

## Task force on displacement: plan of action for 2019–2021 with progress updates on implementation

The activities in this plan build on the activities under strategic workstream (d) of the five-year rolling workplan of the Executive Committee of the Warsaw International Mechanism for Loss and Damage associated with Climate Change Impacts and the recommendations contained in the annex to decision 10/CP.24.

	Activity	Expected result(s)	Possible approach(es) to implementation/ potential modalities	Indicative time frame for implementation	Lead/co-leads	Status as reported to date (31 August 2021)
1.	Make available a user-friendly version of the summary documents from the mapping exercises of the TFD in its first phase	Increased visibility and awareness of displacement in the context of climate change and of the outputs of the TFD in its first phase	Publication based on the summaries of the mapping exercises	Completed	Executive Committee TFD members	The summary documents <a href="#">published</a> on the UNFCCC website
2.	Prepare TFD factsheets providing an annual overview of global disaster displacement: gender-disaggregated data, analysis by region, livelihood and income group, and hazard context	Enhanced understanding of the scale of displacement in the context of climate change	TFD factsheet	Annual publication (dates to be confirmed)	Advisory Group Civil Society Organisations (IDMC)/PDD	The following work is underway: <ul style="list-style-type: none"> <li>a. The global disaster displacement data for 2020 validated (IDMC &amp; PDD) which provides basis for the development of factsheets later in the year. All updated figures – including disaggregated estimates by age and gender and updated cost estimates – will be presented in the Global Report on Internal Displacement, to be launched on 20 May 2021 (IDMC).</li> <li>b. The development of a guidance note is underway, that analyses how vulnerable states can integrate migration dimensions in their project development process for GCF (IOM).</li> </ul>

3.	Prepare a user-friendly knowledge product on nexus situations (climate change/disaster and conflict/ violence)	Enhanced understanding of the relationship between the impacts of climate change and conflicts on displacement	User-friendly knowledge product(s)	In 2020/2021	UNHCR, IDMC	<p>Joint UNHCR and IOM study: “Bridging A Divide: Internal Displacement, Disaster Risk Reduction and Other Laws, Policies, Institutions and Coordination” through the lens of five case studies in Afghanistan, Colombia, Niger, Philippines and Somalia is available at <a href="https://environmentalmigration.iom.int/bridging-divide-approaches-conflict-and-disaster-displacement-norms-institutions-and-coordination">https://environmentalmigration.iom.int/bridging-divide-approaches-conflict-and-disaster-displacement-norms-institutions-and-coordination</a>.</p> <p>Analysis and new data on nexus situations presented in user- friendly manner in September 2020 (global mid-year updates: <a href="https://www.internal-displacement.org/mid-year-figures">https://www.internal-displacement.org/mid-year-figures</a> ) and in March 2021 (for the MENA region: <a href="https://story.internal-displacement.org/mena-2021/index.html">https://story.internal-displacement.org/mena-2021/index.html</a>) (IDMC).</p>
4.	Prepare a user-friendly knowledge product on displacement related to climate change in the context of slow onset events	Enhanced evidence base for policy options for averting, minimizing and addressing displacement in the context of slow onset disaster and climate change	User-friendly knowledge product(s)	Completed	IDMC	<p>The following products/outputs have been finalized:</p> <ol style="list-style-type: none"> <li>a. Reports from country studies on drought and climate change-related displacement in four countries- Ethiopia, Iraq, Niger and Somalia- have been published. A user-friendly knowledge product with summary of findings was produced: <a href="https://www.internal-displacement.org/features/beyond-drought-niger-ethiopia-somalia-iraq-displacement">https://www.internal-displacement.org/features/beyond-drought-niger-ethiopia-somalia-iraq-displacement</a>.</li> <li>b. Though significantly challenged by COVID-19 a consultation process started to assess the scale and dynamics of displacement in the context of sea level rise and increased urban disaster risk in the Pacific. It is in the form of a user-friendly framework for the transfer of lessons under different contexts.</li> </ol>

