Report on the technical expert review under Article 6, paragraph 2, of the Paris Agreement of the initial report referred to in chapter IV.A (Initial report) of the annex to decision 2/CMA.3 of Zimbabwe

Summary

This report presents the results of the technical expert review under Article 6, paragraph 2, of the Paris Agreement of the initial report referred to in chapter IV.A (Initial report) of the annex to decision 2/CMA.3 of Zimbabwe, conducted by an Article 6 technical expert review team in accordance with chapter V (Review) of the annex to decision 2/CMA.3, the guidelines for the Article 6 technical expert review, contained in annex II to decision 6/CMA.4, and chapter VII (Process for identifying, notifying and correcting inconsistencies) of decision 4/CMA.6. The review week took place from 8 to 12 December 2025 in Bonn.

This report will be forwarded for consideration in the technical expert review referred to in chapter VII of the annex to decision 18/CMA.1 in accordance with paragraph 28 of the annex to decision 2/CMA.3.

Statement submitted by Zimbabwe on the final report*

Zimbabwe acknowledges the work and efforts of the Article 6 Technical Expert Review Team (TERT) and the Secretariat in the review of our Initial Report. Zimbabwe is fully committed to ensuring the integrity of Article 6 activities and mitigation outcomes and has taken note of the matters raised by the TERT. In pursuit of clarity and understanding, Zimbabwe will update its initial report considering the findings and recommendations of TERT.

* The statement submitted by Zimbabwe is presented verbatim.

Abbreviations and acronyms

Article 6 TER guidelines	“Guidelines for the Article 6 technical expert review referred to in decision 2/CMA.3, annex, chapter V (Review)”
CMA	Conference of the Parties serving as the meeting of the Parties to the Paris Agreement
CO ₂ eq	carbon dioxide equivalent
GHG	greenhouse gas
ITMO	internationally transferred mitigation outcome
LT-LEDS	long-term low-emission development strategy(ies)
NA	not applicable
NDC	nationally determined contribution
TERT	technical expert review team

I. Introduction

A. General information¹

1. This report covers the technical expert review under Article² 6, paragraph 2, of the initial report³ of Zimbabwe. The review was organized by the secretariat and conducted by an Article 6 TERT in accordance with chapter V (Review) of the annex to decision 2/CMA.3, the Article 6 TER guidelines⁴ and chapter VII (Process for identifying, notifying and correcting inconsistencies) of decision 4/CMA.6.

2. This report is to be read in conjunction with its addendum,⁵ an integral part of the report, which contains assessment tables that present the findings and recommendations of the Article 6 TERT relating to the areas it has identified for improvement of the consistency of the information submitted by Zimbabwe with the reporting requirements⁶ as well as the capacity-building needs identified by the Article 6 TERT in consultation with Zimbabwe during the review.

3. A draft version of this report was transmitted to the Government of Zimbabwe, which did not provide any comments.⁷ This report has been made publicly available on the centralized accounting and reporting platform.⁸

4. The centralized review, including the review week that took place from 8 to 12 December 2025 in Bonn, was conducted by the following team of nominated experts from the UNFCCC roster of experts: Anita Barnie (Ghana), Sophie Closson (Belgium), Agustina Cundari (Argentina), El Hadji Mbaye Diagne (Senegal), Gilles Dufrasne (European Union) and Serhii Dykyi (Ukraine). El Hadji Mbaye Diagne and Gilles Dufrasne were the lead reviewers. The review was coordinated by Perumal Arumugam, Baasansuren Jamsranjav, Ayami Kabaya, Daniel Galvan Perez and Yuanyuan Qin (secretariat).

5. Zimbabwe considers itself a developing country Party under the Paris Agreement.

B. Scope of the technical expert review

6. The Article 6 TERT conducted a technical expert review of the information reported in the initial report of Zimbabwe, within the scope of the review as defined in chapter II of the Article 6 TER guidelines and applying the guiding principles set out in paragraph 1 of those guidelines, consisting of:

(a) Reviewing the consistency of the information, including on each cooperative approach under Article 6, paragraph 2, in which the Party is participating, submitted in the initial report with the requirements in paragraph 18 of the annex to decision 2/CMA.3 and, as relevant, with the supplementary elements of information listed in annex I to decision 4/CMA.6⁹ (see chap. II.A below);

(b) Specifying recommended actions to be taken by the Party, including recommendations on how to improve the consistency of the information reported with the requirements in the annex to decision 2/CMA.3, the supplementary elements of information

¹ This section incorporates the introduction, process overview and summary referred to in the report outline set out in annex III to decision 6/CMA.4.

