, can generate a more holistic picture of adaptation progress and help to balance the strengths and weaknesses of the different approaches,

Recalling that adaptation action should follow a country-driven, gender-responsive, participatory and fully transparent approach, taking into consideration vulnerable groups, communities and ecosystems, and should be based on and guided by the best available science and, as appropriate, traditional knowledge, knowledge of indigenous peoples and local knowledge systems with a view to integrating adaptation into relevant socioeconomic and environmental policies and actions, where appropriate,

Acknowledging that climate change is a common concern of humankind, Parties should, when taking action to address climate change, respect, promote and consider their respective obligations on human rights, the right to health, the rights of indigenous peoples, local communities, migrants, children, persons with disabilities and people in vulnerable situations and the right to development, as well as gender equality, empowerment of women and intergenerational equity,
