Review of the progress, effectiveness and performance of the Adaptation Committee

The COP, at its 22nd session, reviewed the progress and performance of the Adaptation Committee (AC) on the basis of the information contained in the AC's annual reports.

It decided to review the progress, effectiveness and performance of the AC again at COP 27, with a view to adopting an appropriate decision on the outcome of that review. It invited Parties to submit, via the submission portal, no later than three months prior to the 27th session of the COP, their views on the progress, effectiveness and performance of the AC and on the review process, with a view to informing that process.

In the light of the postponement of COP 26 from 2020 to 2021, Parties may wish to recall the decision of the Bureau of the COP, the CMP and the CMA to maintain the original timelines for mandates. The review of the progress, effectiveness and performance of the AC will therefore be conducted in 2021 as planned, pursuant to [decision 5/CP.22](#), paragraphs 11-12.

Parties are invited to submit their views **no later than 3 August 2021**. For details on how to submit please refer to the secretariat [submissions and statements page](#).

Yours sincerely,
