

# Enhanced cooperation and facilitation in relation to non-economic losses

1

Establish an expert group to develop inputs and recommendations to enhance data on and knowledge of reducing the risk of and addressing NELs, including how to factor these into the planning and elaboration of measures to address loss and damage associated with the adverse effects of climate change. The expert group will be established, in the first instance, for a period of two years to execute the activities listed below

2

Develop an awareness-raising strategy and related knowledge products/outreach material/key messages

3

Invite the NELs expert group, in collaboration with the Executive Committee:

**a.** To collect and synthesize information on available tools to assess NELs

**b.** To disseminate or otherwise make available that information, including via the UNFCCC website

## Priority activities for 2019-2021:

4

The NELs expert group to work jointly with the TFD, as appropriate, to develop guidelines for averting, minimizing and addressing NELs in the context of human mobility

5

Foster existing and/or build new partnerships and otherwise cooperate with relevant stakeholders engaged in work on NELs

6

Invite partners to coordinate related capacity-building events at the regional and national levels to identify capacity needs and support, with a view to supporting the efforts of developing countries to assess and address NELs
