[Draft CMA decision on methodological issues under the Paris Agreement]

The Conference of the Parties serving as the meeting of the Parties to the Paris Agreement,

Recalling Article 13 of the Paris Agreement and decisions 18/CMA.1 and 20/CMA.1 and their annexes,

Also recalling the annexes to decisions 17/CP.8, 2/CP.17, 24/CP.19, 13/CP.20, 9/CP.21 and 6/CP.25, and decision 1/CP.24, paragraphs 39–46,

Further recalling Article 13, paragraph 2, of the Paris Agreement and decision 1/CP.21, paragraph 89,

Recalling the guiding principles referred to in decision 18/CMA.1, annex, paragraph 3,

Also recalling Article 13, paragraphs 14–15, of the Paris Agreement, according to which support shall be provided to developing country Parties for the implementation of Article 13 of the Paris Agreement and also for the building of transparency-related capacity of developing country Parties on a continuous basis,

Further recalling decision 1/CP.24, paragraph 43(a), which states that Parties may submit their national communication and biennial transparency report as a single report in accordance with the annex to decision 18/CMA.1 for information also covered by the national communication reporting guidelines contained in, as applicable, decisions 4/CP.5 and 17/CP.8,

1. Adopts:

   a) The common reporting tables referred to in chapter II of the annex to decision 18/CMA.1 for the electronic reporting of the information in the national inventory reports of anthropogenic emissions by sources and removals by sinks of greenhouse gases, as contained in annex I, [[noting][acknowledging] that annex to decision 18/CMA.1 does not specify the use of sectoral background tables as mandatory, while respecting the principle of ‘no backsliding’ for developed country Parties];

   b) The common tabular formats referred to in chapter III of the annex to decision 18/CMA.1 for the electronic reporting of the information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement, as contained in annex II, [noting that the structured summary may instead be reported in other formats, including in narrative format, as applicable];

   c) The common tabular formats referred to chapters V–VI of the annex to decision 18/CMA.1 for the electronic reporting of the information on financial, technology development and transfer and capacity-building support provided and mobilized, as well as support needed and received, under Articles 9–11 of the Paris Agreement, as contained in annex III;
d) The outlines for the biennial transparency report, national inventory document and technical expert review report pursuant to the annex to decision 18/CMA.1, as contained in annexes IV, V and VI, respectively;
e) The training programme for technical experts participating in the technical expert review of biennial transparency reports, as contained in annex VII;

2. **Decides** that Parties should prepare their national inventory document and biennial transparency report in accordance with the outlines contained in annexes IV and V, respectively;
3. **Decides** that technical expert review teams will follow the technical expert review report outline contained in annex VI;

4. **Option 1:** No text
   **Option 2:** **Decides** that those developing country Parties that need flexibility in the light of their capacities may choose one or more of the following options for operationalizing flexibility in reporting using the common reporting tables and common reporting formats:
   a. Include a functionality in the reporting tools referred to in paragraph 5 below that allows Parties not to display in the common reporting tables or common tabular formats rows, columns and tables that will not contain any data or information;
   b. Include a functionality in the reporting tools referred to in paragraph 5 below that allows Parties to collapse certain rows, columns or tables in the common reporting tables or common tabular formats and show them again for display purposes;
   c. Exercise the option not to display in the common reporting tables or common tabular formats rows, columns and tables that will not contain any data or information;
   d. Use the new notation key “FX” (flexibility) in the common reporting tables or common tabular formats, providing any necessary explanation in the corresponding documentation box;

   **Option 3:** **Decides** that, in addition to the notation keys included in paragraph 31 of the annex to decision 18/CMA.1, those developing country Parties that need flexibility in the light of their capacities with respect to a particular provision in the annex to decision 18/CMA.1, and where so indicated in the common report table or format, may use the new notation key “FX” (flexibility) in the common reporting tables and common reporting formats, providing any necessary explanation in the corresponding documentation box;

5. **Requests** the secretariat to develop reporting tools for the electronic reporting of the common reporting tables and common tabular formats, taking into account the operationalization of the flexibility provisions referred to in paragraph 4 above;

6. **Also requests** the secretariat to develop and make available a test version of the reporting tools by [June 2023], with a view to the final version of the tools being completed by [June 2024], subject to the timely availability of sufficient financial resources;

7. **Further requests** the secretariat, once the test version referred to in paragraph 6 above becomes available, to facilitate an interactive exercise with experts from interested Parties to demonstrate the functions of the reporting tools;

8. **Decides** that, if the final version of the reporting tools is not available within the time frames referred to in paragraph 6 above, Parties may submit the common reporting tables and common tabular formats after 31 December 2024, but no longer than the corresponding delay in the availability of the reporting tools;
9. Requests the secretariat to facilitate interoperability between the reporting tools and the Intergovernmental Panel on Climate Change inventory software;¹

10. Invites the Intergovernmental Panel on Climate Change to engage in the work referred to in paragraph 9 above;

11. Clarifies that the 100-year time-horizon global warming potential values referred to in paragraph 37 of the annex to decision 18/CMA.1 shall be those listed in table 8.A.1 of the Fifth Assessment Report of the Intergovernmental Panel on Climate Change, excluding the value for fossil methane;

12. [Notes that Parties may use the Intergovernmental Panel on Climate Change 2019 Refinement to the 2006 IPCC Guidelines for National Greenhouse Gas Inventories;]

13. Requests [[the secretariat, drawing on technical advice from the [Consultative Group of Experts] [lead reviewers] [Consultative Group of Experts and lead reviewers]][[the secretariat, the Consultative Group of Experts and the lead reviewers][the Consultative Group of Experts, with the assistance of the secretariat], to develop the training programme for technical experts participating in the technical expert review of biennial transparency reports, taking into account experience and lessons learned from developing existing training programmes under the Convention;

14. Also requests the secretariat to implement the training programme for technical experts participating in the technical expert review of biennial transparency reports, taking into account technical advice from the Consultative Group of Experts [and the lead reviewers] to the secretariat on the implementation of training on technical expert reviews;

15. Further requests the secretariat to make the courses of the training programme available [beginning 1 March 2023] [by][September 2023][1 March 2024 at the latest];

16. [Requests the secretariat to prioritize the development of training courses aimed at providing a general overview of the enhanced transparency framework [and addressing the information to be reviewed in accordance with decision 18/CMA.1, annex, paragraph 150] [prior to developing courses on the review of information voluntarily submitted by Parties];

17. Also requests the secretariat to ensure geographical and gender balance among the technical review experts participating in the training programme, to the extent possible, giving special consideration, including in terms of support for participating in the training programme, to experts from the least developed countries and small island developing States;

18. Further requests that developed country Parties, and other countries on a voluntary basis, provide financial resources to enable the secretariat to provide timely and comprehensive training to all Parties on using the common reporting tables and common tabular formats and the corresponding reporting tools;

19. [Acknowledges][Welcomes] the arrangements of the Global Environment Facility for providing financial support to developing country Parties for preparing their first and subsequent biennial transparency reports as requested in decision 18/CMA.1, paragraph 8;²

20. [Requests the Global Environment Facility to provide to the Conference of the Parties to the Paris Agreement at its fourth session

¹ Available at https://www.ipcc-nggip.iges.or.jp/software/index.html.
(November 2022) an estimate of the costs related to support for reporting, capacity-building and system establishment for reporting in developing countries and to consider such needs in its replenishment process as set aside for reporting, while ensuring that these resources do not impact the allocation of resources to developing countries under the System for Transparent Allocation of Resources;]

21. Recognizes that the Capacity-building Initiative for Transparency, established pursuant to decision 1/CP.21, paragraph 84, will continue to support developing country Parties, upon request, in building their institutional and technical capacity post-2020;

