Paris Agreement**

## **Matters relating to the global stocktake under the Paris Agreement**

### **Draft conclusions proposed by the Chairs**

1. The Subsidiary Body for Scientific and Technological Advice (SBSTA) and the Subsidiary Body for Implementation (SBI) welcomed the launch at these sessions of the technical dialogue under the global stocktake in line with decision 19/CMA.1.
2. They expressed their appreciation to the co-facilitators of the technical dialogue for their efforts to design an innovative and engaging dialogue and for their effective facilitation, and to the moderators, rapporteurs and participating experts, Parties and non-Party stakeholders for their contributions to and engagement in the dialogue.
3. The SBSTA and the SBI requested the co-facilitators of the technical dialogue to take into account feedback provided by Parties at its first meeting, and by the joint contact group established by the SBSTA and the SBI, when preparing the first summary report and designing the second meeting of the technical dialogue, in order to ensure an inclusive, balanced, comprehensive and focused process that is Party-driven, with the participation of non-Party stakeholders that facilitates the broad participation of Parties and non-Party stakeholders.
4. The SBSTA and the SBI also requested the co-facilitators of the technical dialogue to submit the summary report of the first meeting of the technical dialogue well in advance of the second meeting, and encouraged the co-facilitators to engage with Parties, noting that co-facilitators are similarly encouraged to engage with non-Party stakeholders, after publishing their summary report.
5. The SBSTA and the SBI reiterated the call for inputs referred to in decision 19/CMA.1, paragraph 19, and encouraged Parties and non-Party stakeholders to submit such inputs for consideration at the second meeting of the technical dialogue.
6. The SBSTA and the SBI also encouraged Parties and non-Party stakeholders to hold events, at the local, national, regional and international level, as appropriate, in support of the global stocktake.
