**Conference of the Parties serving as the meeting  
of the Parties to the Kyoto Protocol**

**Fifteenth session**

**Santiago, 2–13 December 2019**

Item 6 of the provisional agenda

**Matters relating to joint implementation**

**Annual report of the Joint Implementation Supervisory  
Committee to the Conference of the Parties serving as  
the meeting of the Parties to the Kyoto Protocol**

*Summary*

This report covers the work carried out by the Joint Implementation Supervisory Committee from 1 September 2018 to 17 September 2019. During the reporting period, the Committee maintained the necessary infrastructure for the operation of joint implementation and prudently managed its resources as requested by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol. In addition, it adopted the joint implementation two-year management plan 2020–2021, reflecting its continuing commitment to supporting the operation of the mechanism.

## Abbreviations and acronyms

AIE	accredited independent entity
CDM	clean development mechanism
CMA	Conference of the Parties serving as the meeting of the Parties to the Paris Agreement
CMP	Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol
DOE	designated operational entity
ERU	emission reduction unit
JI	joint implementation
JISC	Joint Implementation Supervisory Committee

## **I. Introduction**

### **A. Mandate**

1. CMP 1 established<sup>1</sup> the JISC to supervise, inter alia, the verification of emission reductions or removal enhancements generated by JI projects in accordance with the JI guidelines.<sup>2</sup>
2. In accordance with paragraph 3(a) of the JI guidelines, the JISC is required to report on its activities at each session of the CMP. The CMP provides guidance regarding the implementation of Article 6 of the Kyoto Protocol and exercises authority over the JISC.

### **B. Scope**

3. This annual report of the JISC to the CMP covers JI activities carried out between 1 September 2018 and 17 September 2019 (hereinafter referred to as the reporting period).
4. It describes the status of JI and covers the work undertaken by the JISC during the reporting period, including its responsibilities relating to the operation of the verification procedure under the JISC (hereinafter referred to as JI Track 2),<sup>3</sup> and the financial status of the JI mechanism.
5. Full details of the operations and functions of the JISC are available on the JI web pages of the UNFCCC website, which are the central repository for reports on meetings of the JISC, information on JI projects and accreditation, and documents adopted by the JISC.<sup>4</sup>

### **C. Possible action by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol**

6. The CMP may wish to review this annual report.
7. In accordance with paragraphs 4 and 5 of the JI guidelines, the CMP is to elect JISC members for a term of two years, upon receipt of nominations from Parties, as follows:
  - (a) One member and one alternate member from Parties included in Annex I that are undergoing the process of transition to a market economy;
  - (b) One member and one alternate member from Parties included in Annex I not referred to in paragraph 7(a) above;
  - (c) Two members and two alternate members from Parties not included in Annex I;
  - (d) One member and one alternate member from small island developing States.

## **II. Status of joint implementation**

8. Activity under JI almost ceased at the end of the first commitment period of the Kyoto Protocol in 2012. The last issuance of ERUs under JI Track 1<sup>5</sup> was reported in August 2015, whereas the last JI Track 2 ERU issuance was reported in October 2014.
9. As ERUs are created by converting part of a country's assigned amount units under the Kyoto Protocol, no host Party is yet able to issue ERUs for the second commitment period. This will remain the case until the Doha Amendment enters into force.

---

<sup>1</sup> Decision 10/CMP.1.

<sup>2</sup> Decision 9/CMP.1, annex.

<sup>3</sup> Outlined in paras. 30–45 of the JI guidelines.

<sup>4</sup> <http://ji.unfccc.int>.

<sup>5</sup> In accordance with the JI guidelines (para. 13), under JI Track 1, national governments, not the JISC, are responsible for the oversight of projects and for the issuance of ERUs from those projects.

10. The Conference of the Parties recommended that experience gained and lessons learned from existing mechanisms and approaches adopted under the Convention and its related legal instruments be taken into account in preparing the rules, modalities and procedures for the mechanism established by Article 6, paragraph 4, of the Paris Agreement.<sup>6</sup> The JISC reiterates its recommendations to the CMP related to its reflections on and analysis of the experience and lessons learned from JI, as contained in its 2016 annual report.<sup>7</sup>

11. The JISC recognizes that valuable work was carried out by the Subsidiary Body for Implementation on the review of the JI guidelines, and that the draft modalities and procedures for JI<sup>8</sup> draw on the lessons learned from JI and can serve as an important input to the preparation of the rules, modalities and procedures of the mechanism established by Article 6, paragraph 4, of the Paris Agreement.

### **III. Work undertaken in the reporting period**

#### **A. Ensuring cost-effective and transparent functioning of joint implementation**

12. CMP 14 did not give the JISC any new mandates.

13. The JISC continued operations in accordance with its two-year management plan for 2018–2019,<sup>9</sup> by maintaining the infrastructure and capacity to support JI operations, as needed, and by monitoring the intergovernmental negotiation process and creating opportunities to provide further information and recommendations from the lessons learned from JI, as appropriate, for the development of the rules to operationalize the mechanisms under Article 6 of the Paris Agreement.