22. [Encourages][Requests] the Global Environment Facility to continue to identify ways [to improve the efficiency of the procedure for, and] to enhance the adequacy and effectiveness of, the support provided, including through the Capacity-building Initiative for Transparency, and to [undertake an annual review of [the provision of][adequacy and effectiveness of]][consider the provision of] support to developing country Parties for reporting;

23. Also encourages developing country Parties to prepare and submit project proposals in order to receive financial support from the Global Environment Facility for preparing their biennial transparency reports;

24. [Invites the Paris Committee on Capacity-building and the Technology Executive Committee to provide guidance on which capacity-building and technology transfer activities Parties could report on in their biennial transparency reports on support provided, mobilized, needed and received];

25. [Invites the Consultative Group of Experts to take into account paragraphs 19–24 above in its efforts to support implementation of the enhanced transparency framework in accordance with decision 18/CMA.1, paragraph 15;]

26. [Affirms the deadline for submission of the annual greenhouse gas inventories by developed country Parties as contained in decision 3/CP.1;]

27. Takes note of the estimated budgetary implications of the activities to be undertaken by the secretariat referred to in paragraphs 57, 9, 13 and 14 above;

28. Requests that the actions of the secretariat called for in this decision be undertaken subject to the availability of financial resources.
Annex I

Common reporting tables for the electronic reporting of the information in the national inventory reports of anthropogenic emissions by sources and removals by sinks of greenhouse gases

Note: Agreement on the use of all tables by all Parties is still under consideration.

The common reporting tables for the electronic reporting of the information in the national inventory reports of anthropogenic emissions by sources and removals by sinks of greenhouse gases are available at https://unfccc.int/documents/309894.
Annex II

Common tabular formats for the electronic reporting of the information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement

II.1 Option 1: Common reporting format for a structured summary in accordance with paragraph 77 of annex to decision 18/CMA.1

Examples for the common tabular formats for the structured summary

1. Structured summary: Description of selected indicators

Based on streamlining of table 2, Option 2 and table 3, from the first iteration

<table>
<thead>
<tr>
<th>Indicator(s) selected to track progress</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

Information for the reference point(s), level(s), baseline(s), base year(s) or starting point(s)

Updates in accordance with the GHG inventory, if any

Definitions needed to understand indicator

Relation to NDC

Abbreviations: NDC = nationally determined contributions under Article 4 of the Paris Agreement

Note: The Party could add rows for each additional selected indicator and related information.

a Information shall be provided in narrative and common tabular format, as applicable. {MPGs, p. 79}

b Each Party shall identify the indicator(s) that it has selected to track progress of its NDC. {MPGs, p. 65}

c Party can add rows for each additional selected indicator and related information.

d Indicators shall be relevant to a Party’s NDC and may be either qualitative or quantitative. {MPGs, p. 65} Each Party shall provide any definitions needed to understand its NDC, including those related to each indicator identified in paragraph 65. {MPGs, p. 73}

e Each Party shall describe for each indicator identified how it is related to its NDC {MPGs, p. 76(a)}

</table>

**For each NDC under Article 4**

Accounting for anthropogenic emissions and removals in accordance with methodologies and common metrics assessed by the Intergovernmental Panel on Climate Change (IPCC) and adopted by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement:
Each accounting approach or methodology used to assess the implementation and achievement of the target \(\text{MPGs, p. 74(a)}\)

Each accounting approach or methodology used to construct any baseline \(\text{MPGs, p. 74(b)}\)

If the accounting approach or methodology used for the indicator(s) in Table 1 differ from those used to assess the implementation and achievement of the target, describe each accounting approach or methodology used to generate the information generated for each indicator in Table (implementation and achievement) \(\text{MPGs, p. 74(c)}\)

Any conditions and assumptions relevant to the achievement of the NDC under Article 4 \(\text{MPGs, p. 75(i)}\)

Key parameters, assumptions, definitions, data sources and models used \(\text{MPGs, p. 75(a)}\)

IPCC Guidelines used \(\text{MPGs, p. 75(b)}\)

Report the metrics used \(\text{MPGs, p. 75(c)}\)

For Parties whose NDC cannot be accounted for using methodologies covered by IPCC guidelines, provide information on their own methodology used, including for NDC pursuant to Article 4, paragraph 6, of the Paris Agreement, if applicable \(\text{Annex II decision 4/CMA.1 p. 1(b)}\)

Provide information on methodologies used to track progress arising from the implementation of policies and measures, as appropriate \(\text{Annex II decision 4/CMA.1 p. 1(d)}\)

For Parties that addresses emissions and subsequent removals from natural disturbances on managed lands, provide detailed information on the approach used and how it is consistent with relevant IPCC guidance, as appropriate, or indicate the relevant section of the national greenhouse gas inventory report containing that information \(\text{Annex II decision 4/CMA.1 p. 1(e)}\)

For Parties that account for emissions and removals from harvested wood products, provide detailed information on which IPCC approach has been used to estimate emissions and removals \(\text{Annex II decision 4/CMA.1 p. 1(f)}\)
For Parties that address the effects of age-class structure in forests, provide detailed information on the approach used and how this is consistent with relevant IPCC guidance, as appropriate {Annex II decision 4/CMA.1 p. 1(g)}

How the Party has drawn on existing methods and guidance established under the Convention and its related legal instruments, as appropriate, if applicable {Annex II decision 4/CMA.1 p. 1(c)}

Any methodologies used to account for mitigation co-benefits of adaptation actions and/or economic diversification plans {MPGs, p. 75(a)}

Describe how double counting of net GHG emission reductions has been avoided, including in accordance with guidance developed related to Article 6 if relevant {MPGs, p. 76(d)}

Any other methodologies related to the NDC under Article 4 {MPGs, p. 75(b)}

Ensuring methodological consistency, including on baselines, between the communication and implementation of NDCs: {Decision 4/CMA.1 p. 12(b)}

Explain how consistency has been maintained in in scope and coverage, definitions, data sources, metrics, assumptions and methodological approaches including on baselines, between the communication and implementation of nationally determined contributions {Annex II decision 4/CMA.1 p. 2(a)}

Explain how consistency has been maintained between any greenhouse gas data and estimation methodologies used for accounting and the Party’s greenhouse gas inventory, pursuant to Article 13, paragraph 7(a), of the Paris Agreement, if applicable {Annex II decision 4/CMA.1 p. 2(b)} and explain methodological inconsistencies with the Party’s most recent national inventory report, if applicable (p. 76(c))

For Parties that apply technical changes to update reference points, reference levels or projections, the changes should reflect either of the following: {Annex II decision 4/CMA.1 p. 2(d)}

Technical changes related to technical corrections to the Party’s inventory {Annex II decision 4/CMA.1 p. 2(d)(i)}

Technical changes related to improvements in accuracy that maintain methodological
SBSTA 52-55 – Agenda item 14

consistency [Annex II decision 4/CMA.1 p. 2(d)(ii)]

Explain how any methodological changes and technical updates made during the implementation of their NDC were transparently reported. [Annex II decision 4/CMA.1 p. 2(e)]

Striving to include all categories of anthropogenic emissions or removals in the nationally determined contribution and, once a source, sink or activity is included, continuing to include it:

Explain how all categories of anthropogenic emissions and removals corresponding to their NDC were accounted for [Annex II decision 4/CMA.1 p. 3(a)]

Explain how Party is striving to include all categories of anthropogenic emissions and removals in their NDC, and, once a source, sink or activity is included, continue to include it [Annex II decision 4/CMA.1 p. 3(b)]

Provide an explanation of why any categories of anthropogenic emissions or removals are excluded [Annex II decision 4/CMA.1 p. 4]

Each Party that participates in cooperative approaches that involve the use of internationally transferred mitigation outcomes towards an NDC under Article 4, or authorizes the use of mitigation outcomes for international mitigation purposes other than achievement of its NDC

