NDC and cooperative approaches

- **Article 6.2 participation : Strategies and Activity Identification**

Country interventions :

- What factors did you base on to develop your national Article 6 strategy/framework?
- Could you please briefly share with us an example (s) of the bilateral cooperation that your country has entered?
- How did you choose the cooperation and the kind of sectors/activities to prioritize for this arrangement?
- Any lessons so far learned in this bilateral cooperation, that you would like to share with Parties especially those that are yet to enter any future cooperation?
