

Support for NDC: Past and Upcoming

12 Dec. 2018
Katowice, Poland

Myung Kyoon Lee
UNEP DTU Partnership

- Project period: April 2015 to December 2017 in two phases.
- Participating countries
 - Caribbean: Antigua and Barbuda, Dominica
 - Pacific Islands: Fiji, Papua New Guinea
 - Asia: Afghanistan, Cambodia, Maldives, Mongolia, Myanmar, Sri Lanka
 - Central Asia: Moldova, Kyrgyzstan, Turkmenistan
 - Africa: Swaziland, Rwanda, Sao Tome, Guinea Bissau, Zimbabwe, Lesotho, Namibia, Mozambique, Zambia, Niger, Mauritania, Benin, Burundi, Chad, Congo, Eritrea, DR Congo, Senegal

Phase 1: Apr. 2015-Dec. 2015

UNEP-GEF INDC Support project & GSP for INDC preparation

- Objective: to assist participating countries in preparation of INDCs to submit before 1 Oct. 2015.
- Output: supported 36 countries (of which UDP assisted 31), of which 35 countries submitted their INDCs prior to Paris COP.
- Under GSP, 4 additional countries in 2017: Ethiopia, Sierra Leone, Dominican Republic, South Sudan

Activities

- Activity 1: Conducting capacity building workshops for national INDC coordinator and national expert for mitigation and adaptation (May and Jun 2015)
- Activity 2: Developing technical guidance material to enhance primary and secondary stakeholder knowledge on INDC process and contents
- Activity 3: Providing country specific technical support to the national INDC team and experts working on preparing INDC report.

Phase 2: Jan. 2016 – Dec. 2017

- **UNEP-GEF INDC Support project & GSP for INDC preparation**
- **Facilitating Implementation Readiness for Mitigation (Danish Government)**

Objective: facilitating preparation and implementation of NDCs and enhancement of understanding on NDC institutionalization

Activities and Outputs

- Direct support to countries in enhancing understanding of NDC implementation and institutionalization
- Development of guidebooks
 - Steps and processes required to prepare NDC and its implementation plans;
 - Institutionalizing NDC preparation and implementation;
 - MRV of NDC implementation to track progress of NDC implementation and reporting to UNFCCC
- Global/regional workshops to promote south-south dialogues on implementation of NDCs and sharing of experiences.
- Advisory notes for countries to enhance understanding of decisions related to NDCs in the Paris Agreement.

The screenshot shows a web browser window displaying the iNDC Support Portal. The browser's address bar shows the URL <https://indchelpdesk.org/>. The page features a navigation menu with links for WELCOME, ABOUT, QUESTIONS, ASK QUESTION, FAQ, and LOGIN. The main content area has a dark blue background with a blurred image of a laptop and a pen. The text reads "iNDC Support Portal" and "Our experts are available to answer your questions". A prominent orange button labeled "ASK QUESTION" is centered on the page. Below the main content, there is a "Welcome" section with a sub-header and a paragraph of text explaining the portal's purpose. At the bottom right, there is a "Manage Cookies" button and a zoom level indicator set to 100%.

iNDC Support Portal

Our experts are available to answer your questions

[ASK QUESTION](#)

Welcome

This support portal is the place where you can ask questions about the implementation of **Nationally Determined Contributions (NDCs)**. Specialists at **UNEP DTU Partnership**, in collaboration with our partners at the **NDC Support Cluster**, are available to address your inquiries. You are welcome to browse the **frequently asked questions** and to **submit questions**. For further short-term technical assistance to deal with challenges around NDC implementation, you can submit a request to the **help desk** of the NDC Support Cluster.

Manage Cookies 100%

- The INDC help desk is part of the project [Preparation of Intended Nationally Determined Contribution](#),
- The help desk services are offered as a complement to the core support provided within that project, and are accessible to all countries beyond the participating countries in the project.

NDC project under preparation

Objective: Facilitating implementation of climate-resilient and low-carbon development aligned with national and global goals

Project period: early 2019 – early 2023

Expected Outcome: Partner countries are applying a systematic approach to using policies and economic instruments that drives accelerated public and private investment in NDC implementation.

Target Outputs:

- 1: Partner institutions are leading NDC implementation and driving increasingly ambitious NDCs with the engagement and support of relevant national stakeholders
- 2: Relevant actors agree on policies and programmes needed to drive NDC implementation in the priority mitigation and/or adaptation sectors
- 3: Financial institutions at the national, regional, and global levels are motivated to develop investment plans or to make climate investments at the sector or project levels
- 4: Experiences and lessons are shared among partner countries and beyond, creating a foundation for enhanced ambition

Synergies between NDC and other Initiatives
