## **Report on the simplified review of the national inventory report of Belarus submitted in 2025**

### *Summary*

This report presents the results of the simplified review of the 2025 national inventory report of Belarus, conducted by the secretariat in accordance with the modalities, procedures and guidelines for the transparency framework for action and support referred to in Article 13 of the Paris Agreement.

## Abbreviations and acronyms

C <sub>2</sub> F <sub>6</sub>	hexafluoroethane
C <sub>3</sub> F <sub>8</sub>	octafluoropropane
C <sub>4</sub> F <sub>10</sub>	perfluorobutane
C <sub>5</sub> F <sub>12</sub>	perfluoropentane
C <sub>6</sub> F <sub>14</sub>	perfluorohexane
C <sub>10</sub> F <sub>18</sub>	perfluorodecalin
c-C <sub>3</sub> F <sub>6</sub>	perfluorocyclopropane
c-C <sub>4</sub> F <sub>8</sub>	perfluorocyclobutane
CF <sub>4</sub>	tetrafluoromethane
CH <sub>4</sub>	methane
CO <sub>2</sub>	carbon dioxide
CO <sub>2</sub> eq	carbon dioxide equivalent
CRT	common reporting table
FX	flexibility
GHG	greenhouse gas
HFC	hydrofluorocarbon
HWP	harvested wood products
IE	included elsewhere
IEF	implied emission factor
LULUCF	land use, land-use change and forestry
MPGs	modalities, procedures and guidelines for the transparency framework for action and support referred to in Article 13 of the Paris Agreement
N	nitrogen
N <sub>2</sub> O	nitrous oxide
NA	not applicable
NE	not estimated
NF <sub>3</sub>	nitrogen trifluoride
NIR	national inventory report
NO	not occurring
PFC	perfluorocarbon
SF <sub>6</sub>	sulfur hexafluoride

## I. Introduction

1. This report covers the simplified review of the NIR of Belarus submitted in 2025. The review was conducted by the secretariat in accordance with the MPG<sup>s</sup>,<sup>1</sup> particularly chapter VII thereof, and the simplified review procedures.<sup>2</sup>
2. On 26 May 2025 a draft version of this report was transmitted to the Government of Belarus,<sup>3</sup> which did not provide any comments on individual findings or any general comments on the report.
3. The secretariat conducted the simplified review of Belarus's NIR, which involved an initial assessment of completeness and consistency with the MPG<sup>s</sup>.<sup>4</sup>
4. The findings of the initial assessment, presented in the annex, are the result of automated checks and do not necessarily indicate issues of completeness or consistency of the Party's reporting with the MPG<sup>s</sup>.
5. This report, including the findings listed in the annex and any comments provided by the Party (see para. 2 above), will be made available to and considered by the technical expert review team as part of the subsequent technical expert review of Belarus's NIR.<sup>5</sup>

## II. Initial assessment of completeness and consistency with the modalities, procedures and guidelines

### A. Summary of findings

6. The table below provides a summary of the findings of the initial assessment by the secretariat. Tables I.1–I.7 list the findings and include detailed information on each one.

#### Summary of the initial assessment

<i>Area of review</i>	<i>Description</i>	<i>Assessment</i>
Dates of submission	2025 submission: CRTs, 30 April 2025  2024 submission: CRTs, 30 December 2024	
Recalculations	Recalculations that have changed estimated total GHG emissions or removals (excluding LULUCF) by more than 2 per cent for categories or subcategories above the threshold of significance ( <b>43.57 kt CO<sub>2</sub> eq</b> for 2023) <sup>a</sup>  Recalculations for 1990 (the reference year for the Party's nationally determined contribution) and 2022 since the previous submission	No findings for this area
Completeness	Detection of notation key "NE", or of missing gases or sectors in CRT 10 emission trends summary	See table I.2
Notation keys	Changes in notation keys reported for 1990 and 2022 since the previous submission	See table I.3
Sectoral and reference approaches	Difference in estimated energy consumption or CO <sub>2</sub> emissions, by fuel type, of more than 5 per cent between the reference and sectoral approaches for the latest reported year (2023)	See table I.4
Time-series consistency	The time series of emissions is assessed by calculating inter-annual changes for each category and gas and converting them to CO <sub>2</sub> eq. Inter-annual changes exceeding the significance threshold are evaluated using the z-score method, <sup>b</sup> where outliers	See table I.5

<sup>1</sup> Decision 18/CMA.1, annex.

<sup>2</sup> Contained in paras. 15–19 of the conclusions and recommendations from the 2023 joint meeting of lead reviewers, available at <https://unfccc.int/documents/627213>.

<sup>3</sup> As per para. 163 of the MPG<sup>s</sup>.

<sup>4</sup> As per para. 155 of the MPG<sup>s</sup>.

<sup>5</sup> As per para. 155 of the MPG<sup>s</sup>.

<i>Area of review</i>	<i>Description</i>	<i>Assessment</i>
	are identified as values exceeding a z-score of 3, based on the statistical distribution of the full time series	
IEFs	Comparison of IEFs reported for any significant subcategories under key categories with the range of IEFs reported by developed country Parties for the latest inventory year (2023) in their 2025 submission <sup>c</sup>	See table I.6
Key categories	New key categories identified since the previous submission for level (latest year) and trend	See table I.7
Previous areas of improvement	Status of implementation of previous areas of improvement identified in the latest report on the technical expert review of the Party's biennial transparency report	NA <sup>d</sup>

<sup>a</sup> Threshold calculated by the secretariat as 0.05 per cent of the national total GHG emissions for 2023, excluding LULUCF, or 500 kt CO<sub>2</sub> eq, whichever is lower (see para. 32 of the MPG).

<sup>b</sup> Statistical measure that indicates how many standard deviations a data point is from the mean.

<sup>c</sup> Range defined by the median plus or minus two times the standard deviation, calculated from all available data points per category.

<sup>d</sup> As at the time of publication of this report, information on status of implementation of previous areas of improvement was not yet available.

## B. Comments of the Party on the initial assessment

7. The Party did not provide any general comments.

## Annex

### Findings of the initial assessment of Belarus's 2025 national inventory report

Tables I.1–I.7 detail the findings of the initial assessment by the secretariat of the Party's NIR.