Provide information on any methodologies associated with any cooperative approaches that involve the use of internationally transferred mitigation outcomes towards an NDC under Article 4 [MPGs, p. 75(f)]

Provide information on how each cooperative approach promotes sustainable development, consistent with decisions adopted by the CMA on Article 6 [MPGs, p. 77(d)(iv)]

Provide information on how each cooperative approach ensures environmental integrity consistent with decisions adopted by the CMA on Article 6 [MPGs, p. 77(d)(iv)]

Provide information on how each cooperative approach ensures transparency, including in governance, consistent with decisions adopted by the CMA on Article 6 [MPGs, p. 77(d)(iv)]

Provide information on how each cooperative approach applies robust accounting to ensure
inter alia the avoidance of double counting, consistent with decisions adopted by the CMA on Article 6 {MPGs, p. 77(d)(iv)}

Any other information consistent with decisions adopted by the CMA on reporting under Article 6 {MPGs, p. 77(d)(iii)}

Abbreviations: NDC = nationally determined contributions under Article 4 of the Paris Agreement

- Information shall be provided in a narrative and common tabular format, as applicable. {MPGs, p. 79}
- For the first NDC under Article 4, each Party shall clearly indicate and report its accounting approach, including how it is consistent with Article 4, paragraphs 13 and 14, of the Paris Agreement. {MPGs, p. 71}
- For the second and subsequent NDC under Article 4, each Party shall provide information referred to in chapter III.B and C above consistent with decision 4/CMA.1. Each Party shall clearly indicate how its reporting is consistent with decision 4/CMA.1. {MPGs, p. 72} Each Party may choose to provide information on accounting of its first NDC consistent with decision 4/CMA.1. {MPGs, p. 71}

II.2 Structured summary is reported by using a combination of different formats, such as tabular, graphical and/or textual, as applicable for Parties.

Examples of general template and presentation of information for a structured summary for tracking progress of NDC in a narrative format.

Definitions needed to understand NDC (MPGs para 73).

This could be done in bullet points or list format for each definition.

Information on methodologies and accounting approaches

- For the first NDC: Party indicates accounting approaches, for second and subsequent NDCs: Party include information referred to in MPGs chapter III.B and C, in addition to indicating how its reporting consistent with decision 6/CMA.1 (MPGs para 71 and 72).
- (MPGs para 74) Description of each methodology and/or accounting approach used, as applicable for:
  - Target(s):
  - Party can provide a brief description complemented with reference to relevant section of BTR and/or visual tools, as needed
  - Construction of baselines:
  - Party can provide a brief description complemented with reference to relevant section of BTR and/or visual tools, as needed
  - Each indicator:
  - Party can provide a brief description complemented with reference to relevant section of BTR and/or visual tools, as needed

As applicable, Party shall include information from (MPGs para 75) for each of the bullets above.

Progress made in implementing and achieving NDCs:

Each Party shall identify the indicator(s) that it has selected to track progress towards the implementation and achievement of its NDC under Article 4. Indicators shall be relevant to a Party's NDC under Article 4, and may be either qualitative or quantitative. (MPGs para 65)

The information in the box below is provided for each of the selected indicators: (MPGs para 77(a))

Indicator (4): Party self determines qualitative or quantitative indicator. Party shall provide definition of the indicators (MPGs para. 73) and description (MPGs para. 75).

- (MPGs para. 77(a) (i) and para. 67) Party selects one of the following options suitable to its NDC: reference point(s), level(s), baseline(s), base year(s), or starting point(s), and provides the respective information on the selected option.

- (MPGs para. 77(a) (ii) and para. 68) Party provides information for previous reporting years during the implementation period of its NDC under Article 4. Party can provide a brief description and refer to the relevant section in the BTR, and complement it with figures, graphs, charts, tables, or any other self-determined visual tool.

- (MPGs para. 77(a) (iii) and para. 68) Party provides the most recent information of the selected indicator for each reporting year during the implementation period of its NDC under Article 4. Party can provide a brief description and refer to the relevant section in the BTR, and complement it with figures, graphs, charts, or any other self-determined visual tool. Party could also choose to provide the most recent information with previous reporting years to show progress. In this section, Party can provide comparison of the most recent information with its NDC reference point(s), level(s), baseline(s), base year(s), or starting point(s) in accordance with MPGs para. 69.

- (MPGs para. 77(b)) Where applicable, Party provides information on GHG emissions and removals consistent with the coverage of its NDC under Article 4. Party provides this information only in the BTR that has information on achievement of the NDC. Party can provide a brief description and refer to the relevant section in the BTR, and complement it with figures, graphs, charts, or any other self-determined visual tool. In this section, Party could provide assessment if it achieved its NDC (MPGs para. 70).

- (MPGs para. 77(c)) As applicable, Party provides information on the contribution from the LULUCF sector for each year of the target period or target year. If not included in the inventory time series of total net GHG emissions and removals, Party can provide a brief description and refer to the relevant section in the BTR, and complement it with figures, graphs, charts, or any other self-determined visual tool.

Place holders for 77 (d)
Narrative structured summary – example 1:

Indicator A: percentage reduction of CO₂ intensity (para 65)

Accounting approach (para 74):

\[ y_{CO₂} = \left[ \frac{I_{hast} - I_{current}}{I_{hast}} \right] = \left[ \frac{E_{hast}}{GDP_{hast}} \right] - \left[ \frac{E_{current}}{GDP_{current}} \right] \]

\[ y_{CO₂} : \text{percentage reduction of CO₂ intensity (para 75)} \]

\[ I : \text{CO₂ intensity (para 75)} \]

\[ E : \text{CO₂ emissions (in t) (para 75)} \]

\[ GDP : \text{Gross domestic product (in 2005 USD) (para 75)} \]

All parameters are the same as that in NDC description. (para 76)

Reference level (para 67): 2005: 100%

Most recent information (para 68): By 2024, the CO₂ emissions per unit of GDP dropped by 50% as against 2005, XX percentage point to be achieved comparing with NDC (para 69).

Narrative structured summary – example 2:

Indicator B: percentage of renewable energy use (para 63)

Accounting approach (para 74):

\[ y_{RE} = \frac{C_{RE}}{C_{TRE}} \]

\[ y_{RE} : \text{percentage of renewable energy use (para 75)} \]

\[ C_{RE} : \text{consumption of renewable energy use in text (para 75)} \]

\[ C_{TRE} : \text{consumption of total energy use in text (para 75)} \]

All parameters are the same as that in NDC description. (para 76)

Reference level (para 67): NA

Most recent information (para 68): By 2024, the percentage of renewable energy use is 16.5%, XX percentage point to be achieved comparing with NDC (para 69).

