**Addendum to the thirteenth report of
the Green Climate Fund to the
Conference of the Parties to the
United Nations Framework
Convention on Climate Change**

Executive summary

1. This addendum to the thirteenth report of the Green Climate Fund (GCF) to the Conference of the Parties (COP) to the United Nations Framework Convention on Climate Change (UNFCCC)¹ is intended to update the COP on the progress achieved by GCF following the fortieth meeting of the GCF Board (B.40) held in Songdo, Incheon, Republic of Korea on 21–24 October 2024² and to inform the COP about the other progress delivered by GCF.
2. At B.40, the GCF Board approved a significant USD 1 billion for 16 new climate projects, expanding its portfolio to 286 projects and a cumulative GCF commitment of USD 15.9 billion. This programming volume underscores the commitment of GCF to accelerating climate action, including first-time funding for single-country projects in Angola,³ Azerbaijan,⁴ Iraq⁵ and Somalia,⁶ and innovative mechanisms like the debt-for-climate conversion mechanism of Barbados.⁷ As another first, the Board approved an inaugural proposal under the pilot initiative project-specific assessment approach (PSAA) in Burundi. GCF is closing 2024 with USD 2.5 billion committed to 44 new projects, bringing the total number of countries with projects to 133. As an indication of the commitment of GCF to quickly deliver climate finance, the projects in Burundi and Somalia moved from Board approval to funded activity agreement signing to first disbursement in just one day. This is becoming a common practice for GCF, demonstrating the commitment to continuously improve GCF efficiency. Alongside these approvals, GCF introduced reforms⁸ within the Secretariat, transitioning to an integrated regional operational model. This reorganization is designed to improve the accessibility of GCF funding, enabling a faster response to country needs and enhancing alignment with country priorities. These developments reflect the strategic efforts of GCF to bolster global climate finance access and effectiveness ahead of the twenty-ninth session of the COP (COP 29).
3. Following the High-Level Pledging Conference hosted by Germany in Bonn on 5 October 2023, where a total of USD 9.322 billion was pledged including the credit earned due to early payment and/or encashment, 10 additional countries pledged for the second replenishment period of GCF (GCF-2), resulting in the replenishment for the 2024–2027 programming period raising a record-breaking amount of USD 12.8 billion in support from 34 contributors. The successful replenishment is a demonstration of the high level of ambition of contributor countries and their confidence in GCF to deliver transformative climate action.
4. GCF advanced key policy and strategic planning matters at B.40. The Board approved the first ever multi-year (2025–2027) work programme of the Secretariat and annual administrative budget of the GCF Secretariat, Board and Trustee. The work programme sets out a three-year trajectory detailing how the Secretariat will progress its top priorities for action – enhancing country ownership and access to GCF funding, delivering impact and results, and focusing on people and performance – as it works to deliver the Strategic Plan for the GCF 2024–2027, which was adopted by the Board at B.36 by decision B.36/13. The Board also adopted several policies, including: (i) the policy for results-based payments for REDD+, integrating such projects into the GCF regular project activity cycle, and (ii) a revised risk appetite statement of commitment to proactive risk management and to accept considerable

risks in GCF programmes and projects in return for high climate impact potential. The Board also decided that the current accreditation process is not as effective as it should be and that revisions to the accreditation framework are necessary and a priority for GCF.

5. GCF continued to provide support to developing countries through its funding windows to pursue low-emission and climate-resilient development pathways. Following B.40, GCF funding for climate change action increased to USD 15.9 billion, thus bringing the current portfolio value, including co-financing, to USD 61.5 billion. The projects and programmes are expected to abate a total of 3.1 billion tonnes of carbon dioxide equivalent of greenhouse gases and reach 1.3 billion direct and indirect beneficiaries. The private and public sectors account for 37 per cent and 63 per cent of the GCF funding in nominal terms, respectively. The GCF portfolio allocation stands in grant equivalent terms at 56 per cent for adaptation (USD 5.6 billion) and 44 per cent (USD 4.3 billion) for mitigation. The GCF Secretariat and accredited entities continue to boost the rate of implementation, with 235 projects and programmes, totalling USD 12.6 billion of GCF approved funding, being under implementation as at 31 October 2024. In terms of adaptation allocation, 65 per cent of adaptation finance is allocated for vulnerable countries, including least developed countries, small island developing States, and African States, taking into account their urgent and immediate needs, thus going above the GCF-2 target floor of 50 per cent.

