

## Paris Committee on Capacity-Building (PCCB)

### Experience, good practices and lessons learnt related to enhancing the ownership of developing countries of building and maintaining capacity

1. What are examples of lessons learnt and best practices in enhancing country ownership?

Lessons learnt:

The ExCom and its expert groups have, *inter alia*, the following lessons to share in relation to effectively addressing capacity gaps and needs of developing countries to avert, minimize and address loss and damage:

- Ensure that its activities and efforts cater to country-specific needs and are implemented in a demand-driven fashion;
- Build coherence and synergies across ongoing work of relevant bodies and organizations. Avoid duplication of efforts or reinventing the wheel by tapping into existing resources and expertise;
- Ensure that the products or outputs delivered are user-friendly and accessible across a wide range of stakeholders.

2. How can country-ownership of capacity building be ensured and enhanced?

A. Same as above
