Dear Colleagues,

You will recall that during the first meeting of the technical dialogue of the first global stocktake (TD1.1), we, the co-facilitators of the technical dialogue of the first global stocktake, had our intention to have a creative space at its second meeting in Sharm El-Sheikh. We are reaching out with this call for inputs for a dedicated creative space for GST1 at the fifty-seventh sessions of the subsidiary bodies.

We encourage Parties to the Paris Agreement and non-Party Stakeholders intending to contribute an input to the creative space of GST1, to take into consideration the guiding questions for the [Information Collection and Preparation](#), as well as the [Technical Assessment](#) components of the GST. As the co-facilitators indicated previously, these creative inputs aim to aim to have people's voices heard. There is no intention to reduce creative inputs to text.

We urge providers of inputs to focus them on scope of the GST as outlined in paragraphs 2 and 6(b) of decision 19/CMA.1.

The inputs to the creative space can consist of, amongst other formats, posters, videos and art.

More information can be found on the global stocktake [webpage](#).

We look forward to receiving your inputs and to your continued participation in the first GST of the Paris Agreement.

Yours sincerely,

(Signed by)

Farhan Akhtar