6. Under the Readiness and Preparatory Support Programme, as at 31 October 2024, GCF had approved 802 readiness requests covering 142 countries, which includes requests for support for the formulation of national adaptation plans and other adaptation planning processes. USD 641.58 million has been committed in the form of grants, and technical assistance for those 802 readiness requests, 497⁹ of which are under implementation¹⁰ and 287¹¹ of which have been completed and closed. As at 31 October 2024, GCF had approved 115 adaptation planning proposals in 104 countries, while another 33 adaptation planning proposals were at various stages of the review process.

7. GCF continued its efforts to further expand and strengthen its network of AEs, with specific focus on direct access entities. As at 31 October 2024, GCF had provided in-kind accreditation support to 415 entities nominated by the national designated authorities and focal points of 118 countries in the regions of Africa, Asia-Pacific, Eastern Europe, and Latin America and the Caribbean. Forty-two entities, nominated by 48 countries, had received technical assistance enabling completion of their institutional gap assessments and preparation of action plans to address any gaps identified to meet GCF accreditation requirements. As at 31 October 2024, a total of 139 entities¹² had been approved by the Board for accreditation to GCF, subject to completing legal arrangements with GCF by signing and making effective their accreditation master agreements. Twenty-one applications from 18 AEs to upgrade their accreditation types, including 12 in parallel with re-accreditation, were received between 17 November 2014 and 31 October 2024, of which 20 upgrades were approved by the Board.

8. As laid out in the Governing Instrument for the GCF, the term of the GCF Board and its members is for three years. The current fourth term of Board membership is due to come to an end on 31 December 2024. Selections for the fifth term of GCF Board membership started in late May 2024 and are currently ongoing. Relevant regional groups and constituencies were invited by the Secretariat to submit their selections for the new term of the GCF Board which will begin on 1 January 2025 and will end on 31 December 2027. At the time of writing, 16 out of the 24

seats at the Board have been filled by selected Board members. Selections for both the remainder of Board members and many of the alternate Board members is still ongoing and the Secretariat expects the relevant notifications to be received in the coming weeks.

I. Introduction

1. By decision 5/CP.19, the Conference of the Parties (COP) to the United Nations Framework Convention on Climate Change (UNFCCC) agreed to the arrangements between the COP and the Green Climate Fund (GCF) to ensure that GCF is accountable to and functions under the guidance of the COP.
2. This addendum to the thirteenth report of GCF to the COP is intended to provide an update on the progress achieved by GCF following the fortieth meeting of the GCF Board (B.40), held in Songdo, Incheon, Republic of Korea, on 21–24 October 2024.

II. Progress on the second replenishment process of the Green Climate Fund

3. The High-Level Pledging Conference for the second replenishment period of GCF (GCF-2) was held in Bonn, Germany on 5 October 2023. During the pledging session, a total of USD 9.322 billion was pledged, including credit earned due to early payment and/or encashment.
4. Since the pledging conference, 10 additional countries have pledged for GCF-2. With additional pledges, the GCF replenishment for the 2024–2027 programming period has raised a record-breaking amount of USD 12.8 billion in support from 34 contributors. Among the 34 countries that have pledged support to GCF, 20 increased their pledged amount compared with the previous replenishment: Austria, Belgium, Bulgaria, Canada, Denmark, France, Germany, Iceland, Ireland, Liechtenstein, Luxembourg, Monaco, Kingdom of the Netherlands, New Zealand, Portugal, Republic of Korea, Slovakia, Slovenia, Spain and the United Kingdom of Great Britain and Northern Ireland. Five countries returned as contributors (having pledged support in the GCF initial resource mobilization period of 2015–2019): Australia, Czechia, Estonia, Mongolia and the United States of America. Three contributing countries are non-Annex I Parties under the UNFCCC: Republic of Korea, Mongolia, and Israel, also a new contributor. The successful replenishment is a demonstration of the high level of ambition of contributor countries and their confidence in GCF to deliver transformative climate action. Since GCF will maintain flexibility in receiving contributions on an ongoing basis, it will continue to engage with other potential contributors for additional GCF-2 contributions in the run-up to the twenty-ninth session of the COP (COP 29) and throughout the GCF-2 period.
5. The total confirmed pledges for GCF-2 amount to approximately USD 6.8 billion equivalent in nominal terms. The GCF Secretariat will continue to actively engage with contributors to convert all pledges and intentions into actual contribution agreements/arrangements as soon as possible.

