

SBSTA 52–55 agenda sub-item 14(a)
Methodological issues under the Paris Agreement
Common reporting tables for the electronic reporting of the information in the national inventory reports of anthropogenic emissions by sources and removals by sinks of greenhouse gases

Version 4/11/2021 06:51

Note: This document has been prepared by the co-facilitators of the informal consultations on this agenda sub-item under their own responsibility. The draft is preliminary, not exhaustive and should not be considered final in any way.

1. The annex contains the second iteration of the example common reporting tables for the electronic reporting of the information in the national inventory reports of anthropogenic emissions by sources and removals by sinks of greenhouse gases.
2. The tables in the annex are based on the feedback and submissions received from Parties before, during and after the second informal consultations on this matter, held on 3 November 2021.
3. The information contained in the annex will be included as an annex to the draft decision on this matter that the SBSTA will forward for consideration and adoption at CMA 3.

Annex

Common reporting tables for the electronic reporting of the information in the national inventory reports of anthropogenic emissions by sources and removals by sinks of greenhouse gases

The latest common reporting tables for the electronic reporting of the information in the national inventory reports of anthropogenic emissions by sources and removals by sinks of greenhouse gases are available at
