Measures are being taken to resolve the problem as soon as possible. In the interim period, participants are requested to sit as close to the front of the room as possible. In addition, it would be helpful if participants limit discussions to the large foyer outside the meeting room corridors.

Announcements

Computing at the conference

- A computer centre is available to participants from 8 a.m. to 8 p.m. on the BICC upper level (in front of Plenary II). The centre is equipped with PCs with Internet access and printing facilities. Computer support staff wearing yellow T-shirts are on location to provide assistance.
- Wireless "PlugNplay HOT SPOT" access points are also available in open areas and will be available in the main meeting rooms. Signs will indicate the hot spots.
- PCs, printers and wireless access points are also available to media representatives and journalists in the Media Centre.
- Owing to high Internet bandwidth limitations, file size limitations have been imposed on downloads. In addition, users should save their work frequently, in order to avoid the loss of documents should there be a power interruption.
- For those participants using a laptop at the conference facility: please make sure your anti-virus and personal firewall are enabled and up-to-date, and give your laptop a name so that we can help identify your laptop (or your organization) for trouble-shooting purposes. Do not leave your laptop unattended at any time.

Using the "Free WiFi" service at the conference to access the Internet

Participants are reminded to select the legitimate conference Wireless network **PlugNplay** that is provided free of charge at all meeting locations (Laguna, BICC and the GrandHyatt). To help keep the Internet connection stable and free of viruses, participants are urged to consider the following list of Dos and Don'ts.

DO NOT ...

Do not use any other wireless network. Many alternative or "free" wireless networks are actually virus-infected PCs and you should not connect to them. Your identity could easily be stolen. Examples of "rouge" networks discovered here at the conference (as of today) include:

- o Free Public WiFi , US Airways Free WiFi, Free Internet Access
- o HPsetup, Ozone, Tmobile, Jet Blue Hot Spot
- o Linksys, 1, UNFCCC04, UNFCCC05, UNFCCC06

DO ...

Turn off your wireless radio when you are not using it – it will conserve the life of your battery and prevent your laptop from connecting to unsafe networks;
Review the choice of wireless networks discovered by your laptop and then select the **PlugNPlay** network. This is the only approved wireless network at the conference;

Make notes of your settings before you make changes, for example before changing your outbound e-mail settings to use **smtp.telkom.net** instead of your current outbound e-mail server;

Turn off shared folders. If you join a malicious network, a hacker could easily load a malicious spyware agent to follow you even after you leave the public location.

Please note that the conference organizers cannot be held responsible for damage or loss of data resulting from the use of malicious wireless networks at the conference site.

Solar taxi

Five months after a pioneering world tour from Switzerland to Bali a taxi, exclusively powered by solar energy, has arrived at the United Nations Climate Change Conference. The solar taxi is now offering participants in the conference a shuttle service from The Westin Resort within the Nusa Dua area. For a unique experience in a climate-friendly vehicle, contact Louis at solartaxi@gmail.com.

Shuttle service

A shuttle service between the Bali International Convention Centre (BICC) and the Grand Hyatt Hotel (GH) is available to participants. The schedule will vary during the conference. Participants are therefore requested to review this information each day.

To reach the shuttles, exit the BICC just before the connecting corridor on the ground floor to The Westin. The shuttle will traverse directly between the two points without stopping.

Today’s shuttle runs every 20–30 minutes, from 9.45 to 22.15 hours (except for a one-hour break from 11.00 to 12.00 hours).

Exhibitors

The sessions are attracting a large number of participants, who need space to move freely around the conference venue. Exhibitors are requested to ensure that they do not exceed their allotted space. If your back panel or counter is not needed, please let the Observer Liaison team know. You may contact Mr. Virgile Vasseur in the Observer Liaison office in the BICC.