III. Policy and strategic planning matters from the fortieth meeting of the Board

6. GCF also advanced key policy and strategic planning matters at B.40. The Board approved the first ever multi-year (2025–2027) work programme of the Secretariat and annual administrative budget of the GCF Secretariat, Board and Trustee. The work programme sets out a three-year trajectory detailing how the Secretariat will progress its top priorities for action – enhancing country ownership and access to GCF funding, delivering impact and results, and focusing on people and performance – as it works to deliver the Strategic Plan for the GCF 2024–2027, which was adopted by the Board at B.36 by decision B.36/13.

7. At B.40 the Board adopted policies, including: (i) the policy for results-based payments for REDD+, integrating such projects into the GCF regular project activity cycle, and (ii) a revised risk appetite statement of commitment to proactive risk management and to accept considerable risks in GCF programmes and projects in return for high climate impact potential.

8. The Board also decided at B.40 that the current accreditation process is not as effective as it should be and revisions to the accreditation framework are necessary and a priority for GCF with a view to enhancing transparency, responsiveness, efficiency, fairness, country ownership, the capacity of direct access entities (DAEs), and accredited entity (AE) accountability, while maintaining the standards in the initial fiduciary principles and standards adopted by decision B.07/02, paragraph (b), the interim environmental and social safeguards of GCF adopted by decision B.07/02, paragraph (c), and the Gender Policy adopted by decision B.24/12, paragraph (e).

IV. Fifth term of Board membership

9. As laid out in the Governing Instrument for the GCF, the Board has 24 members, comprising an equal number of members from developed and developing country Parties to the UNFCCC, and each member has an alternate member. Paragraph 12 of the Governing Instrument provides that members and alternate members of the Board will serve for a term of three years and be eligible to serve additional terms as determined by their constituency or regional group. The fourth term of the GCF Board began on 1 January 2022 and will end on 31 December 2024. The selection of members to serve in the fifth term of Board membership began in late May 2024, with the GCF Secretariat issuing a letter to chairs and coordinators of the respective constituencies and regional groups, informing them of the selection process for the fifth term of Board membership and requesting submissions of the names and contact details of the selected members and alternate members of the Board before 30 September 2024.

10. As at 31 October 2024, the GCF Secretariat had been notified of the selections for 16 Board members and 12 alternate Board members. The list of selected Board members and alternate Board members is continuously updated and communicated to the GCF Board.¹³

V. Annual update on complementarity and coherence

11. The annual update on the implementation of the operational framework for complementarity and coherence was submitted for the Board's consideration at B.40 as an addendum to the report on the activities of the Secretariat.¹⁴ The document reports on the progress made and the outputs from implementing the operational framework for complementarity and coherence with respect to board-level discussions on fund-to-fund arrangements, enhancing complementarity at the activity level, promoting coherence at the national programming level, and advancing complementarity at the level of delivery of climate finance through an established dialogue. The implementation of the operational framework for complementarity and coherence has focused on collaboration with the Global Environment Facility, including the Least Developed Countries Fund and Special Climate Change Fund, the Climate Investment Funds and the Adaptation Fund. With B.40, the annual update also began reporting on the development of the draft multilateral climate funds action plan on complementarity and coherence following the adopted Board decision (B.39/15).

¹³ The consolidated list of selections is provided in document GCF/B.40/Inf.08-Add2, available at: <https://www.greenclimate.fund/document/gcf-b40-inf08-add02>

VI. Green Climate Fund portfolio

12. At B.40, 16 funding proposals for projects and programmes were approved, representing an investment of USD 1.01 billion, and eight funded activity agreements were signed immediately following the Board meeting.

13. Taking into account the outcomes of B.40, GCF-approved funding increased to USD 15.9 billion for 286 climate change projects and programmes to be implemented in 133 developing countries. The current GCF portfolio, including co-financing, is valued at USD 61.5 billion. Those 286 projects and programmes are expected to abate a total of 3.1 billion tonnes of carbon dioxide equivalent of greenhouse gases and reach 1.3 billion direct and indirect beneficiaries, based on the estimations of AEs. The GCF portfolio allocation stands in grant equivalent terms at 56 per cent (USD 5.6 billion) for adaptation and 44 per cent (USD 4.3 billion) for mitigation. In nominal terms, this corresponds to 46 per cent of funding going to adaptation and 54 per cent to mitigation. Among mitigation results areas, the energy access and power generation results area has the largest portion of GCF funding (39 per cent), while low-emission transport accounts for the smallest of all results areas (16 per cent). As articulated in GCF Board decision B.06/06, and in line with paragraph 3 of the Governing Instrument, the Board will continue to aim to maintain a balance between mitigation and adaptation as it approves further funding for projects and programmes.