TFD Plan of Action 2019-2021

5.	Prepare a technical briefing on approaches to averting, minimizing and addressing loss and damage in relation to disaster displacement	Enhanced understanding of and knowledge on approaches to averting, minimizing and addressing loss and damage in relation to disaster displacement	Development and dissemination of a technical briefing paper	In 2022	PDD	Preparation of a technical briefing paper on loss and damage approaches to disaster displacement is included in a project on Action and Support to Avert, Minimize and Address Displacement related to the Adverse Effects of Climate Change, to be funded by the Norwegian Agency for Development Cooperation (NORAD) 2022-2025. Subject to final confirmation of funding, the activity will be completed in 2022.
6.	Compile selected good practice case studies and lessons learned from relevant projects/programmes that have integrated climate-related mobility for the purpose of improving the design of project proposals and access to funding	<p>Enhanced understanding of Parties of how to integrate climate-related mobility into relevant project/programme design, including for green economy</p> <p>Enhanced understanding of Parties and donors/the GCF of accessing support for climate change programmes with a focus on averting, minimizing and addressing displacement</p>	Compilation of case studies (e.g. factsheet), made widely available	In 2021	IFRC/ILO/IOM/ UNHCR	<p><b>The following products/outputs have been finalized:</b></p> <ol style="list-style-type: none"> <li>a. A new compilation of selected good practice case studies and lessons learned entitled <b>“Responding to Disasters and Displacement in a Changing Climate: Asia Pacific National Societies in Action”</b> has now been released and is available here. The compilation focuses on the activities and initiatives of National Red Cross and Red Crescent Societies to address climate and disaster related displacement across the Asia Pacific, including Afghanistan, Bangladesh, Fiji, Vanuatu, Mongolia, Nepal, Philippines and Indonesia. The Asia Pacific case studies address the challenges of COVID-19 on humanitarian response in Vanuatu and Fiji (IFRC).</li> <li>b. A Policy brief on Future of Work for Climate Resilience in the Pacific Islands. Brief can be found <a href="#">here</a> (ILO).</li> <li>c. Phase I of a research project with the IGAD secretariat on the links between climate, displacement and employment (ILO). The report is finalized. Currently, the ILO is working with IGAD on the second phase of the study, a field work that looks into the links between climate change, migration and employment in selected migration corridors in Djibouti, Ethiopia and Uganda. A comprehensive report, comprising the</li> </ol>

						<p>two phases of the study will be published.</p> <p>In addition,</p> <ol style="list-style-type: none"> <li>a. An inception workshop with 30 key stakeholders, involving TFD members, PDD and IOM, was held for a new research project on the “Impact of COVID- 19 on nexus between climate change, labour market and migration in South Asia” in January 2021 (ILO). The report is currently being finalized and will be released in September.</li> <li>b. The upcoming Global Report on Internal Displacement selected and analysed good practices for presentation, which will focus on disaster displacement and climate change (IDMC).</li> </ol> <p>New research underway in collaboration with ADB on the socio-economic impacts of disaster displacement and climate impacts in Asia and Pacific, with 5 in- depth country studies (IDMC).</p>
7.	<p>Raise awareness on integrating displacement in the context of climate change into national laws, policies and strategies, including on disaster response, building on mappings and lessons learned</p>	<p>Enhanced support for formulating laws, policies and strategies that reflect efforts to avert, minimize and address displacement</p>	<p>Dissemination of relevant mappings, case studies, lessons learned from ongoing projects, and guidance, including through written materials (e.g. leaflets, policy briefs) and side events at relevant meetings</p> <p>Regional and national training</p> <p>Updated mapping of relevant national migration policies, based on the previous mapping conducted under the TFD (pillar I: policy/practice – national/subnational,</p>	<p>From 2020</p> <p>From 2020</p>	<p>IFRC/ILO/IOM/ UNHCR</p> <p>IOM</p>	<p>The following products/outputs have been produced:</p> <ol style="list-style-type: none"> <li>a. A new IFRC Fact Sheet entitled “<a href="#">Climate and Disaster Displacement: The Importance of Disaster Law and Policy</a>” has been published. The fact sheet is based on the <a href="#">new IFRC Disaster Law Checklist on Law and Disaster Preparedness and Response</a> and accompanying <a href="#">Synthesis Report (IFRC)</a>.</li> <li>b. The UNHCR supported the Federal Government of Somalia’s development and recent adoption of a <a href="#">National Durable Solutions Strategy</a> that considers internal displacement by all causes, including recurrent climate-related disasters.</li> <li>c. <a href="#">“Legal considerations regarding claims for</a></li> </ol>