14. At its 42<sup>nd</sup> meeting, the JISC adopted the JI two-year management plan 2020–2021 with the dual aim of maintaining the infrastructure and capacity to ensure JI operations, and promoting the lessons learned from JI. In addition, the JISC decided that it will revisit in 2020 budget for 2021 in the light of any relevant decisions of the CMP on JI.

#### **B. Outreach activities**

15. The secretariat maintains the JI web pages and the UNFCCC web pages related to the JI negotiations as a promotional tool and repository of information relating to the mechanism.

#### **C. Meeting in 2019**

16. The JISC held its 42<sup>nd</sup> meeting on 17 September 2019 in a virtual environment.<sup>10</sup> The JISC Chair conducted the meeting in person from Bonn with the support of the secretariat, and 14 of the 18 current JISC members and alternate members participated virtually in the meeting. Electronic oaths of service were submitted to fulfil the requirements of the JISC rules of procedure.<sup>11</sup>

17. The annotated agenda for the meeting, documentation on supporting agenda items, on-demand broadcasts and a report containing all agreements reached by the JISC are available on the JI web pages.<sup>12</sup>

18. In the spirit of prudent resource management, the JISC decided not to hold any more physical meetings during 2019, and that its Chair and Vice-Chair would consult electronically with members for any decision-making.

#### **D. Interaction with bodies and stakeholders**

19. The JISC continued to make itself available for interaction with independent entities, AIEs, project developers and observers by encouraging written input from stakeholders to the agenda for its 42<sup>nd</sup> meeting and inviting the chairs of the DOE/AIE Coordination Forum and the Project Developer Forum to the meeting.

#### **E. Accreditation of independent entities**

20. The JISC reviewed its reliance on the CDM accreditation system and agreed to continue allowing DOEs accredited under the CDM to act voluntarily as AIEs to perform JI determinations and verifications. As at 17 September 2019, seven DOEs had submitted self-declarations expressing their interest in acting voluntarily as AIEs.

21. No JI project determinations or verifications under JI Track 2 were submitted by a DOE acting voluntarily as an AIE under JI.

#### **F. Verification procedure under the Joint Implementation Supervisory Committee**

22. Since the inception of JI, 597 JI projects have been published under Track 1, of which 548 have received unique project identifiers and have been submitted to the international transaction log. Information on 332 projects and one programme of activities under JI Track 2 has been made available on the JI web pages. A total of 52 determinations regarding project design documents have been published, of which 51 have been deemed final, while 128 of the 129 published verifications have been deemed final. A total of 871,893,629 ERUs have been issued, of which 846,477,357 were under Track 1 and 25,416,272 under Track 2.

23. As in the previous reporting period, no determination or verification cases were submitted for processing under JI Track 2.

### **IV. Governance and management matters**

#### **A. Membership of the Joint Implementation Supervisory Committee**

24. CMP 14 elected new members and alternate members of the JISC to fill vacancies arising from the expiration of the terms of tenure of outgoing members and alternate members. During the reporting period, the JISC comprised the members and alternate members listed in table 1.

25. The JISC wishes to highlight to the CMP the importance of constituencies filling vacant seats and the impact of vacant seats on constituting a quorum. The JISC encourages constituencies with vacant seats to nominate individuals to join the JISC.

<sup>d</sup> Nomination pending since CMP 11. The current member or alternate member remains in office until his or her successor has been nominated by the respective regional group or constituency.

## B. Election of the Chair and Vice-Chair of the Joint Implementation Supervisory Committee

26. Prior to the 42<sup>nd</sup> meeting of the JISC, its members electronically consulted and elected, by consensus, Kyegyeku Oppong-Boadi, a member from a Party not included in Annex I, as its Chair, and Vanessa Leonardi, a member from a Party included in Annex I, as its Vice-Chair. Their tenures will end immediately before the first meeting of the JISC in 2020.

27. The JISC expressed its deep appreciation to the outgoing Chair, Gherghita Nicodim, and Vice-Chair, Mr. Oppong-Boadi, for their excellent leadership during 2018.

## V. Status of financial resources for the work of the Joint Implementation Supervisory Committee and its supporting structures

28. During the reporting period, the JISC continued to carefully monitor the status of, and prudently utilize, the resources available for the work on JI.<sup>13</sup> Resources were used in support of the approved two-year management plan for 2018–2019.

29. A summary of the income of the JISC is provided in table 2.

## **VI. Recommendations to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol**

32. The JISC recommends that the CMP take note of its annual report for the reporting period and that the CMP invite the CMA to continue using the experience gained and lessons learned from JI<sup>14</sup> to inform the implementation of Article 6 of the Paris Agreement. The JISC also recommends that the CMP consider matters related to the second commitment period of the Kyoto Protocol and the future operation of the JI mechanism.