14. The projects and programmes in the GCF portfolio will benefit 133 countries, comprising 50 in Africa, 42 in the Asia-Pacific region, 32 in Latin America and the Caribbean, and 9 in Eastern Europe. This translates into a funding distribution of 38 per cent (the largest portion) to the Africa region, followed by 34 per cent to the Asia-Pacific region, 24 per cent to Latin America and the Caribbean, and 4 per cent to Eastern Europe. Approximately 29 per cent of GCF funding has been committed to least developed countries (LDCs) and 11 per cent to small island developing States (SIDS). Further details on the approved projects and programmes, following B.40, that will receive GCF funding are provided in annex II.

15. The portfolio utilizes a wide range of financial instruments, as authorized by the Governing Instrument. The largest portion of the portfolio is financed by grants (42.3 per cent), followed by loans (40.9 per cent), equity (11.3 per cent), results-based payments (RBPs) (3.1 per cent) and guarantees (2.4 per cent). GCF funding of USD 5.97 billion for private sector projects is accounted for by loans (54.1 per cent), equity (30.0 per cent), grants (11.8 per cent), and guarantees (4.1 per cent). For public sector projects, with GCF funding of USD 9.97 billion, grants (60.5 per cent) account for the largest portion, followed by loans (33.0 per cent), RBPs (5.0 per cent) and guarantees (1.4 per cent).

16. As at 31 October 2024, the number of projects and programmes under implementation reached 235, which accounts for 82 per cent of the total of 286 approved funding for projects and programmes. Worth USD 12.6 billion in GCF funding, these projects are being implemented by 58 AEs. Of the total amount of GCF funding for projects under implementation of USD 12.6 billion, 39 per cent has been disbursed, including full disbursement of approved funding for 43 projects. Of that amount, 33 per cent has been disbursed for private sector projects and 67 per cent for public sector projects. The cumulative disbursement is expected to fall in the range of USD 4.8–5.1 billion by the end of 2024, which is 30–32 per cent of the estimated total approved funding.

6.2 Readiness/national adaptation plan support

17. GCF continued to provide support to developing countries under its Readiness and Preparatory Support Programme. At B.37, a multi-year planning approach for both the

countries and the Secretariat was adopted and an amount of USD 501.5 million was made available for the execution of the Readiness and Preparatory Support Programme for 2024–2027, bringing the total allocation for the programme to USD 1.16 billion (including 12.4 million earmarked for the Integrated Results Management Framework window).

18. As at 31 October 2024, GCF had approved 802 readiness requests covering 142 countries, which includes requests for support for national adaptation plans (NAPs) and other adaptation planning processes, as well as non-NAP related grants and technical assistance grants.¹⁵ USD 641.58 million had been committed in the form of grants or technical assistance for the 802 readiness requests approved; 497 of the requests are under implementation¹⁶ and 287 have been completed and closed. Of the 142 countries whose readiness requests were approved, 93 were SIDS, LDCs and African States. Details of approved, disbursed and completed readiness grants by region are provided in table 1.¹⁷

19. As at 31 October 2024, GCF had approved 115 adaptation planning proposals in 104 country Parties.¹⁹ Most of these readiness grants are in the implementation stage. It should be noted that submission to UNFCCC of a finalized NAP is not a requirement imposed by GCF in order to consider an adaptation planning readiness activity completed, and such submission remains at the discretion of countries. Additionally, the Readiness and Preparatory Support Programme can provide grants as a follow-up to a NAP readiness activity, for the development

of sectoral or subnational adaptation plans, enhancing national climate services, preparation of concept notes, and other such activities.

20. As at 31 October 2024, 33 adaptation planning proposals²⁰ were at various stages of the review process, the majority of the proposals having been sent back to the national designated authorities (NDAs) and delivery partners with technical review comments to facilitate revision and resubmission.