			activity I.1)		<p><a href="#">international protection made in the context of the adverse effects of climate change and disasters</a>” (UNHCR, October 2020). This document sets out key legal considerations to guide States, legal practitioners and other actors concerning the applicability of international and regional refugee and human rights law when cross-border displacement occurs in the context of the adverse effects of climate change and disasters.</p> <p>d. <a href="#">“Refugee Law in a Time of Climate Change, Disaster and Conflict”</a> (UNHCR, January 2020), published, providing legal analysis of the refugee definition in the 1951 Convention and regional refugee criteria in Africa and Latin America, particularly where conflict and/or violence interacts with disaster. It discusses the applicability of refugee law when international protection claims arise related to the adverse effects of climate change and disasters.</p> <p>In addition,</p> <p>a. CARICOM was supported in drafting a Plan of Action to “Address Human Mobility in Contexts of Disasters and Climate Change” under the Caribbean Migration Consultations (CMC). The Plan of Action was presented and welcomed by technical and mid-level officials among the CMC constituency in 2019, while higher-level endorsement by CARICOM Member States remains pending. (UNHCR/IOM/PDD).</p> <p>b. The <a href="#">joint statement of UN agencies on the right to a healthy environment</a> delivered at the 46th session of the Human Rights Council (UNHCR); and the theme “Covid-19 and climate change: what can we learn?” was discussed with governmental partners, NGOs, UN sister agencies and representatives of displaced populations, at</p>
--	--	--	---------------	--	--

					<p>the UN High Commissioner for you Refugee’s 2020 Dialogue on Protection Challenges.</p> <p>c. Supporting the IGAD secretariat towards the process of drafting and adopting of the Free Movement of Persons Protocol (ILO). The draft IGAD protocol on Free Movement of Persons, which has specific provisions related to the disaster mobility, is endorsed by the Ministers of labour and Ministers of interior of all IGAD member states in February 2020.</p> <p>The following work is underway:</p> <p>a. Mapping of the national, regional and global level migration policies initiated and expected to be finalized by mid-2021 (IOM).</p> <p>b. Supporting national policy efforts through the development of a step-by-step model of how national migration policy frameworks can integrate climate factors (IOM).</p> <p>c. Supporting governments including of Mozambique, Burkina Faso, Mali, Chad and Nigeria to domesticate the African Union Convention for the Protection and Assistance of Internally Displaced Persons in Africa (the Kampala Convention) through the development of laws and policies relating to the protection of IDPs, including those displaced by the adverse effects of disasters and climate change (UNHCR, in cooperation with other relevant stakeholders).</p>
--	--	--	--	--	---

