Rio Conventions' Ecosystems and Climate Change Pavilion

The **Rio Conventions' Ecosystems and Climate Change Pavilion** is a collaborative outreach activity involving the Rio Convention secretariats, the Global Environment Facility and other important partners. In Cancun, the Ecosystems Pavilion will have a physical 'base' at Cancunmesse, but also has events at other locations, providing a diverse range of opportunities to discuss the linkages between biodiversity, climate change and sustainable land management.

During the course of COP 16/CMP 6, negotiators and other key decision-makers, scientists, and practitioners will be able to discuss the links between forest biodiversity and adaptation and mitigation; the role of oceans; indigenous peoples and communities, water, the role of protected areas, climate change biodiversity loss, desertification and land degradation, and financing. A full programme is available at <http://www.ecosystemspavilion.org/en/cancun>.

Framework Convention
on Climate Change

United Nations Climate Change Conference 2010
COP 16 and CMP 6
Cancun, 29 November – 10 December 2010

Daily Programme

Addendum

**List of speakers for the high-level segment attended by Heads of States
and Heads of Government and other heads of delegation**

The high-level segment will continue on Wednesday, 8 December in Plenary Ceiba. Heads of State and Heads of Government are scheduled to make national statements first, followed by Ministers and Party representatives.

Speakers are asked to check the list of speakers to have an indication of when they will speak, as there may be changes in the order and day of speakers. All speakers are reminded that they should be present in the plenary at least ten minutes before (or two speakers ahead of) their presentation. Speakers are also reminded that statements made during the high-level segment should not exceed the **three-minute limit**, as decided by the Conference of the Parties at its first plenary meeting. Given the large number of statements, it is suggested that statements be as brief and concise as possible, with full texts available for distribution. If Parties do not wish to speak but would prefer to only have their statements circulated, the secretariat will make arrangements to distribute the copies and enter the statement in the records of the Conference. Parties interested in taking up this offer should communicate their interest to the External Relations team, who during the high level segment can be found in Plenary Ceiba. Any other changes to the speakers' list should also be brought to the attention of the External Relations team.

Parties are requested to note that the secretariat is not in a position to accommodate individual requests for changes in a Party's speaking slot. Parties wishing to make a change should arrange to exchange slots with another Party and jointly notify the secretariat of the agreement that has been reached.

The plenary is open for all Parties and Observer States and the proceedings can also be followed on the CCTV screens throughout the Conference Center and on the stage screen at Cancunmesse.

All Parties are kindly requested to provide the Conference Officer with **20 copies of** their statements in advance to meet the needs of the interpreters and the Conference records. Parties wishing to have their statements distributed during the plenary meeting are requested to provide **300 copies**. These copies may be delivered to the Conference Officer's table located beside the podium in the plenary. Statements that are delivered during the high level segment and for which copies are provided to the secretariat, will also be available on the COP 16/CMP 6 website at <unfccc.int/>.

The Daily Programme is available electronically at <unfccc.int/>. Participants are kindly reminded to consult the CCTV monitors for any last-minute changes to the Daily Programme. In order to reduce paper consumption, participants are kindly requested to retain copies of documents throughout the sessions.
