

Submission by Australia, Canada, Japan, New Zealand, and the United States on how to restructure the finance section

We welcome constructive work by parties over the last few days, and look forward to ongoing discussion while we are here in Bonn. With that in mind, we offer this submission as a possible way to guide our work by identifying clusters of paragraphs that address similar thematic elements.

Notes:

- Underlined paragraphs have been streamlined in the working document that is current as of this submission.
- **Bold** paragraphs fall in to more than one cluster. In these instances, we would propose that Parties discuss which options/paragraphs should be placed in which cluster.
- These clusters are for the purpose of organizing the text in the working document and would, in our view, not appear in the Agreement. This submission is without prejudice to whether paragraphs would be included in the Agreement or decisions.
- Parties may also wish to discuss the most logical ordering of paras within these clusters.