Information shall be provided, to the extent possible (para. 82(a–i) of MPGs) [This cell is for information purposes and will be deleted when final version of this table is prepared]

Information shall be provided, to the extent possible. Those developing country Parties that need flexibility in the light of their capacities are encouraged to report such information (para. 85 of MPGs) [This cell is for information purposes and will be deleted when final version of this table is prepared]

Option 1: Years
Option 2: Reporting year
End year/period of NDC

---

[a] Each Party shall provide information on actions, policies and measures that support the implementation and achievement of its NDC under Article 4 of the Paris Agreement, focusing on those that have the most significant impact on GHG emissions or removals and those impacting key categories in the national GHG inventory. This information shall be presented in narrative and tabular format. [MPGs, p. 80]

[b] For each Party with an NDC under Article 4 of the Paris Agreement that consists of mitigation co-benefits resulting from Parties’ adaptation actions and/or economic diversification plans consistent with Article 4, paragraph 7, information to be reported under paragraphs 80, 82 and 83 of the MPGs includes relevant information on policies and measures contributing to mitigation co-benefits resulting from adaptation actions or economic diversification plans. [MPGs, p. 84]

[c] Parties should indicate whether a measure is included in the ‘with measures’ projections. [No relevant provision in the MPGs; noted as request by some Parties]

[d] Additional information may also be provided on the cost of the mitigation actions, non-GHG mitigation benefits, and how the mitigation action interacts with other mitigation actions, as appropriate. [MPGs, p. 83(a)-(c)]

[e] Parties should identify actions, policies and measures that influence GHG emissions from international transport. [MPGs, p. 88]

[f] Parties should, to the extent possible, provide information about how actions, policies and measures are modifying longer-term trends in GHG emissions and removals. [MPGs, p. 89]

[g] Parties shall, to the extent possible, provide information on the types of instrument: regulatory, economic instrument or other. [MPGs, p. 82(d)]
The following descriptive terms shall be used to report on the status, to the extent possible: planned, adopted or implemented. \{MPGs, p. 82(e)\}

Parties shall, to the extent possible, provide information on sector(s) affected: energy, transport, industrial processes and product use, agriculture, LULUCF, waste management or other. \{MPGs, p. 81, 82(f)\}

Each Party shall provide, to the extent possible, estimates of expected and achieved GHG emission reductions for its actions, policies and measures in the tabular format; those developing country Parties that need flexibility in the light of their capacities with respect to this provision are instead encouraged to report this information. \{MPGs, p. 85\}

To the extent available, each Party shall describe the methodologies and assumptions used to estimate the GHG emission reductions or removals due to each action, policy and measure. This information may be presented in an annex to the biennial transparency report. \{MPGs, p. 86\}

\[^{4}\text{Years deemed relevant by the Party in relation to implementation and achievement of its nationally determined contribution, including the end year of the NDC. \{no relevant provision in the MPGs; this is CFs proposal\}}\]

**Custom footnotes:**

**Documentation box:**
x. Summary of greenhouse gas emissions and removals

According to paragraph 91 of the MPGs, Each Party that submits a stand-alone national inventory report shall provide a summary of its GHG emissions and removals. This information shall be provided for those reporting years corresponding to the Party’s most recent national inventory report, in a tabular format.

In their Informal note from June session, the co-facilitators noted that development of the common tabular format for the summary on greenhouse gas emissions and removals should be informed by the outcome of the discussion under the SBSTA agenda sub-item on common reporting tables for the electronic reporting of the information in the national inventory reports of anthropogenic greenhouse gas emissions by sources and removals by sinks.

In this regard, the Co-facilitators are of the view that the CRT Table 10 Emission trends – Summary could be used as table that could accommodate the provision of paragraph 91 of the MPGs. Once agreed upon, this table will follow the order of numbering of the entire set of CTFs presented in this Annex.

\(^{g}\) Contribution to technology development and transfer objectives, Contribution to capacity-building objectives

\(^{h}\) Status of activity

\(^{i}\) Use, impact and results
Developing country Parties should provide, in a common tabular format, information on financial support received, to the extent possible, and as available and as applicable.

Parties should include information on support received, ongoing or planned since the previous biennial transparency report.

Please provide the underlying assumptions, definitions and methodologies, as applicable, used to identify and/or report this reporting parameter in the respective section of the BTR.

If “other”, Parties should specify this information.

This refers to funding for activities that have both mitigation and adaptation components.

\(^a\) Developing country Parties should provide, in a common tabular format, summary information on support received for implementing Article 13 and transparency-related activities, including for transparency-related capacity-building, to the extent possible and as applicable.

\(^b\) Parties should include information on support received, ongoing or planned since the previous biennial transparency report.
Please provide the underlying assumptions, definitions and methodologies, as applicable, used to identify and/or report this reporting parameter in the respective section of the BTR.

If "other", Parties should specify this information.

*Custom Footnotes*
Parties were unable to agree on the following elements listed below:

**Type of support**
- Whether to include “other” as a category under type of support;
- Whether to include loss and damage as a category under type of support across all tables or only in tables on needs.

**Use of documentation boxes**
- Use of documentation box for the provision of information on underlying assumptions, definitions and methodologies used for reporting information related to parameters
- Reflect information on the provision of information on underlying assumptions, definitions and methodologies used for reporting information related to parameters in the narrative reporting of the biennial transparency report.
- Provide the [link to][page number of] the section in the BTR report with the relevant information on underlying assumptions, definitions and methodologies.
- For the software tool to provide a pop-up window of relevant information on underlying assumptions, definitions and methodologies linked to relevant parameters

**Summary tables**
- A software interface allows custom aggregation of information contained in the tables, without need of summary table;
- Summary tables for financial information on support provided, mobilized, needed and received automatically populated with summary information on amounts, type of support, [financial instruments], [sectors]. [progression from previous levels on the provision and mobilization of finance]
- Total amount rows for information on amounts [by status] [by financial instruments]
Annex IV

Draft outline of the biennial transparency report, pursuant to the modalities, procedures and guidelines for the transparency framework for action and support referred to in Article 13 of the Paris Agreement (annex to decision 18/CMA.1)

Overview chapter

I. National inventory report of anthropogenic emissions by sources and removals by sinks of greenhouse gases (paras. 17–58, annex to decision 18/CMA.1)

II. Information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement (paras. 59–103, annex to decision 18/CMA.1)

A. National circumstances and institutional arrangements (paras. 59–63, annex to decision 18/CMA.1)

B. Description of a Party’s nationally determined contribution under Article 4 of the Paris Agreement, including updates (para. 64, annex to decision 18/CMA.1)

C. Information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement (paras. 65–79, annex to decision 18/CMA.1)

D. Mitigation policies and measures, actions and plans, including those with mitigation co-benefits resulting from adaptation actions and economic diversification plans, related to implementing and achieving a nationally determined contribution under Article 4 of the Paris Agreement (paras. 80–90, annex to decision 18/CMA.1)

E. Summary of greenhouse gas emissions and removals (para. 91, annex to decision 18/CMA.1)

F. Projections of greenhouse gas emissions and removals, as applicable (paras. 92–102, annex to decision 18/CMA.1)

G. Other information (para. 103, annex to decision 18/CMA.1)

---

1 Including common reporting tables [or information in narrative format] and an outline pursuant to the annex to decision 18/CMA.1, and the national inventory document.

2 The applicable flexibility provisions for those developing country Parties that need them in the light of their capacities are set out in paras. 25, 29, 32, 34–35, 48 and 57–58 of the annex to decision 18/CMA.1.

3 Including common tabular formats [or information in narrative format] and an outline pursuant to the annex to decision 18/CMA.1.

4 The applicable flexibility provisions for those developing country Parties that need them in the light of their capacities are set out in paras. 85, 92, 95 and 102 of the annex to decision 18/CMA.1.

5 Pursuant to para. 77(d) of the annex to decision 18/CMA.1, such information is subject to relevant decisions adopted by the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement on Article 6 of the Paris Agreement.

