Fifth review of the implementation of the framework for capacity-building in countries with economies in transition under the Kyoto Protocol

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Recalling decisions 3/CP.7, 3/CP.10, 30/CMP.1, 11/CMP.8 and 4/CMP.13,

Acknowledging that capacity-building for countries with economies in transition is essential to enabling them to implement effectively their commitments under the Kyoto Protocol,

1. *Recognizes* that:

(a) Significant progress has been made in building the capacity of countries with economies in transition to mitigate climate change, and that some recipients of assistance have started to transfer their own expertise, knowledge and lessons learned on capacity-building to Parties not included in Annex I to the Convention;

(b) Parties included in Annex I to the Convention and the Global Environment Facility, within its mandate, have provided adequate resources and assistance for the implementation of the framework for capacity-building in countries with economies in transition established under decision 3/CP.7 and reaffirmed by decision 30/CMP.1;

(c) Support was also provided to countries with economies in transition by multilateral development banks and international financial institutions;

(d) Countries with economies in transition that are currently receiving support, notwithstanding the progress made, are in need of further capacity-building, in particular for regularly updating and implementing their emission reduction targets, and for developing and implementing national long-term low-emission development strategies consistently with their national priorities;

2. *Reaffirms* that the scope of the needs identified in the framework for capacity-building in countries with economies in transition established under decision 3/CP.7 and 30/CMP.1 and the key factors identified in decision 3/CP.10 remain relevant and continue to be the basis for, and guide the implementation of, capacity-building activities in countries with economies in transition;

3. *Encourages* the engagement of countries with economies in transition in future discussions at the Durban Forum, as appropriate, to explore potential ways for enhancing capacity-building in countries with economies in transition by sharing examples of best practices and lessons learned;

4. *Invites* Parties to enhance reporting on best practices related to capacity-building in their national communications, biennial reports, submissions and other relevant documents with a view to furthering learning and broadening the impact of capacity-building activities in countries with economies in transition;

5. *Also invites* Parties included in Annex II to the Convention and other Parties in a position to do so, the Global Environment Facility, multilateral and bilateral agencies, international organizations, multilateral development banks, international financial institutions and the private sector or any further arrangements, as appropriate and within their mandates, to continue to provide support for capacity-building activities in countries with economies in transition;

6. *Further invites* Parties and relevant institutions to provide information on capacity-building activities in countries with economies in transition to the secretariat for inclusion on the capacity-building portal;¹
7. *Decides* to conclude the fifth review of the implementation of the framework for capacity-building in countries with economies in transition under the Kyoto Protocol and *requests* the Subsidiary Body for Implementation, at its sixty-fourth session (2026), to initiate the sixth review thereof with a view to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol concluding it at its twenty-first session (2026);
8. *Also requests* the secretariat to prepare a synthesis report on the implementation of the framework for capacity-building in countries with economies in transition to support the sixth review thereof for consideration by the Subsidiary Body for Implementation at its sixty-fourth session.

Annex I

Recommendations forwarded by the forum pertaining to activity 1 of the workplan: exploring approaches to inform the development and implementation of climate change mitigation strategies, plans, policies and programmes that maximize the positive and minimize the negative impacts of response measures

1. Encourage Parties to engage relevant stakeholders at each step of the process of designing and implementing climate mitigation policies and policies to achieve sustainable development, including through social dialogue, when possible and subject to national circumstances. The relevant stakeholders among others include workers, employers, organizations, academia, the public and private sectors, women and civil society.
2. Encourage Parties to explore complementary policies, such as economic policies, social protection and labour policies, to help strengthen the outcomes of the implementation of mitigation strategies, plans, policies and programmes, including nationally determined contributions and low-emission development strategies.
3. Encourage Parties to strengthen international and regional cooperation as it contributes to planning and implementation of mitigation policies with environmental and socioeconomic benefits, for example to help facilitate technology development and transfer in accordance with Article 10 of the Paris Agreement, and strive towards harmonized regional approaches.
4. Encourage Parties to use existing qualitative and quantitative assessment methodologies and tools to understand social, economic and employment effects of proposed mitigation measures as a way to inform and guide climate policies and to maximize the positive and minimize the negative effects of the implementation of response measures. More analysis of impacts, including, inter alia, sectoral, national, subnational, domestic and cross border, would be useful for informing climate policies and understanding how to maximize the positive and minimize the negative effects of the implementation of response measures.
5. Encourage the forum and its Katowice Committee of Experts on the Impacts of the Implementation of Response Measures to enhance the capacity of Parties, particularly developing country Parties, through training and capacity-building efforts, including existing initiatives. This will enable Parties to carry out their own assessments and analyses of the impacts of response measures.

Annex II

Revised rules of procedure of the Katowice Committee of Experts on the Impacts of the Implementation of Response Measures

I. Scope

1. These rules of procedure shall apply to the Katowice Committee of Experts on the Impacts of the Implementation of Response Measures (KCI) in accordance with decision 7/CMA.1 and its annex.