² “Article” in this report refers to an Article of the Paris Agreement.

³ Referred to in decision 2/CMA.3, annex, chap. IV.A (Initial report).

⁴ Contained in decision 6/CMA.4, annex II.

⁵ FCCC/A6/IRTErr.1/2025/ZWE/Add.1.

⁶ Set out in decision 2/CMA.3, annex, para. 18.

⁷ As per para. 21(f) of the Article 6 TER guidelines.

⁸ As per para. 21(h) of the Article 6 TER guidelines; see <https://unfccc.int/process-and-meetings/the-paris-agreement/article-6/article-62/carp/reports>.

⁹ Such supplementary elements, as referred to in this report, are requested, but not required, to be incorporated in the (updated) initial report as per para. 18 of decision 4/CMA.6. The supplementary elements of information to be reported are written in italics in the tables in this report.

listed in annex I to decision 4/CMA.6 and any future relevant decisions of the CMA (see the addendum to this report);

(c) Identifying capacity-building needs in consultation with the Party (see chap. II.B below).¹⁰

7. The Article 6 TERT based its determination of inconsistencies in the information reported with the requirements in the annex to decision 2/CMA.3, including whether they are significant, on the information reported in the originally submitted initial report.

8. Any additional information provided by the Party during the review in accordance with paragraph 21(e) of annex II to decision 6/CMA.4 was reviewed and summarized in relation to the recommended action(s) for the respective reporting requirement, including a recommendation for inclusion in future reporting, if applicable.

C. Information submitted by the Party pursuant to chapter IV.A (Initial report) of the annex to decision 2/CMA.3

9. Zimbabwe submitted its initial report on 7 July 2025, including information on cooperative approach CA0011, “Cicada Clean Cooking Zimbabwe”, in which Zimbabwe is the only participating Party.

D. Inconsistencies determined as significant by the Article 6 technical expert review team

10. The Article 6 TERT assessed the inconsistencies of the information submitted in the initial report with the reporting requirements and has determined that those summarized in table 1 are significant and would have an impact on the emissions balance and/or adjusted indicator.¹¹

Table 1

Summary of significant inconsistencies, as determined by the Article 6 technical expert review team, in the information submitted in Zimbabwe’s initial report with the reporting requirements

<i>Table in this report</i>	<i>ID# for area for improvement^a</i>	<i>Significant inconsistency related to the initial report</i>	<i>Cross-Party inconsistency^b</i>
Table 2: results of the review of the general information	18.A/4.D	Yes	No
Table 3: results of the review of the information on cooperative approach CA0011	18.G.1	Yes	No
Table 3: results of the review of the information on cooperative approach CA0011	18.H.1	Yes	No
Table 3: results of the review of the information on cooperative approach CA0011	18.H.2	Yes	No
Table 3: results of the review of the information on cooperative approach CA0011	18.H.3	Yes	No

^a For further information, see document FCCC/A6/IRTERR.1/2025/ZWE/Add.1.

^b In this column, “No” means that the inconsistency is a single-Party inconsistency in the sense of para. 38 of decision 4/CMA.6. In the context of cooperative approaches with more than one participating Party, “No” therefore means that the inconsistency relates to the reporting participating Party only or that the other participating Parties have not yet submitted corresponding information.

¹⁰ As per paras. 2(a), 5(a) and 7 of the Article 6 TER guidelines.

¹¹ As per decision 4/CMA.6, paras. 41–42(a).

II. Results of the technical expert review¹²

A. Consistency of the submitted information with the reporting requirements and the supplementary elements

11. The Article 6 TERT reviewed the information submitted by Zimbabwe in its initial report and identified areas for improvement of consistency with the reporting requirements and the supplementary elements, which are referenced in tables 2–3. Table 2 summarizes the results of the review of the general information included in Zimbabwe's initial report and table 3 presents the results of the review of the information provided on cooperative approach CA0011.

