a.m.	Contact group on Annex I Parties' emission reductions (aggregate/individual)
	Contact group on other issues identified at its resumed sixth session
p.m.	Closing plenary

AWG-LCA

a.m.	Contact group on a shared vision for long-term cooperative action
	Contact group on enhanced action on the provision of financial resources and investment
	Contact group on enhanced action on mitigation and its associated means of implementation
	Contact group on enhanced action on adaptation and its associated means of implementation
p.m.	Contact group on enhanced action on capacity-building
	Contact group on enhanced action on the development and transfer of technology
	Closing plenary

Special announcements

- Use of audio/video recording devices by participants at UNFCCC sessions** The making of audio and video recordings, including any external transmission, by Party or observer organization delegations during open and closed official meetings and in designated security zones is not permitted. The secretariat provides audio recordings of official meetings, as required by Parties. Webcasts are provided for open plenary meetings.
- Free shuttle buses for all participants** **Plaza Espanya to Fira Gran Via (green line UNFCCC bus)**
Timetable: 07:30–21:30
Frequency: continuous round trip
- Plaza Europa to Fira Gran Via (blue line UNFCCC bus)**
Timetable: 07:30–21:30
Frequency: continuous round trip
- Participants are requested to show their conference badge when boarding the shuttle buses.
- Free public transportation in Barcelona** The welcome bag being distributed to participants includes a ticket for free transportation in the Barcelona area for the duration of the conference.

Announcements

- Wireless access for laptops** Monitoring of wireless use on Monday indicated that there was exceptionally high demand in the Computer Centre and the immediately adjacent cafeteria area. This led to the saturation of the wireless access points in these areas.
- As all areas of the conference facility have wireless access, participants may also access wireless in other areas, such as the open space near the Tilo conference room. Alternatively, the computer cables provided in the PlugNPlay area may be used to connect.
- Webcast coverage** For the duration of the conference, all plenary meetings and press conferences will be available live and on demand, with English or floor audio streams. On-demand files will be available shortly after the close of each meeting.
- A selection of side events will be available on demand in floor languages. Please check the UNFCCC website for the date and time of webcast sessions at <unfccc.int>.
- Information for participants** A booklet on the facilities available at the venue, entitled “Information for participants”, is available at the Information desk, Welcome Catalunya desk and also online at:
<http://unfccc.int/files/meetings/intersessional/bangkok_09/services_to_participants/application/pdf/infopart_barcelona_09.pdf>.

Security	Participants should ensure that they wear their badge in full view at all times, as the security officers may request them to verify their identity. This may lead to some inconvenience, but it is expected that participants will understand the need for such arrangements.
Lost and found items	Participants are reminded not to leave personal belongings in meeting rooms. The Security office, located adjacent to the main entrance, is responsible for lost and found items.
Meditation room	A room for meditation and prayer is available to participants on the First Floor, in between the offices of the Group of 77 and China and the delegation of Spain.

Events

For a full schedule of side events during the sessions and a list of the exhibits, please see the brochure "**...inSide climate change**", available from the Information desk and the Documents Distribution counter, or visit the UNFCCC [website](#). The secretariat would like to note that the scheduling of events remains dependent upon the demands of the negotiating process. For short-term changes please consult the CCTV monitors.

Side events

RINGO science update series

Climate science constantly evolves. At the last stop on the road to Copenhagen, the members of the RINGO constituency (the research and independent non-governmental organizations) have planned a series of side events intended to update delegates and observers on the most recent climate change research. The events will focus on findings that have become available since the IPCC's Fourth Assessment Report. These presentations will take place in Room Serbal at 13:00 every day (except Tuesday) on the following topics:

Monday, 2 November	Science and scenarios
Wednesday, 4 November	Impacts and adaptation
Thursday, 5 November	Mitigation technologies
Friday, 6 November	Mitigation policy

Time	Organizer	Theme	Venue
09:00– 10:30	Network of Regional Governments for Sustainable Development (nrg4SD) Mr. Peredur John peredur.john@wales.gsi.gov.uk +32 2 5064486	Thinking global, acting local: the vital role of the regions Main responsibility for implementing climate change policies lies locally with regional authorities. Initiatives at this level show commitment and leadership. This NRG4SD / UNDP/The Climate Group partnership event will highlight regional action and their vital input to international agreements.	Aliso
09:00– 10:30	Third World Network (TWN) Ms. Meenakshi Raman meenaco@pd.jaring.my +41 22 795065039	Advancing the climate justice agenda What a fair and equitable outcome for Copenhagen should look like, and challenges for civil society.	Almez
09:00– 10:30	German NGO Forum on Environment and Development Mr. Tilman Santarius santarius@germanwatch.org +2 53173 4916036577	Climate and trade beyond Copenhagen Tackling dangerous interference with the climate system demands a reform of the global trading system. How to deal with carbon embodied in trade? How to make trade measures work for climate protection?	Adelfa
11:00– 12:30	Overseas Environmental Cooperation Center, Japan (OECC) Ms. Junko Morizane morizane@oecc.or.jp +81 547 20144	NAMAs for practical implementation: learning from experiences The session focuses on how NAMAs can be planned and implemented in a practical way, based on experience. Additional activities

All day Thursday and Friday

Climate treaty “Jenga” tower

Will it all fall down? Or can a global, fair, ambitious and, most importantly, binding treaty in Copenhagen be built on the foundation of the Kyoto Treaty? In light of lack of progress this week, are some world leaders pushing us towards a collapse – or can negotiators rescue a strong deal? Organizer: Avaaz Foundation

TckTckTck

A global coalition of more than 200 environment and development NGOs, trade unions, faith groups, etc. The event features an artistic display representing the urgency of the need to agree to a fair, ambitious binding climate treaty in Copenhagen. On 21 September and again on 24 October hundreds of thousands of people gave a powerful mandate for strong political action. The clocks are the reminder of that call. Location: Foyer of Hall 8 near the exit. Organizer: Avaaz Foundation on behalf of TckTckTck campaign

Adopt-a-negotiator

A collaborative blog project involving 13 young people from 13 of the big players in the negotiations. A young person from each country 'tracks' their lead negotiator and reports back through a range of social media to their home networks. Countries in focus are Japan Sweden, India, China, Australia, Canada, Italy, USA, UK, Brazil, Germany, France and Spain. The 'trackers' also meet with their delegations throughout the negotiations with the aim of making the UNFCCC process two way. The tracker teams can be identified around by their distinctive red T-shirts. Follow their progress at www.adoptanegotiator.org. Organizer: Oxfam International on behalf of GCCA

Photo display

Highlights from the 24th October International Day of Action on Climate Change. These photographs on display represent a small fraction of all those sent in from around the world documenting this day, when over 5,200 demonstrations occurred in 181 countries in support of bringing emissions back to a safe level below 350 parts per million. Delegates and observers may see visually how strongly civil society is behind a treaty based on the latest science, and how much the political will to address that science grew on 24 October.