6 This only applies to Parties that submit a stand-alone national inventory report.

7 Those developing countries that need flexibility in the light of their capacities are encouraged to report these projections.
III. Information related to climate change impacts and adaptation under Article 7 of the Paris Agreement

A. National circumstances, institutional arrangements and legal frameworks (para. 106, annex to decision 18/CMA.1)

B. Impacts, risks and vulnerabilities, as appropriate (para. 107, annex to decision 18/CMA.1)

C. Adaptation priorities and barriers (para. 108, annex to decision 18/CMA.1)

D. Adaptation strategies, policies, plans, goals and actions to integrate adaptation into national policies and strategies (para. 109, annex to decision 18/CMA.1)

E. Progress on implementation of adaptation (paras. 110–111, annex to decision 18/CMA.1)

F. Monitoring and evaluation of adaptation actions and processes (paras. 112–114, annex to decision 18/CMA.1)

G. Information related to averting, minimizing and addressing loss and damage associated with climate change impacts (para. 115, annex to decision 18/CMA.1)

H. Cooperation, good practices, experience and lessons learned (para. 116, annex to decision 18/CMA.1)

I. Any other information related to climate change impacts and adaptation under Article 7 of the Paris Agreement (para. 117, annex to decision 18/CMA.1)

IV. Information on financial, technology development and transfer and capacity-building support provided and mobilized under Articles 9–11 of the Paris Agreement

A. National circumstances and institutional arrangements (paras. 119–120, annex to decision 18/CMA.1)

B. Underlying assumptions, definitions and methodologies (paras. 121–122, annex to decision 18/CMA.1)

C. Information on financial support provided and mobilized under Article 9 of the Paris Agreement (paras. 123–125, annex to decision 18/CMA.1)

D. Information on support for technology development and transfer provided under Article 10 of the Paris Agreement (paras. 126–127, annex to decision 18/CMA.1)

E. Information on capacity-building support provided under Article 11 of the Paris Agreement (paras. 128–129, annex to decision 18/CMA.1)

---

8 Information relevant to this section is outlined in paras. 13–14 of the annex to decision 18/CMA.1, as applicable.

9 This information can also include clarification on the linkages between information related to climate change impacts and adaptation under Article 7 of the Paris Agreement reported in the biennial transparency report and that reported in the (optional) adaptation communication, if submitted.

10 Including CTF tables [or information in narrative format] and an outline pursuant to the annex to decision 18/CMA.1.
V. **Information on financial, technology development and transfer and capacity-building support needed and received under Articles 9–11 of the Paris Agreement**\(^{11}\)

A. National circumstances, institutional arrangements and country-driven strategies (para. 130, annex to decision 18/CMA.1)

B. Underlying assumptions, definitions and methodologies (para. 131, annex to decision 18/CMA.1)

C. Information on financial support needed by developing country Parties under Article 9 of the Paris Agreement (paras. 132–133, annex to decision 18/CMA.1)

D. Information on financial support received by developing country Parties under Article 9 of the Paris Agreement (para. 134, annex to decision 18/CMA.1)

E. Information on technology development and transfer support needed by developing country Parties under Article 10 of the Paris Agreement (paras. 135–136, annex to decision 18/CMA.1)

F. Information on technology development and transfer support received by developing country Parties under Article 10 of the Paris Agreement (paras. 137–138, annex to decision 18/CMA.1)

G. Information on capacity-building support needed by developing country Parties under Article 11 of the Paris Agreement (paras. 139–140, annex to decision 18/CMA.1)

H. Information on capacity-building support received by developing country Parties under Article 11 of the Paris Agreement (paras. 141–142, annex to decision 18/CMA.1)

I. Information on support needed and received by developing country Parties for the implementation of Article 13 of the Paris Agreement and transparency-related activities, including for transparency-related capacity-building (paras. 143–145, annex to decision 18/CMA.1)

VI. **[Required support for developing country Parties]**

A. [Support for implementation]

B. [Support for capacity-building]

VII. **Information to be reported when national communications and biennial transparency reports are submitted jointly every four years**\(^{12}\)

A. Vulnerability assessment, climate change impacts and adaptation measures\(^{13}\)

B. Research and systematic observation

C. Education, training and public awareness

---

\(^{11}\) Including CTF tables [or information in narrative format] and an outline pursuant to the annex to decision 18/CMA.1.

\(^{12}\) As per decision 1/CP.24, para. 43.

\(^{13}\) This section is not necessary if relevant information is reported in section IV of the BTR.
VIII. Information on flexibility\textsuperscript{14} \[a separate chapter of the biennial transparency report\] \[integrated into the relevant chapters of the biennial transparency report\] \[a combination of methods\] \[a table\] can be included to summarize the use of flexibility provisions \[with further clarity in the biennial transparency report\]

A. Indication of (1) reporting provisions to which self-determined flexibility is applied, (2) capacity constraints in relation to the application of flexibility and (3) self-determined estimated time frames for improvements in relation to those capacity constraints (para. 6, annex to decision 18/CMA.1)

IX. Improvements in reporting over time \[as a separate chapter\] \[integrated\] \[combined\] \[into the chapter on flexibility\] \[overview chapter\]

A. Areas of improvement identified by the Party and technical expert review team in relation to Party’s implementation of Article 13 of the Paris Agreement (para. 7(a), annex to decision 18/CMA.1)

B. How the Party is addressing or intends to address areas of improvement as referred to in paragraph 7(a) of the annex to decision 18/CMA.1 (para. 7(b), annex to decision 18/CMA.1)

C. Areas of improvement that are related to the flexibility provisions used\textsuperscript{15} (para. 7(c), annex to decision 18/CMA.1)

D. Reporting-related capacity-building support needs identified, including those referred to in chapter VI above and any progress made, including those previously identified as part of the technical expert review in chapter VII of the annex to decision 18/CMA.1 (para. 7(d), annex to decision 18/CMA.1)

E. Parties’ domestic plans and priorities with regard to improved reporting pursuant to paragraph 7 of the annex to decision 18/CMA.1 are not subject to technical expert review, but the information may inform discussions on areas of improvement and identification of capacity-building needs between the technical expert review team and the Party concerned (para. 8, annex to decision 18/CMA.1)

X. Any other information the Party considers relevant to the achievement of the objective of the Paris Agreement, and suitable for inclusion in its biennial transparency report

Annexes for tabular format as outlined in the annex to decision 18/CMA.1

A. Technical annexes for REDD\textsuperscript{+},\textsuperscript{16} as applicable

B. Common reporting tables for the electronic reporting of the national inventory report of anthropogenic emissions by sources and removals by sinks of greenhouse gases

C. Common tabular formats for the electronic reporting of:

---

\textsuperscript{14} Applicable only to developing country Parties that need flexibility in the light of their capacities.

\textsuperscript{15} Those developing country Parties that need flexibility in the light of their capacities are encouraged to highlight the areas of improvement that are related to their flexibility provisions.

\textsuperscript{16} Reducing emissions from deforestation; reducing emissions from forest degradation; conservation of forest carbon stocks; sustainable management of forests; and enhancement of forest carbon stocks (decision 1/CP.16, para. 70).
1. Information necessary to track progress in implementing and achieving nationally
determined contributions under Article 4 of the Paris Agreement

2. Information on financial, technology development and transfer, and capacity-
building support provided and mobilized under Articles 9–11 of the Paris
Agreement

3. Information on financial, technology development and transfer, and capacity-
building support needed and received under Articles 9–11 of the Paris Agreement

---

17 To be guided by the outcome of SBSTA 52–55 agenda item 15, “Matters relating to Article 6 of
the Paris Agreement”.
Annex V

Draft outline of the national inventory document, pursuant to the modalities, procedures and guidelines for the transparency framework for action and support referred to in Article 13 of the Paris Agreement

EXECUTIVE SUMMARY

ES.1. Background information on GHG inventories and climate change (e.g. as it pertains to the national context)

ES.2. Summary of trends related to national emissions and removals

ES.3. Overview of source and sink category emission estimates and trends

ES.4. Other information (e.g. indirect GHGs, precursor gases)

ES.5. Key category analysis (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 25, annex to decision 18/CMA.1)

ES.6. Improvements introduced (related to a non-mandatory provision as per para. 7, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 7(c), annex to decision 18/CMA.1)

Chapter 1: National circumstances, institutional arrangements and cross-cutting information

1.1. Background information on GHG inventories and climate change (e.g. as it pertains to the national context, to provide information to the general public)