12. The Article 6 TERT noted that Zimbabwe has provided the most recent national inventory report required in accordance with decision 18/CMA.1 and a biennial transparency report.^{13, 14}

Table 2

Review of the consistency of the general information included in Zimbabwe's initial report with the requirements in paragraph 18(a–f) of the annex to decision 2/CMA.3 and, as relevant, with the supplementary elements of information listed in annex I to decision 4/CMA.6

<i>Requirement in the annex to decision 2/CMA.3</i>	<i>Element of information to be reported^a</i>	<i>ID# for area for improvement identified^b</i>	<i>Significant inconsistency related to the initial report</i>
Demonstrate that the Party fulfils the participation responsibilities referred to in paragraph 4 for participating in a cooperative approach (para. 18(a))	Information demonstrating that:		
	The Party is a Party to the Paris Agreement	No inconsistencies identified	NA
	The Party has prepared, communicated and is maintaining an NDC in accordance with Article 4, paragraph 2	No inconsistencies identified	NA
	The Party has arrangements in place for authorizing the use of ITMOs towards achievement of NDCs pursuant to Article 6, paragraph 3	No inconsistencies identified	NA
	The Party has arrangements in place that are consistent with the guidance in the annex to decision 2/CMA.3 and relevant decisions of the CMA for tracking ITMOs	18.A/4.D	Yes
	The Party has provided the most recent national inventory report required in accordance with decision 18/CMA.1	No inconsistencies identified	NA
Provide a description of the NDC, as referred to in paragraph 64 of the annex to decision 18/CMA.1, where the participating Party has not yet	The Party's participation in any cooperative approach contributes to the implementation of its NDC and LT-LEDS, if it has submitted one, and the long-term goals of the Paris Agreement	18.A/4.F	No
	Target(s) and description, including target type(s)	18.B/64.A	No
	Target year(s) or period(s), and whether they are single-year or multi-year target(s)	18.B/64.B	No

¹² Included in this report as per para. 51 of the Article 6 TER guidelines.

¹³ Available at <https://unfccc.int/first-biennial-transparency-reports>.

¹⁴ See decision 2/CMA.3, annex, paras. 4(e) and 18(b).

<i>Requirement in the annex to decision 2/CMA.3</i>	<i>Element of information to be reported^a</i>	<i>ID# for area for improvement identified^b</i>	<i>Significant inconsistency related to the initial report</i>
submitted a biennial transparency report (para. 18(b))	Reference point(s), level(s), baseline(s), base year(s) or starting point(s), and their respective value(s)	No inconsistencies identified	NA
	Time frame(s) and/or periods for implementation	18.B/64.D	No
	Scope and coverage, including, as relevant, sectors, categories, activities, sources and sinks, pools and gases	18.B/64.E	No
	Intention to use cooperative approaches that involve the use of ITMOs under Article 6 towards NDCs under Article 4	No inconsistencies identified	NA
	Any updates or clarifications of previously reported information	NA	NA
Provide the ITMO metrics, method for applying corresponding adjustments and method for quantification of the NDC (para. 18(c–f))	ITMO metrics	No inconsistencies identified	NA
	Method for applying corresponding adjustments as per chapter III.B (Application of corresponding adjustments) of the annex to decision 2/CMA.3	No inconsistencies identified	NA
	Description of the method for applying corresponding adjustments where the method is a multi-year emissions trajectory, trajectories or budget, if applicable	No inconsistencies identified	NA
	<i>How the method for applying corresponding adjustments aligns with paragraph 7 of the annex to decision 2/CMA.3</i>	No inconsistencies identified	NA
	<i>Methods used for establishing the indicative trajectory, trajectories or budget and the resulting trajectory, trajectories or budget and their relationship to the indicators referred to in paragraph 65 of the annex to decision 18/CMA.1 to which corresponding adjustments will be applied</i>	No inconsistencies identified	NA
	Quantification of the Party's mitigation information in its NDC in t CO ₂ eq, including the sectors, sources, GHGs and time periods covered by the NDC, the reference level of emissions and removals for the relevant year or period, and the target level for its NDC; or, where this is not possible, provision of the methodology for the quantification of the NDC in t CO ₂ eq	No inconsistencies identified	NA
	Quantification of the Party's NDC, or the portion in the relevant non-GHG indicator, in a non-GHG metric determined by each participating Party, if applicable	NA	NA
	For a first or first updated NDC consisting of policies and measures that is not quantified, quantification of the	NA	NA