8.	Continue to raise awareness of the work of the TFD in relevant processes	Keeping the issue of climate change and displacement high on the agenda of relevant processes	<p>Sharing of information on TFD work, where appropriate</p> <p>Development of the standard TFD one- pager internal note to be used when TFD members conduct outreach work</p>	<p>At the regional reviews of the Global Compact for Migration in 2020</p> <p>At the Global Platform for Disaster Risk Reduction meeting in 2021 and via regional platforms</p>	IOM/others Executive Committee champions (development of the one-pager)	<p>The following work is underway:</p> <ol style="list-style-type: none"> <li>a. Delays due to COVID-19 specific to work on the Global Compact for Safe, Orderly and Regular Migration. Regional reviews to be finalized by beginning of September 2021 (IOM).</li> <li>b. Integration of climate change and migration in the 2021 United Nations Migration Network workplan completed. activities include: <ul style="list-style-type: none"> <li>• Coordinate technical guidance and promote capacity building</li> <li>• Enhance dialogue, advocacy and collaboration (exchange of practices and knowledge with key stakeholders)</li> <li>• Ensure cross fertilization of messages on climate change and migration with Champion countries on both issues</li> </ul> </li> </ol>
9.	Facilitate the assessment of economic impacts of displacement in the context of climate change at the national level	Enhanced understanding of the scale of the cost/economic impact of displacement in the context of climate change	Presentation of assessment outcomes to the TFD	To be confirmed	Youth non-governmental organizations/ Advisory Group Civil Society Organisations (IDMC)	<p>A series of case studies on the impact of disaster displacement is produced and made available <a href="#">here</a>. In addition, a case study on economic impacts of the Australian bushfires was published in January 2021 (IDMC).</p> <p>The following products are being developed:</p> <ol style="list-style-type: none"> <li>a. Five new country case studies in the Asia-Pacific region, in partnership with the Asian Development Bank, expected to be delivered in 2021.</li> <li>b. Three new country studies in sub-Saharan Africa underway (Ethiopia, Nigeria, Somalia).</li> <li>c. Updated cost estimates, including disaster displacement impacts, in upcoming Global Report.</li> <li>d. New estimates for disaster displacement contexts and a method to assess impacts on specific sectors. A report on disaster displacement, risk and impacts in the Asia Pacific region is going to be published in mid-2021.</li> </ol>

TFD Plan of Action 2019-2021

10.	Conduct a seminar on labour migration and climate resilience	Increased knowledge, skills and understanding of key issues and responses around labour migration and climate resilience	Design, preparation and delivery of a training course	Completed	ILO/ International Training Centre of ILO in Turin/ universities in the region	Following the COVID-19 restrictions and cancellation of international flights, the Labour Governance training for PICs was changed to an online-based 'e-Academy on Labour Migration' and was facilitated by the ITCILO in Turin. The LMA took place from 09 November to 18 December 2020. Some 47 participants from 11 ILO Pacific member states took part in the LMA.
11.	Exchange and share information on human mobility, including migration, displacement and planned relocation, among the expert groups of the Executive Committee	Displacement considered under all relevant workstreams, as appropriate	Joint discussions of the expert groups of the Executive Committee in relation to each workstream relevant to addressing displacement and mobility  Contribution to outputs under all relevant workstreams  Mapping of examples of effective practices and lessons learned in relation to planned relocation	Continuous    From 2020	Executive Committee champions    IOM/relevant partners	Planned relocation mapping finalized by IOM and other actors, PDD, GIZ.
12.	Provide capacity- building opportunities using relevant training materials on migration, environment and climate change	Enhanced capacity of countries to consider migration, environment and climate change in their long-term planning	Capacity-building activities in various regions	From 2019	ILO/IOM/PDD/ UNHCR	COVID-19 prevented national consultations and training (in- person) in 2020 and 2021.  The following products/programmes have been completed:  a. E-learning modules of the disaster displacement guidelines for the Central American and Caribbean regions regions have been concluded and piloted in Central America, Caribbean and with individual countries (e.g Chile).  b. The Cook Islands Ministry of Internal Affairs was supported to launch a new online Employment Services platform. The link to the platform can be found <a href="#">here (ILO)</a> .  Briefings on disaster displacement data and risk assessments in workshop format with national governments and regional organisations in the Pacific (IDMC).  IOM Migration, Environment and Climate