II. Mandate

2. The Conference of the Parties serving as the meeting of the Parties to the Paris Agreement (CMA), by decision 7/CMA.1, decided to establish the KCI to support the work of the forum on the impact of the implementation of response measures in implementing its work programme and operating in accordance with the terms of reference contained in the annex to that decision.

3. The forum and the KCI may use the following modalities, as appropriate and as decided on a case-by-case basis, to carry out the work programme of the forum:

- (a) Building awareness and enhancing information-sharing through the exchange and sharing of experience and best practices;
- (b) Preparing technical papers, case studies, specific examples and guidelines;
- (c) Receiving inputs from experts, practitioners and relevant organizations;

- (c) One member from the small island developing States;
- (d) Two members from relevant intergovernmental organizations.¹

5. By the same decision, the CMA also decided that members shall be nominated by their respective groups. Groups are encouraged to nominate members taking into account the goal of achieving gender balance. The Chairs of the Subsidiary Body for Scientific and Technological Advice (SBSTA) and the Subsidiary Body for Implementation (SBI) shall be notified of these appointments.²

6. The CMA further decided that members shall serve in their expert capacity and should have relevant qualifications and expertise in the technical and socioeconomic fields related to the areas of the work programme of the forum.³

² Decision 7/CMA.1, annex, para. 4(d).

³ Decision 7/CMA.1, annex, para. 4(c).

7. Further, the CMA decided that members shall serve a term of two years and be eligible to serve a maximum of two consecutive terms in office.⁴ The following rules shall apply:

(a) Half of the members shall be nominated initially for a term of three years and half of the members for a term of two years;

(b) Thereafter, members are nominated for a term of two years;

(c) The members shall remain in office until their successors are nominated. In such a case, the KCI shall notify the Chairs of the SBSTA and the SBI.

8. The term of office of a member shall commence at the first meeting of the KCI in the calendar year of their appointment and end immediately before the first meeting of the KCI in the calendar year after their second calendar year⁵ in office.

9. If a member of the KCI resigns or is otherwise unable to complete the assigned term of office or to perform the functions of that office, the KCI shall request the group that nominated the member to nominate another member for the remainder of the unexpired term, in which case the appointment shall count as one term. In such a case, the KCI shall notify the Chairs of the SBSTA and the SBI.

10. If a member is unable to participate in two consecutive meetings of the KCI or unable to perform the functions and tasks set by the KCI, the Co-Chairs of the KCI will bring this matter to the attention of the KCI and seek clarification from the group that nominated that member on the status of their membership.

IV. Conflict of interest

11. The KCI members must promptly disclose, and recuse themselves from, any deliberations or decision-making that could have a bearing on their personal or financial interests, in order to avoid a conflict of interest or the appearance of one. Further, KCI members shall not disclose any information deemed by the KCI as confidential that they receive in the course of their duties, even after leaving the KCI.

V. Co-Chairs

12. The CMA decided that the KCI shall elect, on a consensus basis, two members from among its members to serve as Co-Chairs for a term of two years each, taking into account the need to ensure equitable geographical representation.⁶

13. The CMA also decided that if one of the Co-Chairs is temporarily unable to fulfil the obligations of the office, another member designated by the KCI shall serve as Co-Chair.⁷

14. If one of the Co-Chairs is unable to complete the term of office, the KCI shall elect a replacement from among its members of the relevant group of the incumbent Co-Chair, if available, to complete that term of office.

Decision 9/CMP.16

Budget for the international transaction log

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Recalling Article 13, paragraph 5, of the Kyoto Protocol,

Also recalling decisions 11/CMP.3, 10/CMP.5, 9/CMP.6, 8/CMP.8, 8/CMP.11, 7/CMP.13 and 5/CMP.15,

Recognizing the importance of sufficient and stable funding for the international transaction log,

Also recognizing the importance of the proper functioning of the international transaction log for the Parties listed in Annex B to the Kyoto Protocol, as contained in annex I to decision 1/CMP.8,