<i>Requirement in the annex to decision 2/CMA.3</i>	<i>Element of information to be reported^a</i>	<i>ID# for area for improvement identified^b</i>	<i>Significant inconsistency related to the initial report</i>
	Party's emission level resulting from the policies and measures that are relevant to the implementation of the cooperative approach and its mitigation activities for the categories of anthropogenic emissions by sources and removals by sinks as identified by the host Party pursuant to paragraph 10 of the annex to decision 2/CMA.3, and the time periods covered by the NDC		

^a Supplementary elements of information, which are requested but not required to be reported as per para. 18 of decision 4/CMA.6, are written in italics. Where such information was not provided by the Party, this is indicated as such in the next column.

^b For further information, see document FCCC/A6/IR.TERR.1/2025/ZWE/Add.1.

Table 3

Review of the consistency of the information included in Zimbabwe's initial report with the requirements in paragraph 18(g–i) of the annex to decision 2/CMA.3 and, as relevant, with the supplementary elements of information listed in annex I to decision 4/CMA.6 for cooperative approach CA0011, “Cicada Clean Cooking Zimbabwe”

<i>Requirement in the annex to decision 2/CMA.3</i>	<i>Element of information to be reported^a</i>	<i>ID# for area for improvement^b</i>	<i>Significant inconsistency related to the initial report</i>
Provide information on each cooperative approach (para. 18(g))	Copy of the authorization by the participating Party	18.G.1	Yes
	Description of the cooperative approach	No inconsistencies identified	NA
	Duration of the cooperative approach	18.G.3	No
	Expected mitigation for each year of the duration of the cooperative approach	18.G.4	No
	Participating Parties involved in the cooperative approach	No inconsistencies identified	NA
	Authorized entities for the cooperative approach	18.G.6	No
	<i>Description of any arrangements for authorizing using participating Parties and authorized entities, if applicable</i>	No inconsistencies identified	NA
	<i>Type of cooperative approach, if applicable</i>	Not provided	NA
Describe how each cooperative approach ensures environmental integrity (para. 18(h))	How the cooperative approach ensures environmental integrity, including that there is no net increase in global emissions within and between NDC implementation periods	18.H.1	Yes
	<i>How the cooperative approach avoids locking in emission levels, technologies or practices that are inconsistent with achieving the long-term goals of the Paris Agreement</i>	18.H.1/SE.1	No
	<i>How the mitigation outcomes from the cooperative approach are shared between the participating Parties</i>	No inconsistencies identified	NA

<i>Requirement in the annex to decision 2/CMA.3</i>	<i>Element of information to be reported^a</i>	<i>ID# for area for improvement^b</i>	<i>Significant inconsistency related to the initial report</i>
	<i>How it is ensured that decision-making processes in an underlying policy or regulatory framework, and relevant activities, are transparent and inclusive, and whether they include opportunities for public participation and scrutiny, including the standards and procedures for conducting stakeholder consultation, including with civil society organizations, Indigenous Peoples and local communities</i>	18.H.1/SE.3	No
	<i>How participation in the cooperative approach and the combination of all cooperative approaches in which the Party participates contributes to the implementation of the Party's NDC and LT-LEDS, if it has submitted one, and the long-term goals of the Paris Agreement</i>	18.H.1/SE.4	No
	<i>How the cooperative approach ensures environmental integrity, including through robust, transparent governance and the quality of mitigation outcomes, including through conservative reference levels, baselines set in a conservative way and below 'business as usual' emission projections (including by taking into account all existing policies and addressing uncertainties in quantification and potential leakage)</i>	18.H.2	Yes
	<i>How any baseline or reference levels have been established, including how the participating Party has taken into account its NDC and LT-LEDS, if it has submitted one, as well as any relevant climate policies, laws, regulations or targets</i>	18.H.2/SE.1	No
	<i>How baseline and reference levels are established to ensure they are conservative and below 'business as usual' emission projections, and information on what assumptions have been made</i>	No inconsistencies identified	NA
	<i>Methodological approaches used for quantifying the mitigation outcomes derived from the cooperative approach</i>	No inconsistencies identified	NA
	<i>How uncertainties in the quantification of emission reductions and removals are assessed and how such uncertainties are taken into account</i>	Not provided	NA
	<i>How the risk of leakage is assessed, and how leakage is prevented or minimized, and how any remaining</i>	Not provided	NA