VII. Accreditation

21. At B.37, the Board decided to extend the accreditation terms of all AEs by three years from the date their accreditation term lapsed or will lapse or until the date on which a revised accreditation framework is adopted by the Board, whichever is earlier. This decision was made to allow GCF to focus on broadening access by bringing in new DAEs, to respond to challenges related to the accreditation process, and to work under the Board's guidance on preparing a revised accreditation framework for consideration by the Board by its last meeting in 2024.

22. A draft revised accreditation framework was presented for the Board's consideration at B.40, with further items to be proposed for subsequent Board meetings. Following its consideration, the Board decided that the current accreditation process is not effective and revisions to the accreditation framework are necessary and a priority for GCF with a view to enhancing transparency, responsiveness, efficiency, fairness, country ownership, the capacity of DAEs, and AE accountability, while maintaining the standards in the initial fiduciary principles and standards, the environmental and social safeguards of GCF, and the Gender Policy.

23. The Board also requested the Secretariat to present for the Board's consideration and approval at B.42 the following: (i) a revised accreditation framework; (ii) the related screening requirements for accreditation; (iii) an analysis of policies that will be impacted by the revised accreditation framework; (iv) an updated policy on fees for accreditation; (v) updates to the monitoring and accountability framework; and (vi) a proposal for a fit-for-purpose approach to legal arrangements with all current and future AEs.

24. As at 31 October 2024, GCF had provided in-kind accreditation support to 415 entities nominated by the NDAs and focal points of 118 countries in the regions of Africa, Asia-Pacific, Eastern Europe and Latin America and the Caribbean. To date, 42 entities, nominated by 48 countries, had received technical assistance, enabling completion of their institutional gap assessments and preparation of action plans to address any gaps identified, to meet GCF accreditation requirements.

25. As at 31 October 2024, a total of 139 entities²¹ had been approved by the Board for accreditation to GCF, subject to completing legal arrangements with GCF by signing and making effective their accreditation master agreements. As at the same date, 106 entities had completed this process and were able to fully operationalize their engagement with GCF, including 67 DAEs (54 national, of which 12 are private sector entities, and 13 regional DAEs, of which 1 is a private sector entity) and 39 international access entities (of which 10 are private sector entities). DAEs represent 63 per cent of the total portfolio of AEs that are able to engage fully with GCF. The Governing Instrument establishes that countries will determine the mode of

access, and both the direct access and international access modalities can be used simultaneously.

26. As at 31 October 2024, a pipeline of 143 entities had submitted accreditation applications (including active and inactive applications). Of these, 11 applications are under Stage II (Step 1 – Accreditation Panel review) and 86 applications are under Stage I. A further 46 entities have submitted an application but have yet to pay accreditation application fees in order to begin Stage I. In addition to the entities that have submitted applications, 106 entities (including active and inactive applications) have access to the Digital Accreditation Platform but have yet to submit their application.

27. The submitted applications received to date reflect considerable diversity in terms of geographical representation, the type of activities to be undertaken using GCF resources if accreditation is approved, the type of accreditation being sought (e.g. project/programme activity size, fiduciary function, and environmental and social risk category) and whether they are from the public or the private sector.

28. In addition to applications for accreditation, 21 applications from 18 AEs to upgrade their accreditation types, including 12 in parallel with re-accreditation, were received between 17 November 2014 and 31 October 2024, of which 20 upgrades were approved by the Board. The AEs are seeking to upgrade their accreditation type for increased size categories, additional fiduciary functions (e.g. on-lending and/or blending for equity and guarantees) and higher environmental and social risk categories.

29. As at 31 October 2024, of the 139 entities approved by the Board for accreditation to GCF, 37 were accredited as private sector entities. However, many other entities accredited to GCF, including national, regional and multilateral development banks, public sector entities and non-governmental organizations, have brought forward private sector funding proposals to GCF or have partnered with the private sector for their GCF projects and programmes.

Annex III: Approaches taken for facilitating an increase in direct access proposals

In decision B.18/02, paragraph (b), the GCF Board requested the Secretariat to include in its regular reporting to the Board on the status of the GCF portfolio pipeline and approved projects, as well as in the annual reports of GCF to the Conference of the Parties to the United Nations Framework Convention on Climate Change, information on the Secretariat's efforts to facilitate an increase in direct access proposals. Table 5 below is presented in response to that Board mandate, showing the situation as at 31 October 2024.

Table 5: Information on active project concept notes and associated Project Preparation Facility requests from direct access entities