					<p>Change capacity building continued roll out in several countries, including Sri Lanka, Niger, Nigeria, Burkina Faso, MENA, Americas.</p> <p>The following projects/ initiatives are underway:</p> <ol style="list-style-type: none"> <li>a. Project in IGAD region - “<a href="#">Free movement of persons and transhumance in the IGAD Region</a>: Improving opportunities for regular labour mobility” (2017- 2022), (ILO).</li> <li>b. The implementation of the Pacific Response to Disaster Displacement (PRDD) project is ongoing (IDMC, PDD and IOM).</li> <li>c. UNHCR, IOM, PDD, IDMC along with other stakeholders are contributing to the development of an online training module on climate change, human rights and human mobility (displacement, migration and planned relocation). The initiative is led by OHCHR.</li> <li>d. The <a href="#">joint programme</a> funded by the MPTF Migration launched in March with ILO, IOM, UNHCR, UNOPS (PDD) on “Addressing Drivers and Facilitating Safe, Orderly and Regular Migration in the Contexts of Disasters and Climate Change in the IGAD Region” and contributes to facilitating pathways for regular migration in the IGAD region and minimizing displacement risk in the context of climate change, environmental degradation and disasters in line with the vision and guiding principles of the Global Compact for Safe, Orderly and Regular Migration (GCM). This will be achieved through addressing needs and gaps in I) Data and knowledge; II) National and regional policy frameworks; III) Disaster displacement preparedness and IV) Regular migration pathways.</li> <li>e. Pacific Climate Change Migration and Human Security (PCCMHS) Programme in the Pacific entitled, “<a href="#">Enhancing protection and</a></li> </ol>
--	--	--	--	--	---

						<p><a href="#">empowerment of migrants and communities affected by climate change and disasters in the Pacific region”</a> (2019-2022) (led by IOM in partnership with ILO, OHCHR, UNESCAP, PIFS and PDD.)</p>
13.	<p>Assist Parties in assessing the risk of displacement, including through technical support and sharing tools and practices</p>	<p>Enhanced capacity for data collection, risk assessment and analysis in relation to displacement</p>	<p>User-friendly knowledge products on displacement risk assessment methods, good practices and lessons learned</p> <p>Regional events and national workshops, including in the Pacific and sub-Saharan Africa, building on existing initiatives</p> <p>Dissemination and sharing of practices at the global and regional level, including with the TEG-CRM</p>	<p>From 2020</p>	<p>Advisory Group Civil Society Organisations (IDMC)/IOM/PDD</p>	<p>Activity 13 included and planned for in the 2020-2022 PRDD Project (PDD, IOM and IDMC).</p> <p>The following products are being developed:</p> <ol style="list-style-type: none"> <li>A regional disaster displacement risk model (IDMC with ETH Zurich, regional experts and 4 countries in the Pacific region) in partnership with regional organization including SPC.</li> <li>Developing country-specific risk profiles as a basis for engagement with countries in the Pacific and the PRDD Project, in partnership with country governments and regional organizations (IDMC and PDD).</li> <li>Analysis of urban displacement risk in the Pacific, with two city case studies under way (IDMC).</li> </ol> <p><b>Completed:</b></p> <ul style="list-style-type: none"> <li>First Meeting of the Thematic Working Group of the Migration Dialogue for West Africa on Climate change, land degradation, desertification, environment and migration: <a href="https://environmentalmigration.iom.int/MIDWA-MECC-Meeting-March2021">https://environmentalmigration.iom.int/MIDWA-MECC-Meeting-March2021</a> by IOM and ECOWAS</li> <li>Policy Dialogues in the Pacific in the context of the programme Enhancing protection and empowerment of migrants and communities affected by climate change and disasters in the Pacific region (PCCMHS) by IOM</li> <li>Regional Dialogue to Address Human Mobility and Climate Change Adaptation in the Eastern Caribbean launched by IOM <a href="https://environmentalmigration.iom.int/projects/regional-dialogue-address-human-mobility-and-climate-change-">https://environmentalmigration.iom.int/projects/regional-dialogue-address-human-mobility-and-climate-change-</a></li> </ul>