1.2. A description of national circumstances and institutional arrangements

  1.2.1. National entity or national focal point

  1.2.2. Inventory preparation process

  1.2.3. Archiving of information

  1.2.4. Processes for official consideration and approval of inventory

1.3. Brief general description of methodologies (including tiers used) and data sources used

1.4. Brief description of key categories (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 25, annex to decision 18/CMA.1)

1.5. Brief general description of QA/QC plan and implementation (related to non-mandatory provisions as per para. 35, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per paras. 34–35, annex to decision 18/CMA.1)

1.6. General uncertainty assessment, including data pertaining to the overall uncertainty of inventory totals (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 29, annex to decision 18/CMA.1)

1.7. General assessment of completeness (related to a non-mandatory provision as per para. 30, annex to decision 18/CMA.1, with flexibility provided to those developing
country Parties that need it in the light of their capacities as per para. 32, annex to decision 18/CMA.1)

[1.7.1. Information on completeness (including information on non-reported categories or any methodological or data gaps in the inventory) (related to a non-mandatory provision as per para. 30, annex to decision 18/CMA.1)

1.7.2. Description of insignificant categories, if applicable (related to a non-mandatory provision as per para. 32, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 32, annex to decision 18/CMA.1)

1.7.3. Total aggregate emissions considered insignificant, if applicable (related to a non-mandatory provision as per para. 32, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 32, annex to decision 18/CMA.1)]

1.8. Metrics (related to a non-mandatory provision as per para. 37, annex to decision 18/CMA.1)

[1.9. Summary of any flexibility applied (i.e. by developing country Parties that need it in the light of their capacities as per paras. 4–6, annex to decision 18/CMA.1)]

Chapter 2: Trends in greenhouse gas emissions and removals

2.1. Description of emission and removal trends for aggregated GHG emissions and removals

2.2. Description of emission and removal trends by sector and by gas

[Chapter 3: Energy (CRT sector [1])1

3.1. Overview of the sector (e.g. quantitative overview and description, including trends and methodological tiers by category) and background information

3.2. Fuel combustion (CRT [1.A]), including detailed information on:

[3.2.1. Comparison of the sectoral approach with the reference approach (related to a non-mandatory provision as per para. 36, annex to decision 18/CMA.1)]

3.2.2. International bunker fuels (related to a non-mandatory provision as per para. 53, annex to decision 18/CMA.1)

3.2.3. Feedstocks and non-energy use of fuels (related to a non-mandatory provision as per para. 54, annex to decision 18/CMA.1)

3.2.4. Category (CRT category number)

3.2.4.1. Category description (e.g. characteristics of sources)

3.2.4.2. Methodological issues (e.g. choice of methods/activity data/emission factors and activity data and emission factors used, assumptions, parameters and conventions underlying the emission estimates and the rationale for their selection, information on carbon dioxide capture, any specific methodological issues (e.g. description of national methods and models))

1 Parties may elect to use the disaggregated outline presented below or the generic, less detailed sector outline presented for other sectors.
3.2.4.3. Description of any flexibility applied (i.e. by those developing
country Parties that need flexibility in the light of their capacities as per
paras. 4–6, annex to decision 18/CMA.1)

3.2.4.4. Uncertainty assessment and time-series consistency (flexibility
provided to those developing country Parties that need it in the light of their
capacities as per para. 29, annex to decision 18/CMA.1)

3.2.4.5. Category-specific QA/QC and verification, if applicable (related to
non-mandatory provisions as per para. 35, annex to decision 18/CMA.1,
with flexibility provided to those developing country Parties that need it in
the light of their capacities as per paras. 34–35, annex to decision
18/CMA.1)

3.2.4.6. Category-specific recalculations, if applicable, including
explanatory information and justifications for recalculations, changes made
in response to the review process and impacts on emission trends

3.2.4.7. Category-specific planned improvements, if applicable (e.g.
methodologies, activity data, emission factors), including tracking of those
identified in the review process (related to a non-mandatory provision as
per para. 7, annex to decision 18/CMA.1, with flexibility provided to those
developing country Parties that need it in the light of their capacities as per
para. 7(c), annex to decision 18/CMA.1)

3.3. Fugitive emissions from solid fuels and oil and natural gas and other emissions from
energy production (CRT [1.B])

3.3.1. Category (CRT category number)

3.3.1.1. Category description (e.g. characteristics of sources)

3.3.1.2. Methodological issues (e.g. choice of methods/activity
data/emission factors and activity data and emission factors used,
assumptions, parameters and conventions underlying the emission
estimates and the rationale for their selection, any specific methodological
issues (e.g. description of national methods and models))

3.3.1.3. Description of any flexibility applied (i.e. by those developing
country Parties that need flexibility in the light of their capacities as per
paras. 4–6, annex to decision 18/CMA.1)

3.3.1.4. Uncertainty assessment and time-series consistency (flexibility
provided to those developing country Parties that need it in the light of their
capacities as per para. 29, annex to decision 18/CMA.1)

3.3.1.5. Category-specific QA/QC and verification, if applicable (related to
non-mandatory provisions as per para. 35, annex to decision 18/CMA.1,
with flexibility provided to those developing country Parties that need it in
the light of their capacities as per paras. 34–35, annex to decision
18/CMA.1)

3.3.1.6. Category-specific recalculations, if applicable, including
explanatory information and justifications for recalculations, changes made
in response to the review process and impacts on emission trends
3.3.1.7. Category-specific planned improvements, if applicable (e.g. methodologies, activity data, emission factors), including tracking of those identified in the review process (related to a non-mandatory provision as per para. 7, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 7(c), annex to decision 18/CMA.1)

3.4. Carbon dioxide transport and storage (CRT [1.C])

3.4.1. Category (CRT category number)

3.4.1. Category description (e.g. characteristics of sources)

3.4.1.2. Methodological issues (e.g. choice of methods/activity data/emission factors and activity data and emission factors used, assumptions, parameters and conventions underlying the emission estimates and the rationale for their selection, any specific methodological issues (e.g. description of national methods and models))

3.4.1.3. Description of any flexibility applied (i.e. by those developing country Parties that need flexibility in the light of their capacities as per paras. 4–6, annex to decision 18/CMA.1)

3.4.1.4. Uncertainty assessment and time-series consistency (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 29, annex to decision 18/CMA.1)

3.4.1.5. Category-specific QA/QC and verification, if applicable (related to non-mandatory provisions as per para. 35, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per paras. 34–35, annex to decision 18/CMA.1)

3.4.1.6. Category-specific recalculations, if applicable, including explanatory information and justifications for recalculations, changes made in response to the review process and impacts on emission trends

3.4.1.7. Category-specific planned improvements, if applicable (e.g. methodologies, activity data, emission factors), including tracking of those identified in the review process (related to a non-mandatory provision as per para. 7, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 7(c), annex to decision 18/CMA.1)]

Chapter 4: Industrial processes and product use (CRT sector [2])

4.1. Overview of the sector (e.g. quantitative overview and description, including trends and methodological tiers by category) and background information

4.2. Category (CRT category number)

4.2.1. Category description (e.g. characteristics of sources)

4.2.2. Methodological issues (e.g. choice of methods/activity data/emission factors and activity data and emission factors used, assumptions, parameters and conventions underlying the emission estimates and the rationale for their selection, information on carbon dioxide capture, any specific methodological issues (e.g. description of national
4.2.3. Description of any flexibility applied (i.e. by developing country Parties that need flexibility in the light of their capacities as per paras. 4–6, annex to decision 18/CMA.1)

4.2.4. Uncertainty assessment and time-series consistency (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 29, annex to decision 18/CMA.1)

4.2.5. Category-specific QA/QC and verification, if applicable (related to non-mandatory provisions as per para. 35, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per paras. 34–35, annex to decision 18/CMA.1)

4.2.6. Category-specific recalculation, if applicable, including explanatory information and justifications for recalculation, changes made in response to the review process and impacts on emission trends

