Revision of the modalities and guidelines for international consultation and analysis

Draft conclusions proposed by the Chair

1. The Subsidiary Body for Implementation (SBI) continued its consideration, as agreed at SBI 48,¹ of the revision of the modalities and procedures for international consultation and analysis (ICA).²
2. The SBI noted that the ICA process has contributed to enhanced transparency of the developing country Parties' mitigation actions and their effects. It welcomed the completion of the first round of ICA for 39 Parties not included in Annex I to the Convention, of which 8 have also completed their second round of ICA.
3. The SBI acknowledged the positive experience with the ICA process and its contribution to the adoption of the modalities, procedures and guidelines for the transparency framework for action and support referred to in Article 13 of the Paris Agreement.³ In this context, the SBI agreed that gaining further experience in the ICA process would be useful.
4. The SBI agreed to continue consideration of this matter at SBI 54 (May–June 2021).