						adaptation-eastern-caribbean
14.	Support Parties in integrating displacement risk into DRR strategies and combining action on DRR and climate change	Countries supported in implementing integrated approaches	Use of, inter alia, the UNDRR <i>Words into Action</i> guidelines on disaster displacement and supplementary NAP guidelines	To be confirmed	IOM/Norwegian Refugee Council/PDD/UHCR	<p>The following products are being developed:</p> <ol style="list-style-type: none"> <li>a. Words into Action (WIA) Guidelines on Disaster Displacement for Nepal, Southern Africa region and Andean region (PDD and IOM).</li> <li>b. Translation of the WIA Guidelines into French and adaptation to the context in West and Central Africa (UNHCR).</li> <li>c. A tool to assess the capacity of disaster risk reduction and climate change adaptation governmental actors to address human mobility is being piloted by IOM under the Capacity for Disaster Reduction Initiative (CADRI) with UN partners).</li> <li>d. Dedicated recommendations section on integrating disaster displacement considerations, data collection and analysis into DRR strategies and climate change adaptation plans in the upcoming Global Report on Internal Displacement (IDMC).</li> </ol>
15.	Support Parties in strengthening their understanding of preparedness for displacement related to the adverse impacts of climate change, including early warning systems, contingency planning, evacuation planning and resilience-building strategies and plans, and support them in developing innovative approaches to preparedness, for example forecast- based financing	Parties having knowledge of and access to tools and innovative approaches (e.g. guidance, case studies, lessons learned, briefing papers and finance) to strengthen preparedness for displacement related to the effects of climate change	<p>Supporting the accessibility of existing preparedness and innovative tools for Parties and stakeholders</p> <p>Supporting the inclusion of displacement related to the effects of climate change in existing preparedness initiatives and dialogues (e.g. under the World Bank, United Nations Development Programme and UNDRR)</p> <p>Development and dissemination of a technical briefing paper on preparedness and innovative approaches, as appropriate</p>	To be confirmed	IFRC/PDD/UNHCR	<p><b>The following actions have been completed:</b></p> <ol style="list-style-type: none"> <li>a. A new Issue Brief entitled <b>“Forecast-Based Financing and Displacement: Acting Early to Reduce Humanitarian Impacts”</b> has been released and is available <a href="#">here</a>. The Issue Brief addresses opportunities and challenges associated with utilizing forecast-based financing (FbF) to support anticipatory humanitarian action in the context of disaster and climate displacement. The Issue brief addresses the challenges of COVID-19 on humanitarian response such as, the challenge of adapting evacuation centres in Bangladesh to be COVID safe.</li> <li>b. The UN High-Level Panel on Internal Displacement in collaboration organized a</li> </ol>

						<p>virtual discussion on the prevention of internal displacement due to armed conflict/violence and disasters on 6 July 2020. A full recording of the Panel Discussion is available <a href="#">here</a> (IFRC/ICRC).</p> <p>The following products are being developed:</p> <ul style="list-style-type: none"> <li>a. A global training toolkit on displacement and climate (IFRC), available here: <a href="https://ctk.climatecentre.org/training/module-2/2g">https://ctk.climatecentre.org/training/module-2/2g</a></li> <li>b. Guidance for Asia Pacific National Societies on supporting planned relocation in the context of disasters and climate change (IFRC).</li> <li>c. Plan for simulation exercises on disaster displacement for Colombia-Ecuador in November 2021(PDD).</li> </ul> <p>The following projects are being developed:</p> <ul style="list-style-type: none"> <li>a. Predictive Analytics Initiative for the Sahel Region. An innovative UN High Level Committee on Programmes (HLCP)-backed pilot project to leverage data for anticipatory planning across humanitarian, development and peacebuilding pillars, including the interconnected impacts on displacement arising from climate change, food insecurity, violence and socioeconomic factors in the Sahel region. UNHCR leadership of the project has been transferred to the Special Coordinator for Development in the Sahel in 2021 to facilitate implementation of the United Nations Integrated Strategy for the Sahel (UNISS) and of the region's governments.(UNHCR)</li> <li>b. "Implementing global policies to address the challenges of environmental migration, climate change and disaster displacement in West Africa and the Sahel." 2020-2022: Concept note developed; project development in progress. (UNHCR/IOM).</li> </ul>