4.2.7. Category-specific planned improvements, if applicable (e.g. methodologies, activity data, emission factors), including tracking of those identified in the review process (related to a non-mandatory provision as per para. 7, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 7(c), annex to decision 18/CMA.1)

Chapter 5: Agriculture (CRT sector [3])

5.1. Overview of the sector (e.g. quantitative overview and description, including trends and methodological tiers by category) and background information

5.2. Category (CRT category number)

5.2.1. Category description (e.g. characteristics of sources)

5.2.2. Methodological issues (e.g. choice of methods/activity data/emission factors and activity data and emission factors used, assumptions, parameters and conventions underlying the emission and removal estimates and the rationale for their selection, any specific methodological issues (e.g. description of national methods and models))

5.2.3. Description of any flexibility applied (i.e. by those developing country Parties that need flexibility in the light of their capacities as per paras. 4–6, annex to decision 18/CMA.1)

5.2.4. Uncertainty assessment and time-series consistency (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 29, annex to decision 18/CMA.1)

5.2.5. Category-specific QA/QC and verification, if applicable (related to a non-mandatory provision as per para. 35, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per paras. 34–35, annex to decision 18/CMA.1)

5.2.6. Category-specific recalculation, if applicable, including explanatory information and justifications for recalculation, changes made in response to the review process and impacts on emission trends

5.2.7. Category-specific planned improvements, if applicable (e.g. methodologies, activity data, emission factors), including tracking of those identified in the review process (related to a non-mandatory provision as per para. 7, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in
Chapter 6: Land use, land-use change and forestry (CRT sector [4])

6.1. Overview of the sector (e.g. quantitative overview and description, including trends and methodological tiers by category, and coverage of pools) and background information

6.2. Land-use definitions and the land representation approach(es) used and their correspondence to the land use, land-use change and forestry categories (e.g. land use and land-use change matrix)

6.3. Country-specific approaches

6.3.1. Information on approaches used for representing land areas and on land-use databases used for the inventory preparation

6.3.2. Information on approaches used for natural disturbances, if applicable

6.3.3. Information on approaches used for reporting HWP

6.4. Category (CRT category number)

6.4.1. Description (e.g. characteristics of category)

6.4.2. Methodological issues (e.g. choice of methods/activity data/emission factors and activity data and emission factors used, assumptions, parameters and conventions underlying the emission and removal estimates and the rationale for their selection, any specific methodological issues (e.g. description of national methods and models))

6.4.3. Uncertainty assessment and time-series consistency (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 29, annex to decision 18/CMA.1)

6.4.4. Description of any flexibility applied (i.e. by developing country Parties that need flexibility in the light of their capacities as per paras. 4–6, annex to decision 18/CMA.1)

6.4.5. Category-specific QA/QC and verification, if applicable (related to a non-mandatory provision as per para. 35, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per paras. 34–35, annex to decision 18/CMA.1)

6.4.6. Category-specific recalculations, if applicable, including explanatory information and justifications for recalculations, changes made in response to the review process and impacts on emission trends

6.4.7. Category-specific planned improvements, if applicable (e.g. methodologies, activity data, emission factors), including those in response to the review process (related to a non-mandatory provision as per para. 7, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 7(c), annex to decision 18/CMA.1)

Chapter 7: Waste (CRT sector [5])

7.1. Overview of the sector (e.g. quantitative overview and description, including trends and methodological tiers by category) and background information

7.2. Category (CRT category number)

7.2.1. Category description (e.g. characteristics of sources)

7.2.2. Methodological issues (e.g. choice of methods/activity data/emission factors
and activity data and emission factors used, assumptions, parameters and conventions
underlying the emission estimates and the rationale for their selection, any specific
methodological issues (e.g. description of national methods and models))

7.2.3. Uncertainty assessment and time-series consistency (flexibility provided to
those developing country Parties that need it in the light of their capacities as per para.
29, annex to decision 18/CMA.1)

7.2.4. Description of any flexibility applied (i.e. by developing country Parties that
need flexibility in the light of their capacities as per paras. 4–6, annex to decision
18/CMA.1)

7.2.5. Category-specific QA/QC and verification, if applicable (related to a non-
mandatory provision as per para. 35, annex to decision 18/CMA.1, with flexibility
provided to those developing country Parties that need it in the light of their capacities as
per paras. 34–35, annex to decision 18/CMA.1)

7.2.6. Category-specific recalculations, if applicable, including explanatory
information and justifications for recalculations, changes made in response to the review
process

7.2.7. Category-specific planned improvements, if applicable (e.g. methodologies,
activity data, emission factors), including those in response to the review process (related
to a non-mandatory provision as per para. 7, annex to decision 18/CMA.1, with flexibility
provided to those developing country Parties that need it in the light of their capacities as
per para. 7(c), annex to decision 18/CMA.1)

Chapter 8: Other (CRT sector [6]) (if applicable)

Chapter 9: Indirect carbon dioxide and nitrous oxide emissions (related to non-
mandatory provisions as per para. 52, annex to decision 18/CMA.1)

9.1. Description of sources of indirect emissions in the GHG inventory

9.2. Methodological issues (e.g. choice of methods/activity data/emission factors and
activity data and emission factors used, assumptions, parameters and conventions
underlying the emission estimates and the rationale for their selection, any specific
methodological issues (e.g. description of national methods and models))

9.3. Uncertainty assessment and time-series consistency (flexibility provided to those
developing country Parties that need it in the light of their capacities as per para. 29, annex
to decision 18/CMA.1)

9.4. Category-specific QA/QC and verification, if applicable (related to a non-mandatory
provision as per para. 35, annex to decision 18/CMA.1, with flexibility provided to those
developing country Parties that need it in the light of their capacities as per paras. 34–35,
annex to decision 18/CMA.1)

9.5. Category-specific recalculations, if applicable, including explanatory information
and justifications for recalculations, changes made in response to the review process and
impacts on emission trends

9.6. Category-specific planned improvements, if applicable (e.g. methodologies, activity
data, emission factors), including tracking of those identified in the review process
(related to a non-mandatory provision as per para. 7, annex to decision 18/CMA.1, with
flexibility provided to those developing country Parties that need it in the light of their
capacities as per para. 7(c), annex to decision 18/CMA.1)
Chapter 10: Recalculations and improvements

10.1. Explanations and justifications for recalculations, including in response to the review process

10.2. Implications for emission and removal levels

10.3. Implications for emission and removal trends, including time-series consistency

10.4. Areas of improvement and/or capacity-building in response to the review process (related to non-mandatory provisions as per para. 7(a) and (d), annex to decision 18/CMA.1)

10.5. Areas of improvement and/or capacity-building related to the flexibility provisions applied with self-determined estimated time frames for improvements (related to non-mandatory provisions as per para. 7(c–d), annex to decision 18/CMA.1)

Annexes to the national inventory document

[Annex 1: Key categories (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 25, annex to decision 18/CMA.1)]

- Description of the approach used for identifying key categories, if different from the IPCC tier 1 approach
- Information on the level of disaggregation
- Tables 4.2–4.3 of volume 1 of the 2006 IPCC Guidelines, including and excluding land use, land-use change and forestry]

Annex 2: Uncertainty assessment (flexibility provided to those developing country Parties that need it in the light of their capacities as per para. 29, annex to decision 18/CMA.1)

- Description of methodology used for identifying uncertainties
- Table 3.3 of volume 1 of the 2006 IPCC Guidelines

[Annex 3: Detailed description of the reference approach (including inputs to the reference approach such as the national energy balance) and the results of the comparison of national estimates of emissions with those obtained using the reference approach (related to a non-mandatory provision as per para. 36, annex to decision 18/CMA.1)]