1. *Approves* the budget for the international transaction log for the biennium 2022–2023, amounting to EUR 3,851,948 for the purposes specified in the proposed budget for the international transaction log;¹
2. *Decides* to maintain the level of the working capital reserve at 8.3 per cent of the estimated expenditure for the Trust Fund for the International Transaction Log;
3. *Authorizes* the Executive Secretary to draw EUR 2.5 million from unspent balances of the Trust Fund for the International Transaction Log from previous financial periods to cover part of the budget for the biennium 2022–2023;
4. *Also authorizes* the Executive Secretary to draw funds from unspent balances of the Trust Fund for the International Transaction Log from previous financial periods to cover the potential shortfall in fees due to the disconnection of Parties from the international transaction log;
5. *Notes* that the action referred to in paragraph 3 above is exceptional and is needed to disburse the significant unspent funds and *recognizes* that fees for the operation of the international transaction log are to be levied as necessary in future bienniums;
6. *Notes* that any unspent balances of the Trust Fund for the International Transaction Log from previous financial periods remaining after the actions referred to in paragraphs 3–4 above could be used to cover the budget of the international transaction log for future bienniums;
7. *Requests* the administrator of the international transaction log to disclose in its annual reports the unspent balance of the Trust Fund for the International Transaction Log from the previous biennium as at the time of publication of the annual report;
8. *Adopts* the scale of fees for the international transaction log for the biennium 2022–2023 contained in the annex;
9. *Decides* that fees for the international transaction log paid by a Party for the biennium 2022–2023 shall be calculated by multiplying the scale of fees for that Party contained in the annex by the budget for the international transaction log for the biennium 2022–2023 and adjusted for Parties currently not connected to the international transaction log, taking into account the amount drawn from unspent balances as set out in paragraph 3 above, with the balance of fees for the first year of the biennium being equal to the balance of fees for the second year of the biennium, as contained in the annex;
10. *Requests* the Executive Secretary to notify Parties connected to the international transaction log in the biennium 2022–2023 of the annual fees, calculated in accordance with

¹ FCCC/SBI/2021/4/Add.2.

paragraph 9 above, as early as possible and at least four months in advance of the relevant calendar year, where possible;

11. *Decides* that, if a Party connects to the international transaction log for the first time or reconnects to it, the scale of fees for that Party shall be that contained in the annex, or, for Parties not listed in the table contained in the annex, shall be made equal to 130 per cent of their Kyoto Protocol adjusted scale for the relevant biennium;

12. *Also decides* that fees paid by a Party that connects to the international transaction log for the first time or reconnects to it shall be deducted from the resource requirement for activities relating to the international transaction log in the next biennium;

13. *Further decides* that fees paid by a Party that connects to the international transaction log for the first time or reconnects to it during the biennium 2022–2023 shall be proportioned for the period between the date of connection or reconnection of its registry and the end of the biennium, except for the period for which the fees were already paid;

14. *Decides* that, where a Party disconnects during the biennium 2022–2023, the Party shall cover the fees for the full year in which the disconnection took place, and that, if the disconnection takes place in the first year of the biennium and the Party does not reconnect in the second year of the biennium, fees for the second year of the biennium shall not apply;

15. *Also decides* that, where a Party disconnected prior to the biennium 2022–2023, the fees shall not apply until the Party reconnects to the international transaction log;

16. *Authorizes* the international transaction log administrator to disconnect the registry of a Party from the international transaction log in the event of the non-payment of fees by that Party, provided that such disconnection shall not be effected earlier than four months after the beginning of the relevant calendar year, at least two reminders have already been given to the Party and consultations have taken place with the Party concerned prior to the final reminder;

17. *Requests* the international transaction log administrator to provide, in its annual reports for 2022 and 2023, information on transactions of Kyoto Protocol units;

18. *Also requests* the international transaction log administrator to publish, in its annual reports, a table listing the scale and the level of fees and the status of payments for all Parties connected to the international transaction log.

2. *Expresses its appreciation* to Parties that made contributions to the core budget in a timely manner;
3. *Expresses concern* regarding the high level of outstanding contributions to the core budget for the current and previous bienniums, which has resulted in difficulties with cash flow and the effective implementation of activities;
4. *Strongly urges* Parties that have not made contributions in full to the core budget for the current and/or previous bienniums to do so without further delay;
5. *Calls upon* Parties to make their contributions to the core budget for 2022 in a timely manner, bearing in mind that contributions are due on 1 January of each year in accordance with the UNFCCC financial procedures;
6. *Expresses its appreciation* for the contributions to the Trust Fund for Participation in the UNFCCC Process and to the Trust Fund for Supplementary Activities received from Parties, including those contributions that allow for greater flexibility in allocation;
7. *Urges* Parties to further contribute to the Trust Fund for Participation in the UNFCCC Process in order to ensure the widest possible participation in the process in 2022–2023, and to the Trust Fund for Supplementary Activities to ensure a high level of implementation of the UNFCCC work programme;
8. *Reiterates its appreciation* to the Government of Germany for its annual voluntary contribution to the core budget of EUR 766,938 and its special contribution of EUR 1,789,522 as Host Government of the secretariat;

18. *Welcomes* the information on standard travel costs provided by the secretariat;⁸

19. *Recommends* that the secretariat publish and regularly update information on standard costs on the UNFCCC website (instead of the brief update reports) and inform Parties in a timely and clear manner when new information is available (at least before each session of the subsidiary bodies);

20. *States* that the purpose of reporting on standard costs is to provide Parties with insight into the budgetary impact of any planned decisions of the governing bodies;
