12 April 2022

Dear colleagues,

Pursuant to paragraph 3 of decisions 19/CP.26, 7/CMP.16 and 23/CMA.3, we are pleased to inform you that the workshop on workplan activities 3, 4 and 11 of the forum on the impacts of the implementation of response measures is planned to take place in Bonn from 4 to 5 June 2022.

The workshop will provide an opportunity for Parties, observers and experts to reflect views and share experience and best practices in relation to those workplan activities with a view to further advancing their implementation:

**Activity 3** – Facilitate the development, enhancement, customization and use of tools and methodologies for modelling and assessing the impacts of the implementation of response measures, including identifying and reviewing existing tools and approaches in data-poor environments, in consultation with technical experts, practitioners and other relevant stakeholders;

**Activity 4** – Enhance the capacity and understanding of Parties, through collaboration and input from stakeholders, on the assessment and analysis of the impacts of the implementation of response measures to facilitate the undertaking of economic diversification and transformation, and just transition;

**Activity 11** – Facilitate, exchange and share experience and best practices in the assessment of the environmental, social and economic co-benefits of climate change policies and actions informed by the best available science, including the use of existing tools and methodologies.

The discussions will be informed by the work of the KCI. The agenda and further information will be available at the [event webpage](#).

To register for participation in the meeting, the focal points of interested Parties and observer States should forward their request through [the online registration form](#) by **Friday, 29 April 2022**. In view of the need to confirm the arrangements for the meeting as early as possible, please be advised that the secretariat may not be able to process registrations received after this deadline.