<i>Requirement in the annex to decision 2/CMA.3</i>	<i>Element of information to be reported^a</i>	<i>ID# for area for improvement^b</i>	<i>Significant inconsistency related to the initial report</i>
	<i>leakage will be quantified and deducted in the quantification of mitigation outcomes</i>		
	How the cooperative approach ensures environmental integrity, including by minimizing the risk of non-permanence of mitigation across several NDC periods, and how, when reversals of emission reductions or removals occur, the cooperative approach will ensure that these are addressed in full	18.H.3	Yes
	<i>How the risk of non-permanence is assessed under the cooperative approach and minimized across several NDC periods, including the frequency and timing of risk assessments, the methodological approaches used for those assessments, the types of risk identified, the likelihood, scale and potential impacts of such risks, and the time-horizons considered</i>	Not provided	NA
	<i>How reversals are monitored and quantified, and, when they occur, how they are addressed in full, including which methodological approaches are used to address reversals, how the responsibility for addressing reversals is assigned, the duration and frequency of monitoring for reversals, and the measures envisaged in case of failures in monitoring</i>	18.H.3/SE.2	No
Provide additional description of each cooperative approach (para. 18(i))	How the cooperative approach will:		
	Minimize and, where possible, avoid negative environmental, economic and social impacts	No inconsistencies identified	NA
	Reflect the eleventh preambular paragraph of the Paris Agreement, which acknowledges that climate change is a common concern of humankind and notes that Parties should, when taking action to address climate change, respect, promote and consider their respective obligations on human rights, the right to health, the rights of Indigenous Peoples, local communities, migrants, children, persons with disabilities and people in vulnerable situations and the right to development, as well as gender equality, empowerment of women and intergenerational equity	18.I.2	No
	Be consistent with the sustainable development objectives of the	18.I.3	No

<i>Requirement in the annex to decision 2/CMA.3</i>	<i>Element of information to be reported^a</i>	<i>ID# for area for improvement^b</i>	<i>Significant inconsistency related to the initial report</i>
	Party, noting national prerogatives		
	Apply any safeguards and limits set out in further guidance from the CMA pursuant to chapter III.D (Safeguards and limits to the transfer and use of ITMOs) of the annex to decision 2/CMA.3	NA ^c	NA
	Contribute resources for adaptation pursuant to chapter VII (Ambition in mitigation and adaptation actions) of the annex to decision 2/CMA.3, if applicable	18.I.5	No
	Deliver overall mitigation in global emissions pursuant to chapter VII (Ambition in mitigation and adaptation actions) of the annex to decision 2/CMA.3, if applicable	18.I.6	No

^a Supplementary elements of information, which are requested but not required to be reported as per para. 18 of decision 4/CMA.6, are written in italics. Where such information was not provided by the Party, this is indicated as such in the next column.

^b For further information, see document FCCC/A6/IR.TERR.1/2025/ZWE/Add.1.

^c This reporting requirement was not applicable at the time of the review as the CMA has not provided further guidance setting out any safeguards or limits.

B. Capacity-building needs relating to areas for improvement

13. The Article 6 TERT, in consultation with Zimbabwe, identified capacity-building needs (see table 3 in the addendum to this report) related to implementing the guidance contained in the annex to decision 2/CMA.3.

III. Conclusions and recommendations

14. The Article 6 TERT conducted a technical expert review of the information submitted by Zimbabwe in its initial report in accordance with chapter V (Review) of the annex to decision 2/CMA.3, the Article 6 TERT guidelines and chapter VII (Process for identifying, notifying and correcting inconsistencies) of decision 4/CMA.6.

15. The Party reported information on one cooperative approach (see para. 9 above).

16. On the basis of the review of Zimbabwe's initial report, the Article 6 TERT found that the Party reported information in relation to all of the requirements set out in paragraph 18 of the annex to decision 2/CMA.3 and supplementary elements. However, some of the information reported was found to be inconsistent with the requirements (see tables 2–3), and some of these inconsistencies are considered to be significant (see table 1).

17. The areas for improvement of consistency and related recommendations identified by the Article 6 TERT, as well as the capacity-building needs identified during the review in consultation with Zimbabwe, are presented in the assessment tables referred to in paragraph 2 above.
