The Conference of the Parties,

Recalling decisions 36/CP.7, 1/CP.16, 23/CP.18, 18/CP.20, 1/CP.21, 21/CP.22, 3/CP.23 and 3/CP.25, 20/CP.26, 24/CP.27, 15/CP.28 [and the Paris Agreement],

Also acknowledging the important role of the enhanced Lima work programme on gender and its gender action plan in advancing gender equality and the empowerment of women and girls in the UNFCCC process, demonstrated by the review by the Subsidiary Body for Implementation,

Recognizing with concern that climate change impacts on women and men can often differ owing to historical and current gender inequalities and multidimensional factors and can be more pronounced in developing countries and for local communities and Indigenous Peoples,

Acknowledging that climate change is a common concern of humankind, Parties should, when taking action to address climate change, respect, promote and consider their respective obligations on human rights, the right to health, the rights of Indigenous Peoples, local communities, migrants, children, persons with disabilities and people in vulnerable situations and the right to development, as well as gender equality, empowerment of women and intergenerational equity,

Taking into account the imperatives of a just transition of the workforce and the creation of decent work and quality jobs in accordance with nationally defined development priorities,

1. *Takes note* of the synthesis report on progress, challenges, gaps and priorities in implementing the gender action plan, and future work to be undertaken on gender and climate change[1] and the summary report on the in-session workshop held at the 60th session of the Subsidiary Body for Implementation (2024) to discuss the synthesis report¹ and *recognizes* the action taken by Parties, UNFCCC constituted bodies, the secretariat and observers to implement the enhanced Lima work programme on gender and its gender action plan;
2. *Also takes note* of the reports on gender composition,² according to which, gender balance was achieved in Party delegations at SB 58 and 60, women's representation in Party delegations to sessions of the governing bodies has remained the same or declined year-on-year since COP 25 and progress in achieving the goal of gender balance in constituted bodies remains inconsistent;
3. *Welcomes* the synthesis report by the secretariat on implementation of gender-responsive climate policies, plans, strategies and action, as reported by Parties in reports and communications under the UNFCCC,³ and the progress reflected therein;
