

In terms of differentiation Ukraine would like to make the following submission:
In draft of Agreement in "Definitions" section to put a place holder for "countries in need of support".

In both drafts of Agreement and Decision:

- to add after all words 'developing': ", countries in need of support (including EIT)";
- to add after all words 'developed': "and countries in a position to do so".

Sincerely,

Shtets Viktoriia

On behalf of Ukraine