16.	Help to make available supplementary guidelines on integrating human mobility into relevant national planning processes, including the process to formulate and implement NAPs, as appropriate	Countries supported in integrating human mobility into relevant national planning processes, including the process to formulate and implement NAPs, as appropriate	Piloting of guidelines in support of country planning (as requested by Parties)  Contribution of ILO guidance on labour migration mobility, through piloting of ILO guidelines, and any other TFD activity for piloting guidance	In 2020  In 2021	IOM/Executive Committee champions  ILO	<p>The following initiatives are currently being undertaken:</p> <ol style="list-style-type: none"> <li>a. Supporting national policy efforts through the development of a step-by-step model of how NAPs can integrate migration dimensions to support national policy development (IOM), planning to collaborate with LEG on the implementation of activity 16. Finalization estimated by mid-2021 (IOM and ILO).</li> <li>b. A reintegration sub-policy and action plan for Kiribati returned migrant workers has been drafted following consultations with the tripartite and key stakeholders in Kiribati. This document will be validated in August 2021.</li> <li>c. Development of people-centred activities, policies/ action plans in Tuvalu and Kiribati (ILO).</li> </ol> <p>In addition, <a href="#">consultations</a> with Tuvalu and Kiribati tripartite partners conducted to discuss a standard employment contracts (SECs) report for migrant workers and relevant human rights and labour standards across the fisheries and horticulture sectors as part of the Pacific Climate Change Migration and Human Security (PCCMHS) programme. The SEC report has been finalized as key sections of the report are now being translated into Tuvuluan and Gilbertese. i (ILO).</p>
17.	Collaborate with the Least Developed Countries Expert Group and the Adaptation Committee to raise awareness of the importance of integrating consideration of human mobility in the context of climate change	Consideration of human mobility challenges in relevant national planning processes, including the process to formulate and implement NAPs	Via NAP Expo/possibly a topic under the Adaptation Forum	To be confirmed	Executive Committee champions/IOM	To collaborate with LEG on the implementation of activity 17 (IOM and ILO).