Annex 4: QA/QC plan (related to a non-mandatory provision as per para. 35, annex to decision 18/CMA.1, with flexibility provided to those developing country Parties that need it in the light of their capacities as per paras. 34–35, annex to decision 18/CMA.1)

Annex 5: Any additional information, as applicable, including detailed methodological descriptions of source or sink categories and the national emission balance

Annex 6: Common reporting tables

Annex VI

Draft outline of the technical expert review report, pursuant to the modalities, procedures and guidelines for the transparency framework for action and support referred to in Article 13 of the Paris Agreement

I. Abbreviations and acronyms

II. Introduction and summary
   A. Introduction
   B. Scope
   C. Summary

III. Technical review of the information reported (para. 187, annex to decision 18/CMA.1)

   A. A review of the consistency of the information submitted by the Party under Article 13, paragraphs 7 and 9, of the Paris Agreement with the annex to decision 18/CMA.1, taking into account the flexibility accorded to the Party under Article 13, paragraph 2, of the Paris Agreement (para. 146(a), annex to decision 18/CMA.1)

   1. National inventory of anthropogenic emissions by sources and removals by sinks of greenhouse gases (para. 150(a), annex to decision 18/CMA.1)

   2. Information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement (para. 150(b), annex to decision 18/CMA.1)

   3. Information on financial, technology development and transfer and capacity-building support provided under Articles 9–11 of the Paris Agreement (para. 150(c), annex to decision 18/CMA.1)

   B. Consideration of the Party’s implementation and achievement of its nationally determined contribution under Article 4 of the Paris Agreement (para. 146(b), annex to decision 18/CMA.1)

   C. Consideration of the Party’s support provided, as relevant (para. 146(c), annex to decision 18/CMA.1)

   D. Identification of areas of improvement for the Party related to implementation of Article 13 of the Paris Agreement (para. 146(d), annex to decision 18/CMA.1)

   E. [A review of information relating to the support needs of a developing country Party to implement Article 13 of the Paris Agreement and for building the transparency-related capacity]

   F. For those developing country Parties that need it in the light of their capacities, assistance in identifying capacity-building needs (para. 146(e), annex to decision 18/CMA.1)

---

1 Information submitted by other Parties that provide support, as referred to in Article 9, para. 2, of the Paris Agreement, may undergo a technical expert review at the Party’s discretion.
G. [A review, on a voluntary basis, of the information reported in the biennial transparency report related to climate change impacts and adaptation under Article 7 of the Paris Agreement, including information related to averting, minimizing and addressing loss and damage associated with climate change impacts]

H. A placeholder detailing possible linkages with information relating to Article 6 of the Paris Agreement²

IV. Conclusions and recommendations³

Annex I

Documents and information used during the review

---

² To be guided by the outcome of SBSTA 52–55 agenda item 15, “Matters relating to Article 6 of the Paris Agreement”.

³ As per para. 22(b) of the annex to decision 20/CMA.1, the committee referred to in Article 15 of the Paris Agreement may, with the consent of the Party concerned, engage in a facilitative consideration of issues in cases of significant and persistent inconsistencies of the information submitted by a Party pursuant to Article 13, paragraphs 7 and 9, of the Paris Agreement with the modalities, procedures and guidelines referred to in Article 13, paragraph 13, of the Paris Agreement. This consideration will be based on the recommendations made in the final technical expert review reports, prepared under Article 13, paragraphs 11 and 12, of the Agreement, together with any written comments provided by the Party during the review. [The definition of the cases of significant and persistent inconsistencies of the information submitted by a Party would be decided by the Committee and therefore the technical expert review team and the secretariat shall be guided on future decisions by the Committee in this regard and not preclude this definition.]
Annex VII

Training programme for technical experts participating in the technical expert review of biennial transparency reports

A. General

1. The aim of the courses forming part of the training programme is to train technical experts participating in the technical expert review under the enhanced transparency framework of the Paris Agreement.

2. The courses incorporate the corresponding provisions in the annex to decision 18/CMA.1 relating to flexibility.

B. Availability

3. The training programme will be available to experts included on the UNFCCC roster of experts.

4. All courses will be available online all year round, with an option to download them.

C. Examinations

5. All courses will have an examination.

6. Examination procedures will be standardized, objective and transparent.

7. Examinations will take place online or in person during in-person seminars. In all other circumstances, other arrangements for examinations will be made, provided that the examinations take place under the supervision of the secretariat.

8. Technical experts who have already participated in the training programme(s) and related technical reviews under the measurement, reporting and verification arrangements under the Convention will only be required to pass [an examination[s] for:

   Option 1: The course on general and cross-cutting aspects for the technical expert review under the enhanced transparency framework of the Paris Agreement;

   Option 2:

   (a) The course on general and cross-cutting aspects for the technical expert review under the enhanced transparency framework of the Paris Agreement;

   (b) XXX…

9. Technical experts who fail an examination for a course on their first attempt will be allowed [two] [XX] further attempts to pass the examination, provided that all course-related tasks have been fulfilled.

D. Instructed courses

10. Once a year, online training courses facilitated by instructor(s) will be available. In-person training seminars will also be available. Additional regional training seminars targeted at technical experts from developing country Parties, particularly the least developed countries and small island developing States, [may][will] be organized.

E. Courses of the training programme

11. The following courses relating to the following information specified in paragraph 150 of the annex to decision 18/CMA.1 will be developed:
(a) General and cross-cutting aspects for the technical expert review under the enhanced transparency framework of the Paris Agreement (this course should take into account, inter alia, para. 149 of the annex to decision 18/CMA.1);

(b) Technical review of national inventory reports of anthropogenic emissions by sources and removals by sinks of greenhouse gases:
   
   (i) General guidance and cross-cutting issues;
   
   (ii) Courses pertaining to the greenhouse gas inventory sectors referred to in the annex to decision 18/CMA.1:
      
      a. Energy;
      
      b. Industrial processes and product use;
      
      c. Agriculture;
      
      d. Land use, land-use change and forestry;
      
      e. Waste;

(c) Technical review of the information necessary to track progress made in implementing and achieving nationally determined contributions under Article 4 of the Paris Agreement;

   Option 1: Including the information necessary to track progress on the implementation and achievement of the domestic policies and measures implemented to address the social and economic consequences of response measures for nationally determined contributions that consist of adaptation actions and/or economic diversification plans resulting in mitigation co-benefits (placeholder for elements related to Article 6 of the Paris Agreement);

   Option 2: Including the information necessary to track progress on the implementation and achievement of the domestic policies and measures implemented to address the social and economic consequences of response measures for nationally determined contributions that consist of adaptation actions and/or economic diversification plans resulting in mitigation co-benefits, and also including elements related to Article 6 of the Paris Agreement;

(d) Technical review of the information on financial, technology development and transfer and capacity-building support provided to developing country Parties under Articles 9–11 of the Paris Agreement.

12. Option 1: The following courses on thematic topics covering other areas of information included in biennial transparency reports [that may be voluntarily reviewed] will be developed:

   (a) [Information related to climate change impacts and adaptation under Article 7 of the Paris Agreement, including information related to averting, minimizing and addressing loss and damage associated with climate change impacts;]

   (b) [Information on financial, technology development and transfer and capacity-building support needed and received under Articles 9–11 of the Paris Agreement;]

   (c) [Information on financial, technology development and transfer and capacity-building support mobilized under Articles 9–11 of the Paris Agreement;]

   (d) [REDD+.1]

   Option 2: No paragraph 12.

---

1 Reducing emissions from deforestation; reducing emissions from forest degradation; conservation of forest carbon stocks; sustainable management of forests; and enhancement of forest carbon stocks (decision 1/CP.16, para. 70).
Option 1: Training for lead reviewers on the functions specified in paragraphs 183–185 of the annex to decision 18/CMA.1 will be offered.

Option 2: No paragraph 13.