<p>18.</p>	<p>Support the inclusion of the challenges of displacement related to the adverse effects of climate change in the work of the UN Secretary General’s High-Level Panel on Internal Displacement (HLP)</p>	<p>Consideration of displacement related to the adverse effects of climate change included in the work of the high-level panel</p>	<p>Sharing the recommendations and the work of the TFD, as appropriate</p> <p>Dialogue and engagement in relevant events of the high-level panel</p> <p>Submission of a background/briefing paper, as appropriate</p>	<p>Completed</p>	<p>PDD/UNHCR/ IOM/IDMC/others</p>	<p>The organizations of TFD members have made various submissions to the High-Level Panel that draw attention to adverse climate impacts and integrated approaches to avert, minimise, address and resolve internal displacement including:</p> <ol style="list-style-type: none"> <li>a. <a href="#">UNHCR submission: A Review of Innovative Financing</a> (Dec. 2020); <a href="#">Mechanisms for Internally Displaced Persons: Unlocking Solutions for the Internally Displaced</a> (Sept. 2020) (UNHCR)</li> <li>b. A submission to the High-Level Panel on Internal Displacement on “<a href="#">Internal displacement in the context of disasters and the adverse effects of climate change</a>” (PDD and <a href="#">IDMC</a>).</li> <li>c. A submission to the High Level Panel on Internal Displacement from the IFRC here: <a href="https://www.un.org/internal-displacement-panel/sites/www.un.org.internal-displacement-panel/files/2021_ifrc_submission_to_unhlp_-_final.pdf">https://www.un.org/internal-displacement-panel/sites/www.un.org.internal-displacement-panel/files/2021_ifrc_submission_to_unhlp_-_final.pdf</a></li> <li>d. IOM: Internal Displacement in the Context of the Slow-Onset Adverse Effects of Climate Change - Submission by the International Organization for Migration to the Special Rapporteur on the Human Rights of Internally Displaced Persons <a href="https://environmentalmigration.iom.int/internal-displacement-context-slow-onset-adverse-effects-climate-change-submission-international">https://environmentalmigration.iom.int/internal-displacement-context-slow-onset-adverse-effects-climate-change-submission-international</a></li> </ol> <p>The following work has been completed:</p> <ol style="list-style-type: none"> <li>a. A regional consultation on disaster displacement in Asia co-organized on 19 November 2020 (UNHCR through its involvement in the GP20 initiative on internal displacement). Its recommendations will feed into the deliberations of the UNSG’s High Level Panel on internal displacement (IDMC).</li> </ol>
------------	---	--	---	------------------	-----------------------------------	--

						<p>Series of discussions took place from November 2020 to March 2021 on disaster displacement data, displacement risk assessments and good practices, with the aim of developing joint recommendations that will inform the 2021 GRID and work of the High-level Panel on Internal Displacement (IDMC and its partners).</p> <p>Pacific Regional Consultation On Internal Displacement With UN Secretary General's High-Level Panel On Internal Displacement  <a href="http://www.resilientpacific.org/pacific-regional-consultation-on-internal-displacement/">http://www.resilientpacific.org/pacific-regional-consultation-on-internal-displacement/</a></p> <p>In addition, the upcoming 2021 Global Report on Internal Displacement will focus on internal displacement, disasters and climate change.</p>
19.	Organize (a) training/awareness- building workshop(s) for youth on displacement in the context of climate change	Increased awareness among youth on displacement in the context of climate change, and youth voices brought into considerations under the WIM/Convention	Workshops and events at sessions of the COP and COYs	COP and COY 25 and 26	Youth non-governmental organizations	
20.	Identify opportunities for accessing existing funding and develop guidance on preparing project proposals on averting, minimizing and addressing displacement related to climate change for the GCF, other funds and donors	<p>Better understanding of how to access finance, including through the GCF</p> <p>Enhanced access to finance for averting, minimizing and addressing displacement associated with climate change</p>	<p>Meeting with the operating entities of the Financial Mechanism and the Adaptation Fund</p> <p>Development of relevant guidance for Parties</p>	In 2021	<p>Executive Committee champions/ILO/IOM</p> <p>IOM (development of guidance)</p>	<p>A joint proposal on addressing drivers and facilitating safe, orderly and regular migration in the contexts of disasters and climate change in the IGAD region have been approved by the UN Network on migration Multi Partner Trust Fund in February 2021 (ILO, IOM, UNHCR, UNOPS, PDD) and started in March 2022.</p> <p>The following proposal and project are being developed:</p> <ol style="list-style-type: none"> <li>Joint proposal on labour mobility for sustainable development and climate resilience in the Pacific (ILO/ IOM). This has been developed and submitted to the Migration Multi Partner Trust Fund.</li> <li>Dry Corridor project to create alternative green jobs to prevent migration, particularly among youth, and address land degradation (ILO and UNCCD).</li> </ol>

TFD Plan of Action 2019-2021

						The guidance note on accessing GCF funding is underway by IOM.
21.
